c book news inc american foreign policy since world war ii has actively sought to reshape both domestic and international orders to hasten the coming of the end of history in a peaceful democratic utopia while the end of the cold war heightened optimism that this goal was near policymakers still face dramatic challenges in war welfare democracy peter j munson argues that the foreign policy problems we face today stem from common roots the modern state system's struggle to cope with the pressures of market development and sociopolitical modernization washington's policies seek to treat challenges as varied as insurgency organized crime fiscal crises immigration pressures authoritarianism and violations of human rights with a schizophrenic mix of realpolitik and idealism the ideologies that inform this outlook were born during the great depression and two world wars and honed during the early years of the cold war although the world has long since changed american policy has failed to adjust the world's leading welfare states face a crisis of aging populations shrinking revenues and spiraling costs in their attempts to provide services and social security for their citizens compounding this inflexibility by addressing the inequality of wealth security and stability brought on by dramatic economic change and modernization munson describes how the united states can lead in reforming the welfare state paradigm and adjust its antiquated policies to best manage the transformation we all must face a shocking personal memoir and new perspective on world war ii following helene munson's journey in her father's footsteps through the years when he was one of hitler's child soldiers when helene munson finally reads her father hans dunker's wartime journal she discovers secrets he kept buried for seven decades this is no ordinary historical document but a personal account of devastating trauma during world war ii the nazis trained some three hundred thousand german children to fight for hitler hans was just one of those boy soldiers sent to the elite feldafing school at nine years old he found himself in the grip of a system that substituted dummy grenades for frisbees by age seventeen hans had shot down allied pilots with anti-aircraft artillery in the desperate final stage of hitler's war he was sent on a suicide mission to zavada on the sudetenland front where he witnessed the death of his schoolmates and where helene begins to retrace her father's footsteps after his death as helene translates hans's journal and walks his path of suffering and redemption she uncovers the lost history of an entire generation brainwashed by the third reich's school system and funneled into the hitler youth a startling new account of this dark era the feldafing boys grapples with inherited trauma the burden of guilt and the blurred line between perpetrator and victim it is also a poignant tale of forgiveness as helene comes to see her late father as not just a soldier but as one boy in a sea of three hundred thousand forced onto the wrong side of history and left to answer for it previously published in hardcover as hitler's boy
