this historical approach will help us work through the contradictory and diverse testimony of the protestant church in regard to baptism why this can t be done without appeals to history is that all positions like all of the multiple protestant denominations claim to be derived purely from the bible and thoroughly apostolic that equally brilliant scholars can disagree so extremely on such a thoroughly articulated and prominent doctrine leaves no where else to turn for the critically minded person excerpt from a historical and theological look at the doctrine of christian baptism

this is the one book on baptism that you must read it was seven years in the making the author believes that until a new approach is taken separations over the meaning mode and recipients of baptism will never be bridged this new approach traces the roots of baptism deep into the ot scriptures when understood properly we discover that baptism is always the sign that god has used to initiate his people into a new creation baptism in the nt is not new rather it derives its origin from ot predecessors when we understand that baptism comes from baptism especially in its sacramental expression in the priestly covenant reasons for the nt practice begin to make perfect sense now baptists have an argument that infant baptists can finally understand because we are beginning our argument in the same place yet we continue to have very baptistic conclusions as to the mode and recipients of baptism because we root baptism in baptism rather than circumcision

excerpt from christian baptism set forth in the words of the bible we take peculiar pleasure

in introducing the following treatise to the attention of the christian public and this for several reasons the first is found in the position and character of its author it has been found by experience for the last two hundred years that the most interesting and the most effective works on the baptismal controversy are those which are put forth by men whose own personal convictions have been the fruit not of custom and education but of fresh earnest and original examination especially of those who have been led by the force of truth to change their opinions and to make serious sacrifices for the truth s sake the names of tombes booth m lean carson noel pengilly baldwin judson chapin remington and others will readily occur to the reader s mind as examples and it seems perfectly natural that it should be so we all feel a special interest in a book in which a man professes to give us the reasons of a great practical change of convictions on any subject particularly if it appear to be a matter of conscience with him about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

excerpt from essays on christian baptism the cause of the bible is the cause of god and the only noble cause of men the individual who contributes anything to the more wide diffusion of the light which is from heaven among the inhabitants of the earth promotes that cause elevates the human character and brings the world under obligation to him as a benefactor at the same time he adds a note to the anthem once sung by angels glory to god in the highest on earth peace good will toward men in order to do this it is not indispensable that new truth be discovered the bible contains an entire and perfect theology and to take of the things of christ and show them to men is enough this the christian may do as the instrument of the holy spirit it is a no less noble or useful work to help a christian brother to clearer and brighter light than to reflect the light on the darkness of unregenerated minds the main design of this book is to communicate important truths to scholars already in the school of christ about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

as a theological student in finland dr saarnivaara became interested in the question of scriptural baptism which baptism he wondered had the most authority the one a person received in infancy or the one received as an adult after a conscious conversion should he as one who

had been baptized in infancy be baptized again after his conversion in order to be a christian in the biblical sense or was the baptism he received as a child valid in seeking an answer he studied the bible and the copious literature on both sides of the question now in this book cast in dialog form dr saarnivaara offers the result of his study examining the question exhaustively from both sides some of the questions which are thoroughly discussed are was infant baptism practiced in the time of christ and the apostles did christ want his church to practice infant baptism or baptism after conscious conversion does the new testament teach baptism as a means of grace or as an act of obedience and confession of faith what does the bible teach as the relationship between baptism and regeneration what was the practice and teaching of the post apostolic and the ancient church what was the original method of baptism immersion or pouring or sprinkling in developing his theme dr saarnivaara has set forth the pros and cons of this age old and still acute problem with admirable exactitude and lucidity it is easy for the layperson to comprehend but it is not superficial reading from the thousands who regard religious problems like baptism worthy of thoughtful consideration and study however dr saarnivaara s book should receive keen attention
