2018-01-12 counseling is like the use of analogies in counseling explores a way of working with students who might be resistant to the concept of counseling through the use of analogies students seem to be less resistant to the process analogies also help us to better understand the point of reference for the student the use of analogies is not a new experience for most people if you listen to everyday speech you will find most people using analogies to describe a situation how they feel or what they want to do analogies are a way of talking about experiences we each experience life uniquely so it is not possible to communicate identical interpretations of our experiences analogies help define our experiences to others by creating colored pictures like a collage layers of meaning are built from expansion of the analogy in exploration of its likeness and dissimilarities to the experience being described in working with students many resistances are bypassed when you tell a story analogies develop a kind of story a word picture
