beowulf an introduction to the study of the poem with a discussion of the stories of offa and finn by r w raymond wilson chambers the unique ms of beowulf may be and if possible should be seen by the student in the british museum it is a good specimen of the elegant script of anglo saxon times a book got up with some care as if intended for the library of a nobleman or of a monastery yet this ms is removed from the date when the poem was composed and from the events which it narrates so far as these events are historic at all by periods of time approximately equal to those which separate us from the time when shakespeare s henry v was written and when the battle of agincourt was fought we are delighted to publish this classic book as part of our extensive classic library collection many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public the aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades the contents of the vast majority of titles in the classic library have been scanned from the original works to ensure a high quality product each title has been meticulously hand curated by our staff our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work we hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience

thus while beowulf represents the highest standards of virtue in the poem he does not represent the ideal christian ruler nor does his realm symbolize the ideal christian society ultimately unattainable on earth he is neither a christian nor a christ figure nor an old testament type for the allegory of the poem does not seem to work in that way he is poetically conceived as quite like his contrary for as grendel is simultaneously the historical descendant and spiritual representative of cain beowulf is metaphorically one of the sons of god symbolically representative of the moral goodness of man that moves however inconsistently and in whatever time towards the christian ideal of social harmony and civilized order introduction page 18
