#### Popular Mechanics 2010-02-25

american motors was the little company that made a big impact maker of the rambler family car the kenosha based amc offered an antidote to the excess of detroit s big 3 but when america decided it wanted sporty rather than econocars amc got groovy with the javelin amx scrambler and rebel machine american motors was a proven performer in showrooms and on the track with success in drag and road course racing however through it all came solid rambler value and a different approach from detroit an accent on consumer protection

along with brand label special editions and when it came to blue sky thinking amc surpassed all with the gremlin and pacer small cars off road kenosha truly made jeep the one only popularizing the brand and making it the sales success it is today beyond that amc created america s first crossover the eagle it all proved that america s smallest was its biggest surprise
