2014 11 2017-05-16 this book constitutes the refereed proceedings of the international conference on computer vision and graphics iccv 2014 held in warsaw poland in september 2014 the 81 full papers presented were carefully reviewed and selected from various submissions they cover various important aspects of computer vision and graphics

Computer Vision and Graphics 2014-06-20 ein paar zutaten und eine pfanne reichen noch lange nicht aus um ein köstliches essen zu zaubern genauso wenig reichen eine kamera und ein videobearbeitungsprogramm um spektakuläre videos zu erstellen vielmehr musst du wissen wie du damit umgehst beim kochen helfen dir rezepte beim filmen mit der gopro hilft dir dieses buch du lernst wie du spektakuläre gopro videos mit system erstellst einen haufen zeit sparst und dabei richtig spaß hast auch wenn du bisher noch nicht so ganz zufrieden mit deinen ergebnissen warst und kaum erfahrung mit dem filmen oder der videobearbeitung hast das buch begleitet dich bei jedem schritt auf dem weg zu deinem wunsch video die kapitel sind so aufgebaut dass du von a bis z durch den gesamten prozess der gopro videoerstellung geführt wirst die planung und vorbereitung das verständnis der kamera das filmen die nachbearbeitung gleichzeitig ermöglicht der aufbau ein schnelles gezieltes nachschlagen der tipps die du in deiner situation gerade brauchst welche einstellung wähle ich wie beginne ich mein video wie vermeide ich verwackelte aufnahmen welche befestigung oder perspektive eignet sich am besten wie hole ich die beste bildqualität heraus wo finde ich gute passende und legale musik was muss ich überhaupt bei der videobearbeitung machen welche effekte kann ich wie einbauen erspare dir endloses rumprobieren zahlreiche fehlschläge und tonnenweise papierkorbtafelmaterial mit diesen bewährten tipps und techniken

GoPro! 2014-11-05 learn everything you need to know about creating video using the single camera format from preproduction planning to setting up rehearsing shooting striking and pleasing your audience harness lighting audio editing and aesthetic techniques that will enhance the quality of your video projects and keep your clients coming back for more simple elegant and easy to use single camera video production sixth edition is a staple in any video artist s library whether you re just learning the basics of video production or you re a veteran who needs a refresher this book provides you with a toolkit for understanding and implementing single camera workflows as well as how to use the single camera format to its best advantage by emphasizing the importance of goals audience analysis and technology this new edition has been updated to include expanded sections on digital workflows field and studio production preproduction planning audio lighting distribution and nonlinear editing techniques detailed gear lists covering the latest camera recorder audio lighting and stabilization equipment used in the industry today fresh tips on creating video for your target audience and exhibition platform and shooting for the editing process insider career advice including tips on how to get an internship interviewing finding a job and earning a promotion a companion website focalpress com cw musburger with video examples of the techniques discussed in the book as well as evolving updates on key technological shifts

Single-Camera Video Production 2019-06-26 test keyser 2015 catalog

Keyser 2015 Product Catalog (test) 2017-03-14 from the 1 amazon best selling author on gopro cameras specifically for the gopro hero 4 black edition this is the perfect guide book for anyone who wants to learn how to use a gopro hero 4 black camera to get great videos and photos designed for an active lifestyle travelers snowboarders bikers hikers kayakers surfers skiers standup paddlers boaters and more will find valuable knowledge with the lessons in this book with more than 100 images this book provides clear step by step lessons to get you out there using your gopro hero 4 black camera to document your adventures this book covers everything you need to know about using your gopro hero 4 camera the book teaches you how choose your settings tips for the most useful gopro mounts vital photography knowledge simple photo video and time lapse editing techniques and how to share your first edited video and photos through the six steps laid out in this book you will understand your camera and learn how to use free software to finally do something with your results this book is perfect for beginners but also provides in depth knowledge that will be useful for intermediate camera users written specifically for the hero 4 black edition camera

GoPro HERO 4 BLACK: How To Use The GoPro HERO 4 BLACK 2022-07-30 load testing of

bridges featuring contributions from almost fifty authors from around the world across two interrelated volumes deals with the practical aspects the scientific developments and the international views on the topic of load testing of bridges volume 13 load testing of bridges proof load testing and the future of load testing focuses first on proof load testing of bridges it discusses the specific aspects of proof load testing during the preparation execution and post processing of such a test part 1 the second part covers the testing of buildings the third part discusses novel ideas regarding measurement techniques used for load testing methods using non contact sensors such as photography and video based measurement techniques are discussed the fourth part discusses load testing in the framework of reliability based decision making and in the framework of a bridge management program the final part of the book summarizes the knowledge presented across the two volumes as well as the remaining open questions for research and provides practical recommendations for engineers carrying out load tests this work will be of interest to researchers and academics in the field of civil structural engineering practicing engineers and road authorities worldwide

Load Testing of Bridges 2018-05-23 the three volume set consisting of lncs 10116 10117 and 10118 contains carefully reviewed and selected papers presented at 17 workshops held in conjunction with the 13th asian conference on computer vision accv 2016 in taipei taiwan in november 2016 the 134 full papers presented were selected from 223 submissions lncs 10116 contains the papers selected

Computer Vision – ACCV 2016 Workshops 2022-11-10 load testing of bridges featuring contributions from almost fifty authors from around the world across two interrelated volumes deals with the practical aspects the scientific developments and the international views on the topic of load testing of bridges volume 12 load testing of bridges current practice and diagnostic load testing starts with a background to bridge load testing including the historical perspectives and evolutions and the current codes and guidelines that are governing in countries around the world the second part of the book deals with preparation execution and post processing of load tests on bridges the third part focuses on diagnostic load testing of bridges volume 13 load testing of bridges proof load testing and the future of load testing focuses first on proof load testing of bridges it discusses the specific aspects of proof load testing during the preparation execution and post processing of such a test part 1 the second part covers the testing of buildings the third part discusses novel ideas regarding measurement techniques used for load testing methods using non contact sensors such as photography and video based measurement techniques are discussed the fourth part discusses load testing in the framework of reliability based decision making and in the framework of a bridge management program the final part of the book summarizes the knowledge presented across the two volumes as well as the remaining open questions for research and provides practical recommendations for engineers carrying out load tests this work will be of interest to researchers and academics in the field of civil structural engineering practicing engineers and road authorities worldwide

Load Testing of Bridges: Two Volume Set 2013-09-17 with augmented reality also termed as a view of the real world is augmented by superimposing computer generated graphics thereby enriching or enhancing the perception of the reality today lots of applications benefit from ar in different areas such as education medicine navigation construction gaming and multiple other areas using primarily head mounted ar displays and ar on hand held smart devices tablets and phones are highly suitable for ar as they are equipped with high resolution screens good cameras and powerful processing units while being readily available to both industry and home use they are used with video see through ar where the live view of the world is captured by a camera in real time and subsequently presented together with the computer graphics on the display in this thesis i put forth our recent work on improving video see through augmented reality graphics and interaction for hand held devices by applying and utilizing user perspective on the rendering side we introduce a geometry based

user perspective rendering method aiming to align the on screen content with the real view of the world visible around the screen furthermore we introduce a device calibration system to compensate for misalignment between system parts on the interaction side we introduce two wand like direct 3d pose manipulation techniques based on this user perspective we also modified a selection technique and introduced a new one suitable to be used with our introduced manipulation techniques finally i present several formal user studies evaluating the introduced techniques and comparing them with concurrent state of the art alternatives

Perspective Correct Hand-held Augmented Reality for Improved Graphics and Interaction 2016-04-22 the book presents the select proceedings of the 8th international conference on transportation systems engineering and management ctsem 2021 the book covers topics pertaining to three broad areas of transportation engineering namely transportation planning traffic engineering and pavement technology the topics covered include transportation and land use urban and regional transportation planning travel behavior modeling travel demand analysis forecasting and management transportation and ict public transport planning and management freight transport traffic flow modeling and management highway design and maintenance capacity and level of service traffic crashes and safety its and applications non motorized transportation transportation economics and policy road and parking pricing pedestrian facilities and safety road asset management pavement materials and characterization pavement design and construction pavement evaluation and management transportation infrastructure financing innovative trends in transportation systems sustainable transportation smart cities resilience of transportation systems and environmental and ecological aspects this book will be useful for the students researchers and the professionals in the area of civil engineering especially transportation and traffic engineering

Recent Advances in Transportation Systems Engineering and Management 2013-04-11 490 million people log on to youtube each month and business owners need to know how to capture them or better yet be the initial reason for their visit jason rich shares the expertise of practicing entrepreneurs delivering a step by step strategy supported by valuable insights tips and resources from video production to promotion author jason r rich details how to use the power of youtube to promote business brands products or services ultimately attracting new customers unfamiliar entrepreneurs receive a full tutorial on pre production and production essentials from developing video ideas that attract attention to overcoming lighting and sound challenges amateur producers receive a full list of equipment needed and they gain tips from well known youtube users on how to produce quality spots without breaking the bank after covering the basics rich joined by youtube savvy entrepreneurs reveals how small business owners can drive viewers to contact their business rich also shows entrepreneurs how they can make money while promoting themselves

Ultimate Guide to YouTube for Business 2018 drones quadcopters uncrewed aerial vehicles uavs whatever they re called remotely controlled aircraft have changed the way we see the world the way we manage crops the way we sell real estate and the way we make war this book contains tutorials about how to understand what drones can do and projects about how to make your own flying craft from some of the earliest practitioners in the field

DIY Drone and Quadcopter Projects 2014-11-18 immer mehr menschen werden vom modellhubschrauber virus befallen manche entdecken die quirligen fluggeräte in einer spielzeugabteilung andere haben bereits erfahrung mit rc modellen und wollen den heliflug ihrem repertoire hinzufügen wie auch immer deine voraussetzungen und kenntnisse sind dieses buch zeigt dir wie du mit geduld und system an das hobby herangehst damit du immer gut gelaunt bleibst und dein geldbeutel auch peter jedamski stellt auf dem gebiet der elektro helis ausführlich die verschiedenen klassen vor beschreibt einzelne modelle genauer und geht detailliert auf die bauarten der helikopter ein ebenfalls nicht zu kurz kommt die technik der motoren und servos der akkus und der verschiedenen fernsteuerungssysteme der autor begleitet

dich bei auswahl und kauf montage und wartung deines helikopters bei den flugvorbereitungen und natürlich beim fliegen vom ersten hüpfen bis zu echten 3 d figuren flugneulinge und fortgeschrittene finden in diesem buch jede menge technische infos wertvolle tipps und tricks aber auch unterhaltsame anekdoten aus dem modellfliegerleben des autors aus dem inhalt modellauswahl welcher heli passt zu mir das richtige werkzeug und zubehör aerodynamik warum und wie fliegt ein helikopter mechanische baugruppen und elektronik die steuerfunktionen der verschiedenen helis die fernsteuerung technik und frequenzen bedienelemente und programmierung alles über akkus und ladetechniken flugsimulatoren welche es gibt und was sie bieten bevor es in die lüfte geht vorflugcheck und trimmflug flugfiguren vom schweben bis zum looping der erste eigene heli unboxing montieren und einstellen luftbilder und fpv die besten kameras für den blick aus dem cockpit wo und wie du fliegen darfst rechtliches und versicherungen

Der RC-Helikopter 2016-06-22 this book aims to further build capacity in the conservation community to use drones for conservation and inspire others to adapt emerging technologies for conservation

□□□□ 2017-01-10 where inspiration meets technical craft this guide to professional filmmaking with a gopro is packed with hundreds of beautiful photos and interactive links to videos created by professional athletes filmmakers and inspired gopro users around the world as the only book to cover the art and technique of advanced filmmaking by the team at gopro you ll get a unique insider s look at gopro s history all the different camera modes and settings standard and experimental mounts shooting principles and editing techniques compelling stories from users such as kelly slater shaun white and kevin richardson offer a rare view into an incredible world of athleticism artistic beauty and storytelling whether you re a professional filmmaker top athlete or an aspiring enthusiast you ll get all the inspiration and instruction you need to capture and create your own engaging edits to share with the world this book is an invaluable window into bradford and brandon s creative thinking and summarizes their years of experience hopefully it serves as a spark for you just as the authors have done for gopro from the foreword by nicholas woodman founder of gopro

Conservation Drones 2016-10-20 understanding and being able to predict fluvial processes is one of the biggest challenges for hydraulics and environmental engineers hydrologists and other scientists interested in preserving and restoring the diverse functions of rivers the interactions among flow turbulence vegetation macroinvertebrates and other organisms as well as the transport and retention of particulate matter have important consequences on the ecological health of rivers managing rivers in an ecologically friendly way is a major component of sustainable engineering design maintenance and restoration of ecological habitats to address these challenges a major focus of river flow 2016 was to highlight the latest advances in experimental computational and theoretical approaches that can be used to deepen our understanding and capacity to predict flow and the associated fluid driven ecological processes anthropogenic influences sediment transport and morphodynamic processes river flow 2016 was organized under the auspices of the committee for fluvial hydraulics of the international association for hydro environment engineering and research iahr since its first edition in 2002 the river flow conference series has become the main international event focusing on river hydrodynamics sediment transport river engineering and restoration some of the highlights of the 8th international conference on fluvial hydraulics were to focus on inter disciplinary research involving among others ecological and biological aspects relevant to river flows and processes and to emphasize broader themes dealing with river sustainability river flow 2016 contains the contributions presented during the regular sessions covering the main conference themes and the special sessions focusing on specific hot topics of river flow research and will be of interest to academics interested in hydraulics hydrology and environmental engineering

GoPro 2015-03-18 shoot edit and share action packed video with a gopro the world moves fast so if you want to capture it in real time only a fast moving camera will do enter the gopro this small but powerful camera is easy to hold wear or mount to capture video of all your high speed adventures unfortunately to the uninitiated it can be a bit intimidating but fear not with the help of this revised edition of gopro cameras for dummies you ll acquire the skills needed to shoot high quality video or photos edit raw footage into a final masterpiece and share your gopro works of art with the world compared with traditional digital video devices the gopro is a superhero okay so it can t scale high rises but it can go virtually anywhere and produce thrilling new perspectives of an epic slalom down the slopes or awesomely scenic hike and everything in between when still photos simply won t do the trick gopro cameras for dummies shows you step by step how to use your gopro camera to make movies work with available light create time lapse sequences and so much more meet the full line of gopro cameras including the hero5 and find the one that s right for you get help setting your gopro to shoot better video discover what you need or don t need to shoot in the water find step by step guidance for capturing better sound edit your work like a gopro guru packed with full color photos and updated to cover the latest gopro cameras and software this fun and accessible guide is a gadget lover s dream

River Flow 2016 2019-11-28 the gopro karma drone is the first foldable drone the announcement was made in december of 2015 but the long awaited gopro is not yet up for purchase until october of this year it is lightweight and easy to use when compared to other drones currently on the market it is a professional grade drone that can be used by anyone and comes with its own backpack in addition the gopro karma drone requires no assembly simply remove from the backpack unfold the propeller and you are ready to use the parts can be easily replaced if damaged and the gopro karma is able to stand up to everyday wear and tear

GoPro Cameras For Dummies 2021-04-20 the four volume set lncs 8925 8926 8927 and 8928 comprises the refereed post proceedings of the workshops that took place in conjunction with the 13th european conference on computer vision eccv 2014 held in zurich switzerland in september 2014 the 203 workshop papers were carefully reviewed and selected for inclusion in the proceedings they were presented at workshops with the following themes where computer vision meets art computer vision in vehicle technology spontaneous facial behavior analysis consumer depth cameras for computer vision chlearn looking at people pose recovery action interaction gesture recognition video event categorization tagging and retrieval towards big data computer vision with local binary pattern variants visual object tracking challenge computer vision ontology applies cross disciplinary technologies visual perception of affordance and functional visual primitives for scene analysis graphical models in computer vision light fields for computer vision computer vision for road scene understanding and autonomous driving soft biometrics transferring and adapting source knowledge in computer vision surveillance and re identification color and photometry in computer vision assistive computer vision and robotics computer vision problems in plant phenotyping and non rigid shape analysis and deformable image alignment additionally a panel discussion on video segmentation is included

GoPro Karma Drone: Learning the Basics 2017-06-22 il volume 30 di archeologia e calcolatori si apre con un inserto speciale dedicato al trentennale della rivista alle introduzioni di f djindjian e di p moscati che delineano un quadro dell informatica archeologica nel suo divenire seguono gli articoli dei membri del comitato di redazione a testimoniare l attività di ricerca e di sperimentazione che ha caratterizzato il cammino editoriale della rivista e il contributo di una giovane laureata dell università bocconi che ha lavorato a stretto contatto con il team di archeologia e calcolatori nella parte centrale sono pubblicati gli articoli proposti annualmente dagli autori ne emerge un quadro che rappresenta gli aspetti applicativi più qualificanti dell informatica archeologica le banche dati i gis le analisi statistiche i sistemi multimediali ma che guarda oggi con sempre maggiore interesse

agli strumenti di visualizzazione scientifica e di comunicazione delle conoscenze il volume si chiude con gli atti del xii workshop archeofoss free libre and open source software e open format nei processi di ricerca archeologica un iniziativa lodevole nata nel 2006 cui si è più volte dato spazio nelle pagine della rivista

Computer Vision - ECCV 2014 Workshops 2018-09-28 bridge maintenance safety management life cycle sustainability and innovations contains lectures and papers presented at the tenth international conference on bridge maintenance safety and management iabmas 2020 held in sapporo hokkaido japan april 11 15 2021 this volume consists of a book of extended abstracts and a usb card containing the full papers of 571 contributions presented at iabmas 2020 including the t y lin lecture 9 keynote lectures and 561 technical papers from 40 countries the contributions presented at iabmas 2020 deal with the state of the art as well as emerging concepts and innovative applications related to the main aspects of maintenance safety management life cycle sustainability and technological innovations of bridges major topics include advanced bridge design construction and maintenance approaches safety reliability and risk evaluation life cycle management life cycle sustainability standardization analytical models bridge management systems service life prediction maintenance and management strategies structural health monitoring non destructive testing and field testing safety resilience robustness and redundancy durability enhancement repair and rehabilitation fatigue and corrosion extreme loads and application of information and computer technology and artificial intelligence for bridges among others this volume provides both an up to date overview of the field of bridge engineering and significant contributions to the process of making more rational decisions on maintenance safety management life cycle sustainability and technological innovations of bridges for the purpose of enhancing the welfare of society the editors hope that these proceedings will serve as a valuable reference to all concerned with bridge structure and infrastructure systems including

engineers researchers academics and students from all areas of bridge engineering
Archeologia e Calcolatori, 30, 2019 2019-01-08 the ur ban mv project funded by the german federal ministry for economic affairs and energy bmwi focused specifically on the user of future vehicle assistance and information systems in the case of advanced driver assistance systems for urban areas the primary emphasis is safety in combination with efficiency and comfort research institutes and automotive industry have investigated human vehicle interaction and behaviour of different traffic participants this book gives a unique and comprehensive insight into the results driver assistance and information systems were optimized for use in urban settings furthermore innovative test regimes for controllability testing and new evaluation techniques like networked simulators and virtual reality test beds are described including statistical methodologies

Bridge Maintenance, Safety, Management, Life-Cycle Sustainability and Innovations 2015-12-09 this book is a printed edition of the special issue sensors and techniques for 3d object modeling in underwater environments that was published in sensors

UR: BAN Human Factors in Traffic 2020-01-27 the 8th international conference on physical modelling in geotechnics icpmg2014 was organised by the centre for offshore foundation systems at the university of western australia under the auspices of the technical committee 104 for physical modelling in geotechnics of the international society of soil mechanics and geotechnical engineering this quadrennial conference is the traditional focal point for the physical modelling community of academics scientists and engineers to present and exchange the latest developments on a wide range of physical modelling aspects associated with geotechnical engineering these proceedings together with the seven previous proceedings dating from 1988 present an inestimable collection of the technical and scientific developments and breakthroughs established over the last 25 years these proceedings include 10 keynote lectures from scientific leaders within the physical modelling community and 160 peer reviewed papers from 26 countries they are organised in 14 themes

presenting the latest developments in physical modelling technology modelling techniques and sensors through a wide range of soil structure interaction problems including shallow and deep foundations offshore geotechnics dams and embankments excavations and retaining structures and slope stability fundamental aspects of earthquake engineering geohazards ground reinforcements and improvements and soil properties and behaviour are also covered demonstrating the increasing complexity of modelling arising from state of the art technological developments and increased understanding of similitude principles a special theme on education presents the latest developments in the use of physical modelling techniques for instructing undergraduate and postgraduate students in geotechnical engineering

Sensors and Techniques for 3D Object Modeling in Underwater Environments 2015-02-01

El libro describe los principios de la modelación 3D de objetos en entornos submarinos, desde la adquisición de datos hasta la reconstrucción de la geometría y la textura. Se detallan las técnicas de escaneo láser y fotogrametría, así como los desafíos de la turbulencia y la visibilidad reducida. El texto incluye ejemplos de aplicaciones en arqueología submarina y conservación del patrimonio cultural.

ICPMG2014 - Physical Modelling in Geotechnics die gopro ermöglicht spektakuläre und

faszinierende actionvideos und fotos damit das ganze richtig spaß macht und gelungene ergebnisse dabei herauskommen ist dieses buch genau das richtige für sie es führt sie in die grundlagen der kamera sowie der videoerstellung ein und gibt viele praxisnahe tipps sie lernen alles wesentliche zur bedienung der gopro zu den grundlegenden handgriffen sowie den richtigen aufnahmeparametern kennen sie finden auch ideen wie sie die gopro nutzen können wenn sie kein Extremsportler sind etwa bei luftaufnahmen mit multikoptern oder zeitraffersequenzen das umfangreiche zubehör zur gopro kommt ebenfalls nicht zu kurz und wenn die videos im kasten sind zeigt der autor auf wie sie ihr material bearbeiten und schneiden können sodass sie mit wenig aufwand tolle videos mit wow effekt haben

El outdoor training persigue potenciar las habilidades laborales y personales de los trabajadores mediante una metodología vivencial basada en el aprendizaje a través de la experiencia directa

GoPro der bullet time oder time slice effekt bezeichnet in der filmkunst einen spezialeffekt bei dem der anschein erweckt wird dass eine kamerafahrt um ein in der zeit eingefrorenes objekt simuliert wird dieser filmeffekt erlaubt es besonders bei schnellen abrupten handlungen und geschnehnissen das szenario aus verschiedenen perspektiven zu betrachten neben dem stillstand sind ebenso die verlangsamung sowie das rückwärtige abspielen der zeit möglich der filmische bullet time effekt wird nicht mit hilfe einer echten kamerafahrt umgesetzt sondern vielmehr mit aufnahme vieler aneinander gereihter kameras bei denen das zeitgleiche bild genommen und zu einer sequenz zusammengefügt wird

"Outdoor training", una nueva fórmula para incentivar al trabajador

Este artículo describe una metodología de formación basada en la experiencia directa para mejorar las habilidades laborales y personales. Se detallan los beneficios de este enfoque y se ofrecen ejemplos de actividades prácticas que pueden ser aplicadas en el entorno laboral.
