Brain Haulage was formed by Charles Edward Brain in 1950 and played a major role in the container revolution in the UK completely changing the way goods were transported over the world. Peter Sumpter was a driver with Brain Haulage until it closed in 1992 and is an unofficial archivist of the brand, having taken hundreds of photographs and chronicling his adventures in a diary for over 20 years. Brain Haulage Ltd tells the history of Brain and the container revolution as well as the story of Charles Brain from his early years working for the LMS railway at Camden Town to his time in the RAF during the Second World War to eventually starting his own haulage company. The rest of the story is from Peter's own diary and the many ex-drivers and Brain's staff he worked with over the years, including over 300 previously unpublished photographs. Brain Haulage Ltd is a unique book ideal for anyone interested in containers and their revolution as well as road transport and haulage trade enthusiasts.

If you enjoyed Leffingwell's best-selling *The American Farm Tractor*, this stunning volume is an absolute must-read. *International Harvester Tractors* beautifully chronicles the history of IH tractors from the very first tractor through the IH Ag Division's merger with Case in 1985. In addition to hundreds of nostalgic Farmall and IH photographs, Leffingwell serves up an unprecedented collection of rare and unusual machines. The machines Leffingwell found in his travels across the US will surprise and delight even the hard-core IH fan. Exceptionally well produced in classic Leffingwell style. Recommended.
