Energy Efficiency Clauses in Charter Party Agreements
MARPOL Consolidated Edition 2011

Energy Efficiency Clauses in Charter Party Agreements 2016-12-10

this book provides practical solutions for addressing energy efficiency as a clause term within a charter party contract for this upon a reflection of the regulatory craft it analyzes key concepts of case law and discusses them together with commercial and economic principles in this way the book aims at offering a comprehensive interdisciplinary view of the chartering process together with a new approach for safeguarding energy efficiency investments a special emphasis is given to the maritime industry here the newly developed framework based on game theory has been successfully applied to demonstrate the importance of including a clause term in contract negotiation to achieve protection against both an uncertain market and an even more challenging shipping environment the book not only fills a gap in the literature covering a topic that has been largely neglected to date yet it offers researchers and practitioners extensive information to change the chartering process radically

MARPOL Consolidated Edition 2011 2011

the international convention for the prevention of pollution from ships 1973 marpol convention is concerned with preserving the marine environment through the prevention of pollution by oil and other harmful substances and the minimization of accidental discharge of such substances its technical content is laid out in six annexes the first five of which were in the 1973 convention as modified by the 1978 protocol and cover pollution of the sea by oil by noxious liquid substances in bulk by harmful substances in packaged form by sewage from ships and by garbage from ships

annex vi was adopted by the 1997 protocol and covers
air pollution from ships
