Positional Release Techniques with on-line videos

1990

pribble investigates the barter economies that developed in many of the labor camps established under the khmer rouge in cambodia when the khmer rouge abolished currency and markets in 1975 starving cambodians created underground exchanges in labor camps throughout the country bartering luxury items for food and other

necessities while simultaneously undermining the regime's ideological goals of eliminating any traces of capitalism in democratic kampuchea pribble asserts three key points about the barter economy in the khmer rouge labor camps first the underground exchanges in democratic kampuchea provided food and medicine for desperate people subsisting under a totalitarian regime saving the lives of countless cambodians second bartering was the riskiest way to obtain food because it was dependent upon the discretion of two or more individuals from different social classes under the threat of violent punishment thereby altering the social dynamics of the camps finally despite the regime's extreme efforts to eliminate foreign influence from the country and impose communist ideology on millions of citizens basic forms of market capitalism and a demand for superfluous luxury goods persisted in labor camps throughout the country a fascinating study of the human consequences of imposing rigid ideology that will be of particular interest to scholars and students of political history and southeast asian history the open access version of this book available at taylorfrancis.com has been made available under a creative commons attribution non-commercial no derivatives 4.0 license
