2019-06-15

original description 1957 jazz at last has matured to a full fledged art not only in this country but throughout the world as well what has been known as an american folk music is now becoming an international form of expression with artists in all countries constantly exchanging ideas and expanding the limits of their medium no longer is it possible for the well informed person the person interested in the latest developments in the art world to relegate jazz to the realm of simple untutored dance hall music leonard feather author of the famous encyclopedia of jazz series has written this hook for the widest possible audience from the newcomer to the field who asks the basic most difficult to answer question what is jazz to the jazz musician himself one of whom recently asked who is bessie smith here is a guide to jazz in all its phases its nature its sources instruments sounds performers and the future of jazz a large part of the book consists of chapters devoted to the story of the role played by each instrument and its major performers each history begins with a non technical discussion of the instrument itself its function its range how it was first used and how it is now used in jazz it goes on to tell about the artists themselves and how they developed the instrument their special contribution and their relative importance in the entire world of jazz from this unique approach emerges a clear and fascinating picture of jazz the section titled the anatomy of improvisation presents for the first time actual musical illustrations of the jazz improvisations of 15 of the great soloists from louis armstrong and benny goodman to art tatum lester young and dizzy gillespie each solo is studied in detail and with a clarity as enlightening to the listener as to the musician these solos lead into a unique analysis of the nature of jazz its harmony rhythm and structure and show how it has evolved from the music of the earliest days through ragtime swing and hop to the latest innovations in chapters devoted to the origins of jazz the new evidence is bound to gain the

attention of the entire jazz world drawing on conversations with musicians from various parts of the country this section sheds new light on the particular places where jazz was first played by exploring the sources it reveals why jazz had its beginnings in the united states and what musical influences and social forces combined to produce this music in a chapter entitled jazz and race the whole story of racial discrimination in jazz is presented in unprecedented detail it tells of the early segregation in bands of the gradual breaking down of the color barriers first by the musicians themselves and then by the public and of the problems still to be resolved to this illuminating guide leonard feather brings his many years of experience in the jazz field both as critic and musician for the person who has long sought a true guide to the enthralling world of jazz for the student the fan and the musician to whom jazz is an exciting territory the book of jazz provides the much needed succinct story of this important new art form of the twentieth century

THE BOOK OF JAZZ - A Guide to the Entire Field 2017-02-07

if you want to start your own airline this book isn't for you this is the business book for everyone tired of being told they have to have the next big thing in order to make a living running their own firm it's the down to earth insider's guide to starting a great business that thrives without having to takeover the world or dance to lord sugar's tune ir go cap in hand to the dragons author and business advisor ken horn has helped thousands of people to be a success running their own business reaching freedom and financial security not by winning the big business idea lottery but simply through delivering traditional services in existing markets bringing a master's knowledge of the ins and outs of starting and running a successful small business ken strips away the mystery surrounding starting your own business packages up the common challenges of starting up and helps readers tackle them cuts through the information overload and provides only what you really need to know to launch a small business reveals in what order to best tackle things and what can be left till later or ignored entirely he also uncovers a whole host of secret shortcuts that are too easily missed especially when it comes to sales and marketing straight talking bursting with examples packed with inspiration and promising not to waste a minute of your time this book is like having a top business mentor on hand throughout your start up journey get going now
