1994

the book advances the state of the european union s policy theory by taking stock of seven promising frameworks of the policy process systematically comparing their limitations and strengths and offering a strategy to develop robust research agendas frameworks may constitute competing policy explanations depending on assumptions they make about eu institutional and issue complexity the frameworks include detailed analyses of multi level governance advocacy coalitions punctuated equilibrium multiple streams policy learning normative power europe and

constructivism besides generating a fertile dialogue that transcends the narrow confines of eu policy contributions highlight the value of intellectual pluralism and the need for clear and rigorous explanations of the policy process this book was published as a special issue of the journal of european public policy

Journal of Agricultural Research

1939

this monograph has the ambitious aim of developing a mathematical theory of complex biological systems with special attention to the phenomena of ageing degeneration and repair of biological tissues under individual self repair actions that may have good potential in medical therapy the approach to mathematically modeling biological systems needs to tackle the additional difficulties generated by the peculiarities of living matter these include the lack of invariance principles abilities to express strategies for individual fitness heterogeneous behaviors competition up to proliferative and or destructive actions mutations learning ability evolution and many others applied mathematicians in the field of living systems especially biological systems will

appreciate the special class of integro differential equations offered here for modeling at the molecular celular and tissue scales a unique perspective is also presented with a number of case studies in biological modeling

The Texas civil appeals reports

1917

derrick jensen takes no prisoners in the culture of make believe his brilliant and eagerly awaited follow up to his powerful and lyrical a language older than words what begins as an exploration of the lines of thought and experience that run between the massive lynchings in early twentieth century america to today s death squads in south america soon explodes into an examination of the very heart of our civilization the culture of make believe is a book that is as impeccably researched as it is moving with conclusions as far reaching as they are shocking
