Mader, Inquiry Into Life, 2017, 15e, Student Edition, Reinforced Binding 2016-01-20

Dr. Sylvia Mader's text *Inquiry into Life* was originally developed to reach out to science shy students. The text now represents one of the cornerstones of introductory biology education. *Inquiry into Life* was founded on the belief that teaching science from a human perspective coupled with human applications would make the material more relevant to the student. This text along with the *Inquiry into Life* 15th edition represent an ongoing project in the development of a continuously updated textbook as scientists and educators. The authors of this text are well aware that scientific discovery is a dynamic process. Fortunately, the advances in digital publishing are allowing authors to update content on an ongoing basis which in turn is promoting the ability to update content on a regular basis. This text represents the prototype of those efforts.

Lab Manual for Biology 2015-02-23

Basic biological concepts and processes with a human emphasis from the unique delivery of biology content to the time tested art program to the complete integration of the text with technology Dr. Sylvia Mader has formed a teaching system that will both motivate and enable your students to understand and appreciate the wonders of all areas of biology. *Inquiry into Life* 14^e emphasizes the application of all areas of biology to knowledge of human concerns. What the students are able to relate to this distinctive text was developed to stand apart from all other non majors texts with a unique approach unparalleled art and a straightforward succinct writing style that has been acclaimed by both users and reviewers. In the 14th edition the authors have focused on the concept of inquiry and a student's inherent desire to learn to do this they integrated a tested traditional learning system with modern digital and pedagogical approaches designed to stimulate and engage today's student.

Loose Leaf Version for Inquiry into Life 2019-01-22

Instructors consistently ask for a textbook that helps students understand the relationships between the main concepts of biology so they are not learning facts about biology in isolation. Mader's concepts of biology was developed to fill this void organized around the main themes of biology. Concepts of biology guides students to think conceptually about biology and the world around them just as the levels of biological organization flow from one level to the next. Themes and topics in concepts of biology are tied to one another throughout the chapter and between the chapters and parts combined with Dr. Mader's hallmark writing style exceptional art program and pedagogical framework difficult concepts become easier to understand and visualize allowing students to focus on understanding how the concepts are related. The integration of text and the digital world are now complete with McGraw Hill's ConnectPlus and LearnSmart ConnectPlus allows you assign content from the text by learning outcomes and the reporting features are the best in the market. Users who purchase Connect Plus receive access to the full online ebook version of the textbook.

Loose Leaf Version of Inquiry into Life 2013-01-24

Instructors consistently ask for a human biology textbook that helps students understand the main themes of biology through the lens of the human body. Mader's human biology 14th edition accomplishes the goal of improving scientific literacy while establishing a foundation of knowledge in human biology and physiology. The text integrates a tested traditional learning system with modern digital and pedagogical approaches designed to stimulate and engage today's student. Dr. Michael Windelspecht represents the new generation of digital authors through the integration of an array of multimedia resources. Michael has committed to delivering the tried and true content of the Mader series to the new generation of digital learners. A veteran of the online hybrid and traditional teaching environments Michael is well versed in the challenges facing the modern student and educator. Michael personally guided and oversaw all aspects of Connect and LearnSmart content accompanying human biology 14th edition.
