charles darwin has been extensively analysed and written about as a scientist victorian father and husband however this is the first book to present a carefully thought out pedagogical approach to learning that is centered on darwin s life and scientific practice the ways in which darwin developed his scientific ideas and their far reaching effects continue to challenge and provoke contemporary teachers and learners inspiring them to consider both how scientists work and how individual humans read nature darwin inspired learning as proposed in

this international collection of essays is an enquiry based pedagogy that takes the professional practice of charles darwin as its source without seeking to idealise the man darwin inspired learning places importance on active learning hands on enquiry critical thinking creativity argumentation interdisciplinarity in an increasingly urbanised world first hand observations of living plants and animals are becoming rarer indeed some commentators suggest that such encounters are under threat and children are living in a time of nature deficit darwin inspired learning with its focus on close observation and hands on enquiry seeks to re engage children and young people with the living world through critical and creative thinking modeled on darwin s life and science

the greek economic crisis has imperilled the stability of the eurozone generating much global anxiety policymakers analysts and the media have daily debated the course of the greek economy prescribing ways to move forward this collection of essays progressively moves from an analysis of the causes of the crisis and the policy responses so far to a debate on some of the country's advantages and capabilities that should underpin its new development model and propel the return to growth the book analytically chooses to view the glass as half full and seeks to provide motivation and inspiration for change by indicating some of the economic sectors where greece maintains a comparative advantage therefore it challenges the emerging picture of greece as a country doomed to failure where everything falls apart
