## ***The Struggle for Law***

1997

first published in german in 1872 as *der kampf ums recht* the work attracted wide attention and was reissued in several revised editions and translated into a dozen foreign languages the author was a renowned scholar of roman law who wrote in a lively style one legal historian called him the mark twain of german jurisprudence in this essay he discusses what the law is and how the law changes it is a classic in the perennial struggle to make the law a means for achieving social change

## **The Struggle for World Power**

1968

while the book's immediate concern is with africa the theoretical nature of its analyses and its bearing on postmodern theories of the other will make this translation of great interest to many disciplines especially ethnic gender and multicultural studies book jacket

## ***The Struggle for Meaning***

2002

in this book axel honneth re-examines arguments put forward by hegel and claims that the struggle for recognition should be at the centre of social conflicts

## **The Struggle for Recognition**

2015-10-08

revolutionaries counter revolutionaries and reformers the world over appeal to democracy to justify their actions but when political factions compete over the right to act in the people's name who is to decide although the problem is as old as the great revolutions of the seventeenth and eighteenth centuries events from the arab spring to secession referendums suggest that today it is hardly any closer to being solved this book defends a new theory of democratic legitimacy and change that provides an answer christopher meckstroth shows why familiar views that identify democracy with timeless principles or institutions fall into paradox when asked to make sense of democratic founding and change solving the problem he argues requires shifting focus to the historical conditions under which citizens work out what it will mean to govern themselves in a democratic way the only way of sorting out disputes without faith in progress is to show in socratic fashion that some parties' claims to speak for the people cannot hold up even on their own terms meckstroth builds his argument on provocative and closely argued interpretations of plato kant and hegel suggesting that familiar views of them as foundationalist metaphysicians misunderstand their debt to a method of radical doubt pioneered by socrates recovering this tradition of antifoundational argument requires rethinking the place of german idealism in the history of political thought and opens new directions for contemporary democratic theory the historical and socratic theory of democracy the book defends makes possible an entirely new way of approaching struggles over contested notions of

progress popular sovereignty political judgment and democratic change

## **The Struggle for Democracy**

this book shows the applicability of thomas kuhn s theory of the structure of scientific revolutions to the struggle for social change in southern africa the components of this theory which seem applicable to the conflict and the struggle for fundamental social change in this troubled region of africa are definition of paradigms their functions the elements of paradigm shifts and their effect the relationship between paradigm shift in natural and social science and the concept of anomaly this study utilizes the components of this theory to discuss why the problems of southern africa seem to defy this solution

## ***The Struggle for Social Change in Southern Africa***

1989

the book examines several models which have been advocated for a workable and acceptable solution to the kurdisch problem which would be absolutely necessary for stability in the west asian region the book evaluates how the more than two decade long experience of kurdisch self rule in a democratic framework in iraqi kurdistan affects the debate over the other kurdisch regions in west asia with turkey s european union accession process contributing to the opening of the political space to ethno nationalism there is a need for a non military solution to the kurdisch issue the book analyses the role of kurdisch diaspora which plays a significant part in placing the kurdisch question on the european political agenda it also examines the role of the kurds in the aftermath of the arab spring and the changing geopolitics in the region now the kurds maintain the strongest platform in battling against the isis terrorists

contributors ranging from chancellor gordon brown to the guardian newspaper s polly toybee discuss the labour party s political philosophy and address key topics like globalization constitutional reform equality and the third way

## **The Struggle for Labour's Soul**

2004-08-02

human rights in peace and development are accepted throughout the global south as established normative and beyond debate only in the powerful elite sectors of the global north have these rights been resisted and refuted the policies and interests of these global forces are antithetical to advancing human rights ending global poverty and respecting the sovereign integrity of states and governments throughout the global south the link between poverty war and environmental degradation has become evident over the last 60 years further augmenting international consciousness of these issues as interconnected with the rest of the human rights corpus this book examines the history of this struggle and outlines practical means to implement these rights through a global framework of constitutional protections within this emerging framework it argues that states will be increasingly obligated to formulate policies and programs to achieve peace and development throughout the global society

1999

a cross disciplinary view of an important de soto chronicle among the early spanish chroniclers who contributed to popular images of the new world was the amerindian spanish mestizo historian and literary writer el inca garcilaso de la vega 1539 1616 he authored several works of which la florida del inca 1605 stands out as the best because of its unique amerindian and european perspectives on the de soto expedition 1539 1543 as the child of an indian mother and a spanish father garcilaso lived in both worlds and saw value in each hailed throughout europe for his excellent contemporary renaissance writing style his work was characterized as literary art garcilaso revealed the emotions struggles and conflicts experienced by those who participated in the historic and grandiose adventure in la florida although criticized for some lapses in accuracy in his attempts to paint both the spaniards and the amerindians as noble participants in a world changing event his work remains the most accessible of all the chronicles in this volume jonathan steigman explores el inca s rationale and motivations in writing his chronicle he suggests that el inca was trying to influence events by influencing discourse that he sought to create a discourse of tolerance and agrarianism rather than the dominant european discourse of intolerance persecution and lust for wealth although el inca s purposes went well beyond detailing the facts of de soto s entrada his skill as a writer and his dual understanding of the backgrounds of the participants enabled him to paint a more complete picture than most putting a sympathetic human face on explorers and natives alike

why were the communists unable to overthrow a succession of feeble athens governments woodhouse portrays a greek communist party weakened by internal feuding divided by dissensions over policy and overcome by the strength of u s forces basing his account on privileged access to documents interviews with prominent survivors and his own unique experience he analyzes the characters ideologies and events behind one of the longest and most bitter civil wars of modern times this is the definitive history book jacket

## **The Struggle for Greece, 1941-1949**

2002

this book attempts to combine geopolitics modernization theory and the primacy of foreign policy to provide a fresh perspective on the struggle for mastery in germany before 1850 any form of rigid determinism is eschewed the outcome of this contest was still relatively open in 1780 nevertheless the book shows why after the upheavals domestic and internal of the revolutionary period and the geopolitical revolution of 1815 prussia and not austria was on the verge of winning the struggle for mastery by mid century at every decisive stage along the way it was prussia rather than austria or the third germany which showed itself capable of socio economic and partial political modernization in order to adapt to external pressures and opportunities

## **The Struggle for Mastery in Germany, 1779-1850**

1998

this volume is an account of the journey the author made between eastern russia via tabriz to teheran at the turn of the twentieth century this is not just a travelogue however but a lament for the loss of british "prestige" and power in the region to russia

## **The Struggle for Persia**

2011

this highly detailed new book provides a comprehensive account of the fighting at the château of hougoumont on sunday 18th june 1815 by utilizing the accounts of the officers and men who fought in the battle of waterloo drawn predominantly from contemporary manuscript sources it contains a wealth of previously unpublished material including significant new information from the french and german archives extensive new research has revealed that the french made a number of incursions into the farm complex that the allies sustained critical losses during the fighting in the orchard and that there were repeated attempts in the early evening by the garrison to secure more ammunition the authoritative text is supplemented by a series of notes and appendices and is enhanced by ten color scenes and full color contour maps with troop overlays thereby making the book an essential addition to every napoleonic collection

## **The Struggle for New China**

1952

the 20th century demographic struggle for power translates itself into an inter ethnic war of numbers this book offers suggestions for structural alterations within states to sever the link between ethnic size and power and thus eliminate the rationale for the demographic struggle for power

## ***The Struggle for Happiness***

2001-03-20

this book tells the story of the people of igbo land at the middle of the nineteenth century when europe and europeans held the dominant power over the lives and affairs of many peoples in africa this dominance however was never supposed to be total or absolute nevertheless it managed to cast a constricting shadow with its associated if unhealthy ambience on the day to day lives of the people using the overwhelming military and economic power at its disposal at a time when africans were either recovering from five hundred years of stupor brought on by its own dark ages ad 1100 1600 or the shock and paralysis that followed the moroccan mohamedan and spanish mercenary assisted mayhem and chaos of 1591 against the african kingdoms of west africa but the white man would soon lose most of his political and economic opportunities and some of the absolute attributes he had mustered over the years the moment britain and the other european races saw themselves as divinely appointed to right the wrongs of mankind he would from then on render himself vulnerable to the tide of african enlightenment and progress which was then building up everywhere once the trade by which he had gained his ascendancy over the other races of mankind began to decline in addition european ascendancy witnessed an unusual reversal of luck when its residual strengths recently boosted with the development of some newer types of weaponry the maxim machine gun in the uk 1883 and the mauser machine gun 1891 in germany weapons whose astonishing power and versatility had not previously been seen or tested in any battlefield became more widely available to european and non european troops these however could not provide definitive answers to all the tactical and strategic imperatives of the developing new battlefield which european armies had sought nevertheless these new weapons became celebrated after they were successfully used to hold the line and repel hordes of brave native fighters armed only with machetes and spears south africa and bows and arrows kitchener s sudan enabling british forces to claim easy victories over the native forces several victoria crosses would be won on both battlefronts by the british army the success of the campaigns clearly went to the heads of the victorious army commanders thus were sown the seeds that would grow leading to the idea of invincibility of the white man in the battlefield and the tragic events that preceded the first world war 1914 1918
