this book was written to inform prospective readers of current trends in image processing and communications area image processing and communications represent a dynamic part of computer science playing increasingly important role in an information era this book presents the new approaches in image processing and computer vision telecommunications networks based information systems mathematical methods for these applications this book is a collection of carefully selected chapters presenting the fundamental theory and practice of various aspects of image data processing and communications the book consists of two sections image processing und communications the image processing section of this book provides an inside on mainly on theories and methodologies as well as the emerging applications of image processing various aspects of new trends and techniques in this field are discussed in the book covering the following topics biometrics low level processing motion stereo and tracking pattern recognition video medical image analysis applications the book summarises new developments in these topics В номере Нетбуки молодым везде у нас дорога Тестирование нетбуков на платформе intel pine trailНесмотря на то что корпорация intel в свое время достаточно жестко регламентировала характеристики нетбуков ограничив размер экрана объем оперативной памяти и жесткого диска а microsoft предоставила для использования на нетбуках только одну версию ОС windows xp производители продолжают выпускать все новые и новые версии компактных ноутбуков Стабильность залог здоровья Выбираем недорогой ИБП для домаНесмотря на технический прогресс все же порой проблемы с электросетью приводят к большим потерям времени денег а также лишней нервотрепке причем особенно в тех областях которые связаны с вычислительной техникой В данной статье будут рассмотрены источники бесперебойного питания ценой 2 3 тыс руб предназначенные для дома или небольшого офиса Навигация для всех Продолжаем рассматривать автомобильные gps навигаторыВне всяких сомнений gps навигаторы по прежнему занимают лидирующие позиции на рынке автомобильных аксессуаров И это неудивительно ведь такие приборы по сути давно уже стали стандартным оснащением не только дорогих иномарок но и самой обыкновенной классики дополняя привычные автомагнитолы и mp3 проигрыватели Удобство без проводовСовременные беспроводные комплекты клавиатура мышь позволяют избавиться от кабелей на рабочем столе переложив функции по передаче информации на радиоволны Чтобы помочь читателю разобраться в многообразии

представленных на рынке моделей мы исследовали пять беспроводных комплектов Испытания проводились в условиях максимально приближенных к боевым полигоном служил обычный офисный стол заваленный документацией книгами и различными устройствами создающими помехи для радиосвязи Даешь свободное ПО Или не даешь С тех пор как на самом верху заговорили о необходимости внедрения свободного программного обеспечения в российских школах прошло уже три года В июле 2007 г тогдашний министр информационных технологий и связи России Л Рейман обещал что уже в 2009 г отечественное ПО будет установлено на всех школьных компьютерах Но прошел 2009 й перевалил за середину 2010 й а воз и ныне там Из Кирибати в Кимры и обратно Роуминг и его разумные альтернативыЕще четверть века назад путешествие со своим телефоном было фантастикой Теперь услуга Роуминг превратилась в пугало для туристов и головную боль для финансовых департаментов корпораций Все попытки минимизировать расходы на междугороднюю и международную связь пока ни к чему не приводят Точнее связь дешевеет но подозрительно медленно summary powershell in depth second edition is the go to reference for administrators working with windows powershell every major technique technology and tactic is carefully explained and demonstrated providing a hands on guide to almost everything an admin would do in the shell written by three experienced authors and powershell mvps this is the powershell book you ll keep next to your monitor not on your bookshelf purchase of the print book includes a free ebook in pdf kindle and epub formats from manning publications about the book a windows admin using powershell every day may not have the time to search the net every time he or she hits a snag wouldn t it be great to have a team of seasoned powershell experts ready to answer even the toughest questions that s what you get with this book powershell in depth second edition is the go to reference for administrators working with windows powershell every major technique technology and tactic is carefully explained and demonstrated providing a hands on guide to almost everything an admin would do in the shell written by powershell mvps don jones jeffrey hicks and richard siddaway each valuable technique was developed and thoroughly tested so you ll be able to consistently write production quality maintainable scripts while saving hours of time and effort this book assumes you know the basics of powershell what s inside automating tasks packaging and deploying scripts introduction to desired state configuration powershell security covers powershell version 3 and later about the authors don jones jeffery hicks and richard siddaway are microsoft mvps trainers and administrators collectively they ve authored nearly three dozen books on powershell and windows administration table of contents part 1 powershell fundamentals introduction powershell hosts using the powershell help system the basics of powershell syntax working with pssnapins and modules operators working with objects the

powershell pipeline formatting part 2 powershell management powershell remoting background jobs and scheduling working with credentials regular expressions working with html and xml data psdrives and psproviders variables arrays hash tables and script blocks powershell security advanced powershell syntax part 3 powershell scripting and automation powershell s scripting language basic scripts and functions creating objects for output scope powershell workflows advanced syntax for scripts and functions script modules and manifest modules custom formatting views custom type extensions data language and internationalization writing help error handling techniques debugging tools and techniques functions that work like cmdlets tips and tricks for creating reports part 4 advanced powershell working with the component object model com working with net framework objects accessing databases proxy functions building a gui wmi and cim working with the web desired state configuration jika anda ingin membeli komputer jinjing manakah yang akan anda pilih notebook atau netbook apa itu netbook apabila anda memiliki segudang pertanyaan tentang notebook dan netbook buku ini pantas anda baca anda akan mengetahui perbedaan antara notebook dan netbook selain itu anda juga bisa mempelajari seluk beluk seputar netbook yang sayang sekali jika anda lewatkan buku ini mengupas teknologi di balik netbook mulai dari processor motherboard dan istilah istilah teknis lainnya yang harus anda ketahui apabila anda sudah mengenal istilah istilah tersebut anda akan belajar tentang kiat kiat memilih netbook dan cara merawat komputer jinjing termurah ini anda juga akan belajar mengenal software yang bisa anda install ke dalam netbook untuk mempercanggih komputer jinjing mini ini jadi sebelum anda memutuskan untuk membeli notebook atau netbook mengapa tidak membaca buku ini terlebih dulu this book contains a selection of thoroughly refereed and revised papers from the fourth international icst conference on digital forensics and cyber crime icdf2c 2012 held in october 2012 in lafayette indiana usa the 20 papers in this volume are grouped in the following topical sections cloud investigation malware behavioral law mobile device forensics and cybercrime investigations Рассматривается состояние разработок отечественных и зарубежных фирм в области электронной компонентной базы Предлагается методика автоматизированного поиска перспективных компонентов Определяются перспективные типы электронных приборов и интегральных микросхем которые должны серийно выпускаться предприятиями Российской Федерации с целью внедрения в отечественной электронной технике четвертого и пятого технологических укладов Для инженерно технических работников связанных с разработкой и использованием современной электронной компонентной базы Может быть полезно студентам и аспирантам электротехнических и радиотехнических вузов 5128 meeting the needs of the manufacturing and service

sectors of contemporary industry this volume is concerned with the human factors ergonomics and safety issues related to the design of products processes and systems as well as the operation and management of business enterprises this book will be of special value to researchers and practitioners involved in the design of products processes systems and services which are marketed and utilized by a variety of organizations around the world this four volume set lncs 6761 6764 constitutes the refereed proceedings of the 14th international conference on human computer interaction hcii 2011 held in orlando fl usa in july 2011 jointly with 8 other thematically similar conferences the revised papers presented were carefully reviewed and selected from numerous submissions the papers accepted for presentation thoroughly cover the entire field of human computer interaction addressing major advances in knowledge and effective use of computers in a variety of application areas the papers of this volume are organized in topical sections on touch based and haptic interaction gaze and gesture based interaction voice natural language and dialogue novel interaction techniques and devices and avatars and embodied interaction the asia information retrieval societies conference airs 2010 was the sixth conference in the airs series aiming to bring together international researchers and developers to exchange new ideas and the latest results in information trieval the scope of the conference encompassed the theory and practice of all aspects of information retrieval in text audio image video and multimedia data airs 2010 continued the conference series that grew from the information retrieval with asian languages iral workshop series started in 1996 it has become a mature venue for information retrieval work nding support from the acm special interest group on information retrieval sigir the association for computational linguistics and chinese language processing aclclp rocling and the information processing society of japan special interest grouponinformationfundamentals andaccess technologies ipsjsig ifat this year saw a sharp rise in the number of submissions over the previous year a total of 120 papers were submitted representing work by academics and practitioners not only from asia but also from australia europe north america etc the high quality of the work made it di cult for the dedicated programcommitteetodecidewhichpaperstofeatureattheconference through adouble blindreviewingprocess 26submissions 21 wereacceptedasfulloral papers and 31 25 were accepted as short posters the success of this conferencewas only possible with the support of allof the authorswho submitted papers for review the programcommittee members who constructively assessedthe submissions and the registered conference delegates we thank them for their support of this conference and for their long term support of this asian centric venue for ir research and development this book

constitutes the thoroughly refereed post proceedings of the 7th symposium on foundations and practice of security fps 2014 held in montreal qc canada in november 2014 the 18 revised full papers presented together with 5 short papers and 2 position papers were carefully reviewed and selected from 48 submissions the papers are organized in topical sections on privacy software security and malware analysis network security and protocols access control models and policy analysis protocol verification and cryptographic technologies this book highlights recent findings in industrial manufacturing and mechanical engineering and provides an overview of the state of the art in these fields mainly in russia and eastern europe a broad range of topics and issues in modern engineering are discussed including the dynamics of machines and working processes friction wear and lubrication in machines surface transport and technological machines manufacturing engineering of industrial facilities materials engineering metallurgy control systems and their industrial applications industrial mechatronics automation and robotics the book gathers selected papers presented at the 5th international conference on industrial engineering icie held in sochi russia in march 2019 the authors are experts in various fields of engineering and all papers have been carefully reviewed given its scope the book will be of interest to a wide readership including mechanical and production engineers lecturers in engineering disciplines and engineering graduates Бизнес журнал b mag ru самое массовое всероссийское деловое издание адресованное предпринимателям управляющим собственникам и топ менеджерам компаний Выходит ежемесячно в более чем 20 регионах России общим тиражом около 100 тысяч экземпляров Журнал является открытой площадкой для обмена предпринимательским опытом для распространения информации о лучших деловых практиках и популяризации современных управленческих финансовых и маркетинговых инструментов Основное внимание редакция уделяет публикациям затрагивающим практические аспекты ведения бизнеса в России this book constitutes the refereed proceedings of the 11th international joint conference on e business and telecommunications icete 2014 held in vienna austria in august 2014 icete is a joint international conference integrating four major areas of knowledge that are divided into six corresponding conferences international conference on data communication networking dcnet international conference on e business ice b international conference on optical communication systems optics international conference on security and cryptography secrypt international conference on wireless information systems winsys and international conference on signal processing and multimedia sigmap the 27 full papers presented were carefully reviewed and selected from 328 submissions the papers cover the following key areas of e business and telecommunications data communication networking e business
