ever since the first edition of Ligotti's *Songs of a Dead Dreamer* appeared in 1985 it was clear that here was an author of extraordinary brilliance now here is a book about him a symposium of explorations and examinations of the Ligottian universe by leading critics this book is a historical and cultural interpretation of a symbolic place in the United States Harlan County Kentucky from pioneer times to the beginning of the third millennium based on a painstaking and creative montage of more than 150 oral narratives and a wide array of secondary and archival matter 1985 2000 5360 pages

117th edition provides tables and graphs of statistics on the social political and economic conditions of the United States each section has an introductory text each table and graph has a source note appendix 1 includes guides to sources of statistics state statistical abstracts and foreign statistical abstracts examines technological trends in the U.S. using quantitative data the areas addressed are basic technology indicators agriculture business manufacturing and materials communications computers construction and infrastructure consumer products and entertainment education and libraries energy and environment military and law enforcement medicine and biotechnology space and transportation this expansive comprehensive guide includes listings for over 90 000 cards from all the most popular series dating from 1948 to 1995 and features current market values for complete sets and individual cards with more than 270 000 prices listed Dr. Beckett provides expert advice on market trends as well as a review of the past year in cards photos the unique nature of frontier cities and their development challenge Harvey Lithwick and Yehuda Grad us the advent of government downsizing and globalization has led to enormous competitive pressures as well as the opening of new opportunities how cities in remote frontier areas might cope with what for them might appear to be a devastating challenge is the subject of this book our concern is with frontier cities in particular in our earlier study *Frontiers in Regional Development* Rowman and Littlefield 1996 we examined the distinction between frontiers and peripheries the terms are often used interchangeably but we believe that in fact both in scholarly works and in popular usage very different connotations are conveyed by these concepts frontiers evoke a strong positive image of sparsely settled territories offering challenges adventure unspoiled natural landscapes and a different and for many an attractive life style frontiers are lands of opportunity peripheries conjure up negative images of inaccessibility inadequate services and political and economic marginality they are places to escape from rather than frontiers which is where people escape to peripheries are places of and for losers

stock market euphoria and blind faith in the post cold war economy have driven the topic of poverty from popular and scholarly discussion in the United States at the same time the gap between the rich and poor has never been wider the new poverty studies critically examines the new war against the poor that has accompanied the rise of the new economy in the past two decades and details the myriad ways poor people have struggled against it the essays collected here explore how global national and local structures of power produce poverty and affect the material well being social relations and politicization of the poor in updating the 1960s encounter between ethnography and U.S. poverty the new poverty studies highlights the ways poverty is constructed across multiple scales and multiple axes of difference questioning the common wisdom that poverty persists because of the pathology social isolation and welfare state dependency of the poor the contributors to the new poverty studies point instead to economic restructuring and neoliberal policy reforms which have caused increased social inequality and economic polarization in the U.S. contributors include Georges Fouron Donna Goldstein Judith Goode Susan B. Hyatt Catherine Kingfisher Peter Kwong Vin Lyon Callo Jeff Maskovsky Sandi Morgen Leith Mullings Frances Fox Piven Matthew Rubin Nina Glick Schiller Carol Stack Jill Weigt Eve Weinbaum Brett Williams and Patricia Zavella these contributions provide a dynamic understanding of poverty and immiseration

North American Dialogue Vol. 4 No. 1 Nov. 2001 in this utterly immersive volume Mike Wallace captures the swings of prosperity and downturn from the 1898 skyscraper driven boom to the bankers panic of 1907 the labor upheaval and violent repression during and after the first world war here is New York on a whole new scale moving from national to global prominence an urban dynamo driven by restless ambition boundless energy immigrant dreams and Wall Street greed within the first two decades of the twentieth

century a newly consolidated new york grew exponentially the city exploded into the air with skyscrapers jostling for prominence and dove deep into the bedrock where massive underground networks of subways water pipes and electrical conduits sprawled beneath the city to serve a surging population of new yorkers from all walks of life new york was transformed in these two decades as the world s second largest city and now its financial capital thriving and sustained by the city s seemingly unlimited potential wallace s new book matches its predecessor in pure page turning appeal and takes america s greatest city to new heights 1991 1996 6 the highly praised fourth edition of an invitation to environmental sociology brings out the sociology of environmental possibility inviting students to delve into this rapidly changing field written in a lively engaging style bell covers the broad range of topics in environmental sociology with a personal passion rarely seen in sociology textbooks with extensively updated material on the environmental situation this edition challenges readers with the complexity of environmental puzzles urban sprawl is not simply a development that undercuts the quality of life for suburbanites it has raised alarms across the nation as fair housing advocates environmentalists land use planners and even many suburban employers who cannot find the workers they need have recognized that the costs go far beyond aesthetics despite the agreement that something needs to be done there is no consensus on what works urban sprawl causes consequences and policy responses assembles leading scholars who analyze the major causes and consequences of urban sprawl and the policy initiatives that are being explored in response to these developments why did the chinese party state collapse so quickly after the onset of the cultural revolution the award winning author of china under mao offers a surprising answer that holds a powerful implicit warning for today s governments by may 1966 just seventeen years after its founding the people s republic of china had become one of the most powerfully centralized states in modern history but that summer everything changed mao zedong called for students to attack intellectuals and officials who allegedly lacked commitment to revolutionary principles rebels responded by toppling local governments across the country ushering in nearly two years of conflict that in places came close to civil war and resulted in nearly 1 6 million dead how and why did the party state collapse so rapidly standard accounts depict a revolution instigated from the top down and escalated from the bottom up in this pathbreaking reconsideration of the origins and trajectory of the cultural revolution andrew walder offers a startling new conclusion party cadres seized power from their superiors setting off a chain reaction of violence intensified by a mishandled army intervention this inside out dynamic explains how virulent factions formed why the conflict escalated and why the repression that ended the disorder was so much worse than the violence it was meant to contain based on over 2 000 local annals chronicling some 34 000 revolutionary episodes across china agents of disorder offers an original interpretation of familiar but complex events and suggests a broader lesson for our times forces of order that we count on to stanch violence can instead generate devastating bloodshed the bmw century profiles one hundred years of bmw car and motorcycle manufacturing a decade at a time with gorgeous photos and detailed text masterfully wrought a stunning story of caregiving with its questions of obligation and ethics and what it means to care for someone who perhaps didn t care for you the boston globe from the brilliantly original novelist and cultural critic lynne tillman comes mothercare an honest and beautifully written account of a sudden drastically changed relationship to one s mother and of the time and labor spent navigating the american healthcare system when a mother s unusual health condition normal pressure hydrocephalus renders her entirely dependent on you your sisters caregivers and companions the unthinkable becomes daily life in mothercare tillman describes doing what seems impossible handling her mother as if she were a child and coping with a longtime ambivalence toward her in tillman s celebrated style and as a rich noticer of strange things colm tóibín she describes without flinching the unexpected heartbreaking and anxious eleven years of caring for a sick parent mothercare is both a cautionary tale and sympathetic guidance for anyone who suddenly becomes a caregiver this story may be helpful informative consoling or upsetting but it never fails to underscore how impossible it is to get the job done completely right although asbestos was once considered a miracle mineral today even the word itself has ominous implications for all strata of our society incorporated in the past into over 3000 different industrial and consumer products as well as in building materials and military equipment opportunities for exposure continue to be ever present in our environment of all of us who are potentially exposed blue collar workers are at greatest risk countless thousands of workers and servicemen in a wide variety of trades were disabled or have died consequent to the health effects of asbestos and many more can be expected to be affected in years to come litigation continues and financial awards in the billions have bankrupt many fortune 500 companies and numerous smaller companies while one might implicate our forefathers in this widespread relentless medical catastrophe it has been only in recent

decades that science has appreciated the complexities of the problem and the long latencies before the asbestos associated diseases appear clinically after all these years prevention remains the hallmark of disease control as modern treatments remain to a large extent futile the international labour law reports is a series of annual publications of labour law judgements by the highest courts in a number of jurisdictions illr is intended primarily for the use of judges labour law practitioners industrial relations specialists and students who need or desire ready access to authoritative information of a comparative nature on problems arising in the field of labour law and industrial relations each judgement reprinted in illr is accompanied by headnotes and in practically all cases by an annotation which sets forth among other things the legal issues involved the basic facts of the case if not included in the judgement itself the relevant statutory provisions and judicial precedents the labour law and industrial relations context in which the case arose and the significance of the judgement in the development of the law the illr provide the reader with factual information that is not coloured by the personal views of the annotators as a rule judgements are printed in extenso editorial discretion has been relied upon to delete or to summarize portions of judgements that are purely technical or only of marginal interest volume 17 covers the period 1 october 1996 to 30 september 1997
