Technical Analysis of Stock Trends

1961

Technical analysis of stock trends is a book by John J. Murphy, published in 1961. It is a classic text in the field of technical analysis, focusing on the use of price and volume data to identify trends and trading opportunities. The book covers a wide range of topics, including the Dow theory, the Turtle trading system, and the use of moving averages and other technical indicators. It is widely regarded as one of the most influential books in the field of technical analysis.

The book is divided into several sections, each covering a different aspect of technical analysis. The first section discusses the Dow theory, which is a fundamental concept in technical analysis. The second section covers the Turtle trading system, which is a trend-following strategy. The third section discusses the use of moving averages and other technical indicators. The fourth section covers the use of price and volume data to identify trends and trading opportunities. The fifth section discusses the use of fractal analysis in technical analysis.

The book is written in a clear and concise style, making it accessible to both novice and experienced traders. It is a must-read for anyone interested in technical analysis of stock trends.
