few twenty first century academics take seriously mysticism s claim that we have direct knowledge of a higher or more inner reality or god but philosophical mysticism argues that such leading philosophers of earlier epochs as plato g w f hegel ludwig wittgenstein and alfred north whitehead were in fact all philosophical mystics this book discusses major versions of philosophical mysticism beginning with plato it shows how the framework of mysticism s higher or more inner reality allows nature freedom science ethics the arts and a rational religion in the making to work together rather than conflicting with one another this is how philosophical mysticism understands the relationships of fact to value rationality to ethics and the rest and this is why plato s notion of ascent or turning inward to a higher or more inner reality has strongly attracted such major figures in philosophy religion and literature as aristotle plotinus st ^{modern} dante alighie ^{industrial} ~~2023-04-07~~ ^{25/42}manuel kant hegel ^{organization 3rd} ~~2023-04-07~~ ^{edition}
