The Empire of Brazil at the Universal Exhibition of 1876 in Philadelphia

1876

this volume presents the proceedings of the 11th international conference on the design of cooperative

systems coop 2014 the conference is a venue for multidisciplinary research contributing to the design assessment and analysis of cooperative systems and their integration in organizations public venues and everyday life coop emerged from the european tradition of computer supported cooperative work cscw and cognitive ergonomics as practiced in france these proceedings are a collection of 28 papers reflecting the variety of research activities in the field as well as an increasing interest in investigating the use and design of ict in all aspects of everyday life and society and not merely in the workplace the papers represent a variety of research topics from healthcare to sustainable mobility to disaster response in settings from all over the world for the first time the proceedings include papers presented in an early career researchers track which was organized in order to give young researchers the opportunity to discuss their work with an international community this collection of papers provides a picture of new developments and classic topics of research around cooperative systems based on the principle that a deep knowledge of cooperative practices is a key to understanding technology impacts and producing quality designs the articles presented will appeal to researchers and practitioners alike

as they combine an understanding of the nature of work with the possibilities offered by novel digital technologies

environments and new applications further blur the once separate conceptions of work and leisure our intellectual community faces challenges in the ways we think about and study work other challenges result from transformations of the world of work itself and the role of it in these they have been taken up in in depth studies of design practice software development and manufacturing as well as in the growing body of research on health care contexts and applications finally there is the question of what is the european perspective in our community and whether it is worthwhile to anchor our research more firmly in such a perspective of high relevance to our field is the strong grounding of technology development in an understanding of human activity the nineteen full papers four short papers and one discussion paper selected for this conference deal with and reflect on some of these challenges thus representing the lively debate currently ongoing in our field of research
