much discussed but poorly understood globalization is at once praised as the answer to all the world's problems and blamed for everything from pollution to poverty here berger and huntington bring together an array of experts who paint a subtle and richly shaded portrait showing both the power and the unexpected consequences of this great force the stereotypes of globalization characterized as american imperialism on the one hand and as an economic panacea on the other fall apart under close scrutiny surveying globalization from individual countries of the five major continents many globalizations shows that an emerging global culture does indeed exist while globalization is american in origin and content the authors point out that it is far from a centrally directed force like classic imperialism they examine the currents that carry this culture from a worldwide class of young professionals to non governmental organizations and define globalization's many variations as well as sub globalizations that bind regions together analytical incisive and stimulating many globalizations offers rare insight into perhaps the central issue of modern times one that is changing the west as much as the developing world provocative taken together the trenchant well written essays included in this collection provide indisputable evidence that an identifiable global culture is indeed emerging world policy journal analytical and penetrating belongs on the desks of anyone with an abiding interest in the forces shaping the world publishers weekly

this book is the result of a three day conference held in april 2014 at the university of montreal canada discussing the relevance of the work of hegel and marx in today s world particularly with regard to the ecological economic political and anthropological crisis facing humanity accordingly the book an exploration of the specific nature of the crisis we face both in our everyday lives and in the realm of theory however if indeed the necessity of a proper critique kritikos is intimately linked to a state of crisis krisis the conceptual frame necessary to produce such a critique may itself be in crisis among the vast number of critical oppositions to contemporary capitalism what are the keys available to understand the present forms of human conditions alienation and exploitation controversies and divisions among the different tendencies within the critical tradition tend to highlight the point that there is also a theoretical crisis which prevents a proper diagnosis of the actual crisis and prevents in turn a proper plan of action from being established looking back to marx and hegel allowed a return if not to the sources at least to two unavoidable influences among the various critical approaches to capitalism be it with or against hegel and or marx the criticisms of modernity post modernity and capitalism cannot neglect the shadows of these thinkers both marx s and hegel s philosophical sociological and political enterprises must be linked historically to the will to diagnose and solve what they saw as the most important crises of their own time from in hegel s case the spiritual crisis which followed the advent of modernity and its accompanying turmoil to the social and political crisis caused by capitalism and the advent of a new industrial society in marx s case both intellectual ventures are at every turn haunted by the notion of crisis this book will appeal to anyone interested in hegel s and marx s philosophical and political theories not only does it provide the historical context necessary to understand properly the relation between marx and hegel but it also places the relevance of their teachings for the contemporary reader in perspective

an important feature of ghanaiian tertiary education is the foundational african studies programme which was initiated in the early 1960s unfortunately hardly any readers exist which bring together a body of knowledge on the themes issues and debates which inform and animate research and teaching in african studies particularly on the african continent this becomes even more important when we consider the need for knowledge on africa that is not eurocentric or sensationalised but driven from internal understandings of life and prospects in africa dominant representations and perceptions of africa usually depict a continent in crisis rather than buying into external representations of africa with its lacks and aspirations for western modernities we insist that african scholars in particular should be in the forefront of promoting understanding of the pluri lingual overlapping and dense reality of life and developments on the continent to produce relevant and usable knowledge continuing and renewed interest in africa s resources including the land mass economy minerals visual arts and performance cultures as well as bio medical knowledge and products by old and new geopolitical players obliges african scholars to transcend disciplinary boundaries and to work with each other to advance knowledge and uses of those resources in the interests of africa s people

in the realm of political discourse there is a distinct gap in understanding between russia and the west to an outsider the ideas that animate the actions of russia's ruling elite opposition and civil society from the motivations driving russia's political actors to the class structure and international and domestic constraints that shape russia's political thinking remain shrouded in mystery contrary to the view that a bleak discursive uniformity reigns in vladimir putin's russia political ideologies in contemporary russia shows that the country is engaging in serious theoretical debates across a wide spectrum of modern ideologies including liberalism nationalism feminism and multiculturalism elena chebankova argues that the nation is fragmented and the state seeks to balance the various ideological movements to ensure that none dominates she shows that each of the main ideological trends is far from uniform but the major opposition is between liberalism and traditionalism the pluralistic picture she describes contests many current portrayals of russia as an authoritarian or even totalitarian state offering an alternative to the western lens through which to view global politics political ideologies in contemporary russia is a major contribution to our understanding of this world power
