The Constitution and Practice of Courts Martial

1875

this volume focuses on the practices of the united nations international criminal tribunal for rwanda ictr the national rwandan courts and the gacaca community courts in post genocide rwanda it emphasizes that although the courts are compatible in law an interpretive cultural analysis indicates how and why they have often conflicted in practice

Remarks on the Constitution and Practice of Courts Martial. With a Summary of the Law of Evidence, as Connected with Such Courts ... Fourth, Revised, Edition

1873

in a thoroughly revised and expanded edition that now includes france this essential text offers a rigorous systematic comparison of church state relations in six western nations the united states france england germany the netherlands and australia as successful and stable political democracies these countries share a commitment to protecting the religious rights of their citizens the book demonstrates however that each has taken substantially different approaches to resolving basic church state questions the authors examine both the historical roots of those differences and more recent conflicts over islam and other religious minorities explain how contemporary church state issues are addressed and provide a framework for assessing the success of each of the six states in protecting the religious rights of its citizens using a framework based on the ideal of governmental neutrality and evenhandedness toward people of all faiths and of none responding to the general confusion about the relationship between church and state in the west this book offers a much needed comparative analysis of a topic that is increasingly a source of political conflict the authors argue that the us conception of church state

separation with its emphasis on avoiding government establishment of religion is unique among political democracies and discriminates against religious groups by denying religious organizations access to government services provided to other organizations the authors persuasively conclude that the united states can learn a great deal from other western nations in promoting religious neutrality and the free exercise of religion

The Constitution and Practice of Courts Martial with a Summary of the Law of Evidence
