Care and Support Rights After Neoliberalism **2022-04-28**

this book offers an approach to care and support policy prioritizing gender equality disability human rights and dignity for all

Ethics and Integrity in Research with Older People and Service Users 2023-11-24

setting out practical insights and guidance as well as addressing theoretical and philosophical aspects this volume includes contributions from researchers the researched and those in between on topics including dementia family carers and mental health with the common goal of producing high quality user relevant research

Service User and Carer Participation in Social Work 2007-06-28

this is the first text to examine the principal elements of service user involvement and participation across both adult and children s services a valuable learning resource it draws together information from research service users carers and practitioners across both groups in addition it gives an overview of the specific knowledge attitude and skills that social workers need for training at qualifying level and integrates theory with evidence to inform everyday social work practice furthermore case studies and activities encourage reflection and the application of this knowledge to practice situations

Planning and Support for People with Intellectual Disabilities 2007-03-15

thought provoking well written and offering a range of fresh and sometimes challenging perspectives planning and support should be essential reading for people working in the field of learning disabilities highly recommended involve magazine the authors outline the skills needed and common issues in case management practice across a range of people with different disabilities at different stages of their life emphasising the importance of taking a rights based approach to supporting people with learning disabilities the authors argue that effective case management needs to be individualised and carried out in partnership with the individual and their family in order to draw up a

lifestyle plan that meets their many needs including employment education vocational training therapy and behaviour support the book includes chapters on inter agency and cross sector negotiation and collaboration balancing rights and protection listening to individuals and families communication optimising health outcomes approaches to behaviour support ethical decision making and reflective supervision and the text is complemented by case studies throughout an essential reference for practitioners the book is also an invaluable guide for policy makers researchers and students nurses carers and people with intellectual disabilities and their families

Creativity and Social Support in Mental Health

2014-04-17

this book weaves together service users lived experiences of mental health recovery and ideas about how creative activities such as art music and creative reading and writing can promote it particularly within social and community settings

Z User Workshop, London 1992 2013-03-09

the z notation has been developed at the programming research group at the oxford university computing laboratory and elsewhere for over a decade it is now used by industry as part of the software and hardware development process in both europe and the usa it is currently undergoing bsi standardisation in the uk and has been proposed for iso standardisation internationally in recent years researchers have begun to focus increasingly on the development of techniques and tools to encourage the wider application of z and other formal methods and notations this volume contains papers from the seventh annual z user meeting held in london in december 1992 in contrast to previous years the meeting concentrated specifically on industrial applications of z and a high proportion of the participants came from an industrial background the theme is well represented by the four invited papers three of these discuss ways in which formal methods are being introduced and the fourth presents an international survey of industrial applications it also provides a reminder of the improvements which are needed to make these methods an accepted part of software development in addition the volume contains several submitted papers on the industrial use of z two of which discuss the key area of safety critical applications there are also a number of papers related to the recently completed zip project the papers cover all the main areas of the project including methods tools and the development of a z standard the first

publicly available version of which was made available at the meeting finally the volume contains a select bibliography and section on how to access information on z through comp specification z the international computer based usenet newsgroup z user workshop london 1992 provides an important overview of current research into industrial applications of z and will provide invaluable reading for researchers postgraduate students and also potential industrial users of z

Electronic Performance Support 2016-04-29

despite ubiquitous powerful technologies such as networked computers global positioning systems and cell phones human failures in decision making and performance continue to have disastrous consequences electronic performance support using digital technology to enhance human ability reminds everyone involved in education training human performance engineering and related fields of the enormous importance of this area ironically the more complex technology becomes the more performance support may be needed and that s why the extraordinary expertise shared in this book is especially valuable the authors emphasize the psychological aspects of performance support the fundamental limitations of human memory perception cognition conation and psychomotor skills and how they can be reduced through electronic

performance support as one of the most important pursuits of this century readers will find the material presented extremely useful because of its generic basis which underlines much of the contemporary use of electronic technology for supporting people who are engaged in problem solving activities at the same time the book gives examples of the application of electronic performance support in a number of specific domains possible future developments for electronic performance support are also discussed the technological challenges we face today both globally and locally are more urgent than most people seem willing to acknowledge and there is no time to waste putting the ideas expressed in this book into action

Handbook of Service User Involvement in Mental Health Research 2009-06-22

handbook of service user involvement in mental health research in recent years the need for patient and public involvement in medical research has been accepted around the world patient groups are gaining power and demanding their right to influence the direction of research while funding bodies are increasingly regarding patient involvement as a requirement for grant applications however current knowledge on how to involve service users in mental health research is sparse and dispersed this book provides clear guidance on best practice in this area with practical advice based on experience in countries around the world handbook of service user involvement in mental health research describes the background and principles underlying the concept of service user involvement in mental health research it provides relevant practical advice on how to engage with service users and how to build and maintain research collaboration on a professional level the book highlights common practical problems in service user involvement suggesting ways to avoid pitfalls and common difficulties combines the theoretical aspects of service user involvement in research with specific examples as well as with general practical guidelines represents the views of service users in a powerful combination with the views of other mental health professionals considers the different perspectives and needs of the stakeholders concerned includes a step by step guide on best practice in successful service user involvement handbook of service user involvement in mental health research is written for psychiatrists and other medical professionals managing people with psychiatric disorders as well as for researchers in the mental health field who want to develop projects with service user involvement it is vital reading for funding bodies requesting service user involvement and importantly is written for those service users who are interested in becoming involved in research

Web-based Support Systems 2010-03-02

based support systems wss are an emerging multidisciplinary research area in which one studies the support of human activities with the as the common platform medium and interface the internet affect every aspect of four modern life moving support systems to online is an increasing trend in many research domains one of the goals of wss research is to extend the human physical limitation of information processing in the information age research on wss is motivated by the challenges and opportunities arising from the internet the availability accessibility and exhibility of information as well as the tools to access this information lead to a vast amount of opportunities however there are also many challenges we face for instance we have to deal with more complex tasks as there are increasing demands for quality and productivity wss research is a natural evolution of the studies on various computerized support systems such as decision support systems dss computer aided design cad and computer aided software engineering case the recent advancement of computer and technologies make the implementation of more feasible wss nowadays it is rare to see a system without some type of interaction the research of wss is classified into four groups wss for specific domains

Psyche on the Skin 2017-03-15

it is a troubling phenomenon that many of us think of as a modern psychological epidemic a symptom of extreme emotional turmoil in young people especially young women cutting and self harm but few of us know that it was 150 years ago with the introduction of institutional asylum psychiatry that self mutilation was first described as a category of behavior which psychiatrists and later psychologists and social workers attempted to understand with care and focus psyche on the skin tells the secret but necessary history of self harm from the 1860s to the present showing just how deeply entrenched this practice is in human culture sarah chaney looks at many different kinds of self injurious acts including sexual self mutilation and hysterical malingering in the late victorian period self marking religious sects and self mutilation and self destruction in art music and popular culture as she shows while self harm is a widespread phenomenon found in many different contexts it doesn't necessarily have any kind of universal meaning it always has to be understood within the historical and cultural context that surrounds it bravely sharing her own personal experiences with self harm and placing them within its wider history chaney offers a sensitive but engaging account supported with powerful images that challenges the

misconceptions and controversies that surround this often misunderstood phenomenon the result is crucial reading for therapists and other professionals in the field as well as those affected by this emotive challenging act

Human Genome News 1989

the delivery of effective family support is a key global child welfare issue yet there is little consensus on what constitutes family support or what the best ways are to evaluate it evaluating family support thinking internationally thinking critically offers a full review of the conceptual and operational problems involved in this complex and topical field ilan katz and john pinkerton have brought together a team of experienced child care policy analysts and evaluators to present the current state of critical thinking alongside detailed international case studies the chapters offer revealing glimpses into the nature of family support across the world as well as an overview of the challenges facing both practitioners and researchers

Evaluating Family Support 2003-08-01

given the migration to more technologically driven services and resources in today s world as well as the range of digital innovations and research that have taken shape throughout the covid 19 pandemic it is important to consider the role that such advancements have played in supporting mental health initiatives throughout the covid 19 pandemic mental health service providers utilized technology and online environments more than ever before to care for people s mental health and emotional needs which has forced us to raise questions like how covid 19 has impacted mental health support and services and how technology has helped people with their mental health through this ongoing crisis along with outlooks for the future digital innovations for mental health support explores a range of current developments and topics surrounding the application of technology in mental health services including the need to examine the availability and forms of technologies to support mental health how technology is received by people and the providers of services utilizing technology how online platforms are increasingly being used for support and how efficacious these are as well as how they are monitored and the issues that arise from their use this publication provides an outlet with chapters focusing on empirical studies across a variety disciplines that utilize technologies and online platforms to support mental health and emotional well being including psychology counseling medicine education and

psychiatry covering topics such as counseling online and computer games to support mental health it is ideal for researchers academics healthcare professionals and students

Digital Innovations for Mental Health Support

2021-11-19

this the fifth issue of the annual publication organized by ada uk the intended audience includes managers needing contact addresses and access to information about ada products software and systems engineers using ada or those intending to use it requiring detailed technical information about the language moreover those readers new to ada will be able to gain useful insights about the language and its evolution

serving 2.5 billion users continuing its developments would secure much of the upcoming innovation and prosperity and it would underpin the sustainable growth in economic values and volumes needed in the future. Future internet infrastructures research is therefore a must. The future internet assembly fia is a successful conference that brings together participants of over 150 research projects from several distinct yet interrelated areas in the European Union framework programme 7 fp7. The research projects are grouped as follows: the network of the future as infrastructure connecting and orchestrating the future internet of people, computers, devices, content, clouds, and things; cloud computing; internet of services; and advanced software engineering. The public-private partnership projects on future internet future internet research and experimentation. The 26 full papers included in this volume were selected from 45 submissions. They are organized in topical sections named: software-driven networks, virtualization, programmability, and autonomic management; computing and networking; clouds; internet of things; and enabling technologies and economic incentives.

The Future Internet 2013-04-22

This book constitutes the proceedings of the 7th international conference on decision support systems technologies icdsst 2021 held during May 26-28, 2021. The conference was planned to take place in Loughborough, UK, and changed to an online format due to the COVID-19 pandemic. The EWG-DSS series of international conference on decision support system technology icdsst is planned to consolidate the tradition of annual events organized by the EWG-DSS in offering a platform for European and international DSS communities comprising the academic and industrial sectors to present state-of-the-art DSS research and developments, to discuss current challenges that surround decision-making processes, to exchange ideas about realistic and innovative solutions, and to co-develop potential business opportunities. The main aim of this year's conference is to investigate the role DSS and related technologies can play in mitigating the impact of pandemics and post-crisis recovery. The 10 papers presented in this volume were carefully reviewed and selected from 44 submissions. They were organized in two topical sections named: multiple criteria approaches and advances in decision support systems technologies and methods.

Decision Support Systems XI: Decision Support

Systems, Analytics and Technologies in Response to Global Crisis Management 2021-05-17

politics in scotland is an authoritative introduction to the contemporary political landscape in scotland and an essential text for undergraduate and postgraduate students of scottish politics written by leading experts in the field it is coherently organised to provide a clear and comprehensive overview of a range of themes in contemporary scottish politics key topics include government and electoral behaviour representation and political parties in scotland public policy and scotland s relationship with the rest of the world scottish politics both in the run up to and after the 2014 referendum the future of scottish government and politics this textbook will be essential reading for students of scottish politics british politics devolution government and policy

Politics in Scotland 2016-06-23

the first worldwide overview of planning support systems pss and their application in practice pss are geo technology related instruments consisting of theories information methods tools et cetera for support of unique professional public or private planning tasks at any spatial scale the aim is to advance progress in the development of pss which are far from being effectively integrated into the planning practice the text provides an internet based worldwide inventory of innovative examples and successful applications of pss in a number of different planning contexts in depth insights into the purposes content workings and applications of a very wide diversity of pss are given

Planning Support Systems in Practice 2012-11-02

this book constitutes the refereed proceedings of the 19th international conference on group decision and negotiation gdn 2019 held in loughborough uk in june 2019 the field of group decision and negotiation focuses on decision processes with at least two participants and a common goal but conflicting individual goals research areas of group decision and negotiation include electronic negotiations experiments the role of emotions in group decision and negotiations preference elicitation and decision support for group decisions and negotiations and conflict resolution principles the 17 full papers presented in this volume were carefully reviewed and selected from 98 submissions they were organized in topical sections named preference modeling for group

decision and negotiations collaborative decision making processes

of abuse throughout the focus is on best practice exemplified by
research findings of family centre impacts and outcomes in the uk the
usa and hong kong

Family Support and Family Centre Services 2018-08-10

the collection of reliable and comprehensive data on the magnitude
composition and distribution of a country s population is essential in
order for governments to provide services administer effectively and
guide a country s development the primary source of basic demographic
statistics is frequently a population census which provides hugely
important data sets for policy makers practitioners and researchers
working in a wide range of different socio demographic contexts the
routledge handbook of census resources methods and applications provides
a comprehensive and authoritative guide to the collection processing
quality assessment and delivery of the different data products that
constitute the results of the population censuses conducted across the
united kingdom in 2011 it provides those interested in using census data
with an introduction to the collection processing and quality assessment
of the 2011 census together with guidance on the various types of data
resources that are available and how they can be accessed it
demonstrates how new methods and technologies such as interactive
infographics and web based mapping are now being used to visualise
census data in new and exciting ways perhaps most importantly it
presents a collection of applications of census data in different social
and health science research contexts that reveal key messages about the

characteristics of the uk population and the ways in which society is changing the operation of the 2011 census and the use of its results are set in the context of census taking around the world and its historical development in the uk over the last 200 years the results of the uk 2011 census are a unique and reliable source of detailed information that are immensely important for users from a wide range of public and private sector organisations as well as those working in population studies human geography migration studies and the social sciences more generally

The Routledge Handbook of Census Resources, Methods and Applications 2017-08-24

the integration of technology into the transport planning sector has allowed for more stable yet increasingly complex models that enable better analysis techniques and new approaches to decision making these modern advances ensure higher productivity in addressing various planning problems using decision support systems for transportation planning efficiency is a valuable reference source of the latest scholarly research on the vast improvements that computational innovations have made for transportation planners featuring extensive coverage on a range of topics relating to spatial planning environmental risks of transport and traffic information systems this publication is a pivotal reference source for transportation planners professionals and academicians seeking expert information on a multitude of transportation issues this publication features timely chapters relevant to the area of transport planning including artificial neural network models logistics hubs urban growth and expansion accessibility modeling sustainable mobility hazardous materials transport and urban intersections

The Shortcut Guide to Improving IT Service Support Through ITIL 2007

this book constitutes the refereed proceedings of the second international conference on decision support systems technology icdsst 2016 held in plymouth uk may 23 25 the theme of the event was decision support systems addressing sustainability societal challenges organized by the euro association of european operational research societies working group of decision support systems ewg dss the 15 full papers presented in this book were selected out of 51 submissions after being carefully reviewed by internationally experts from the icdsst 2016 program committee and external invited reviewers the selected papers are representative of current and relevant research activities in various

areas of decision support systems such as sustainability and societal challenges risk management and project portfolio management business intelligence and knowledge management and technologies to improve system usability
