Flint Knapping 2013

the philosopher s stone is a certain heavenly spiritual penetrative and fixed substance which brings all metals to the perfection of gold or silver according to the quality of the medicine and that by natural methods which yet in their effects transcend nature it is prepared from one substance with which the art of chemistry is conversant to which nothing is added from which nothing is taken away except that its superfluities are removed no one will question the utility of our art if he believes that it enables us to transmute base metals into gold that base metals are capable of such transmutation is clear nature has destined them all to become gold but they have not been perfectly matured if then that which hinders their perfect digestion be removed they will all become gold for crude cold and moist mercury is the common first substance of gold as well as of the other metals hence all other metals may be perfected into gold by the aid of our divine magistry which being projected upon imperfect metals has power to quicken the maturing process by as much as itself exceeds the standard maturity of gold how patent then must the spiritual nature of our stone be which can effect more in one hour by a bare projection than nature in the course of ages

A Field Guide to Digital Color 2016-04-19
