Sale-catalogues of Second-hand Books on Sale by Henry Sotheran & Co 2007-11-07 using an elite consensus conflict analytical frame this book examines why some majority muslim countries perform so much better at democracy and or development than others questioning received wisdoms that islam authoritarianism and underdevelopment go together identifying four distinct democracy and development outcomes in the muslim world four case studies are interrogated to show that there is more variability in democracy and development outcomes in muslim majority countries than macro historical studies and aggregate data have shown by demonstrating that democracy and development outcomes in muslim countries are the consequence of elite conflict and elite consensus rather than the precepts or institutions of islam the book places the competition for power among contending elites rather than islam at the center of the story of democracy and development in the muslim world this book will be of key interest to scholars and students of political development development studies democratization and autocratization studies democracy promotion and more broadly comparative politics

Reflecting Telescope Optics I 2003-03-28 characteristically surfactants in aqueous solution adsorb at interfaces and form aggregates micelles of various shapes and sizes microemulsion droplets and lyotropic liquid crystalline phases this book is about the behaviour of surfactants in solution at interfaces and in colloidal dispersions adsorption at liquid fluid and solid liquid interfaces and ways of characterizing the adsorbed surfactant films are explained surfactant aggregation in systems containing only an aqueous phase and in systems with comparable volumes of water and nonpolar oil are each considered in the latter case the surfactant distribution between oil and water and the behaviour of the resulting winsor systems are central to surfactant science and to an understanding of the formation of emulsions and microemulsions surfactant layers on particle or droplet surfaces can confer stability on dispersions including emulsions foams and particulate dispersions the stability is dependent on the surface forces between droplet or particle surfaces and the way in which they change with particle separation surface forces are also implicated in wetting processes and thin liquid film formation and stability the rheology of adsorbed films on liquids and of bulk colloidal dispersions is covered in two chapters like surfactant molecules small solid particles can adsorb at liquid fluid interfaces and the final two chapters focus on particle adsorption the behaviour of adsorbed particle films and the stabilization of pickering emulsions provided by publisher

On the Origin of Species 2011-01-13 in spring of 1953 newly elected president eisenhower sat down with his staff to discuss the state of american strategy in the cold war america he insisted needed a new approach to an urgent situation from this meeting emerged eisenhower s teams of bright young fellows charged with developing competing policies each of which would come to shape global politics in spirits of the cold war ned o gorman argues that the early cold war was a crucible not only for contesting political strategies but also for competing conceptions of america and its place in the world drawing on extensive archival research and wide reading in intellectual and rhetorical histories this comprehensive account shows cold warriors debating worldviews in addition to more strictly instrumental tactical aims spirits of the cold war is a rigorous scholarly account of the strategic debate of the early cold war a cultural diagnostic of american security discourse and an examination of its origins
