Science, Colonialism, and Indigenous Peoples 2009-08-24 at the intersection of indigenous studies science studies and legal studies lies a tense web of political issues of vital concern for the survival of indigenous nations numerous historians of science have documented the vital role of late eighteenth and nineteenth century science as a part of statecraft a means of extending empire this book follows imperialism into the present demonstrating how pursuit of knowledge of the natural world impacts and is impacted by indigenous peoples rather than nation states in extractive biocolonialism the valued genetic resources and associated agricultural and medicinal knowledge of indigenous peoples are sought legally converted into private intellectual property transformed into commodities and then placed for sale in genetic marketplaces science colonialism and indigenous peoples critically examines these developments demonstrating how contemporary relations between indigenous and western knowledge systems continue to be shaped by the dynamics of power the politics of property and the apologetics of law

Science, Colonialism, and Indigenous Peoples 2009-08-24 examines how contemporary relations between indigenous and western nations are shaped by the dynamics of power the politics of property and the apologetics of law

The Spaces In Between 2023-11-30 the spaces in between examines prospects for the enhanced practice of indigenous political sovereignty within the canadian state as indigenous rights include the right to self determination the book contends that restored practices of indigenous sovereignty constitute important steps forward in securing better relationships between indigenous peoples and the canadian state while the canadian state maintains its position of dominance with respect to the exercise of state sovereignty tim schouls reveals how indigenous nations are nevertheless carving out and reclaiming areas of significant political power as their own by means of strategically acquired legal concessions through hard fought political negotiations and sometimes through simple declarations of intent indigenous nations have repeatedly compelled the canadian state to roll back its jurisdiction over them in doing so they have enhanced their prospects for political sovereignty within canada as such they now increasingly occupy what schouls refers to metaphorically as the spaces in between the book asserts that occupation of these jurisdictional spaces in between not only goes some

distance in meeting the requirements of indigenous rights but also contributes to indigenous community autonomy and well being enhancing prospects for reconciliation between indigenous peoples and the canadian state

Feminist Challenges or Feminist Rhetorics? Locations, Scholarship, Discourse 2014-03-17 the chapters collected in this book generate discussion about the intersections of feminisms and rhetorics as well as the ways in which those intersections are productive this collection focuses on the locations of feminist rhetorics the various discourses that invoke feminism or feminist and the scholarship that provokes challenges and deliberates issues of key concern in focusing on challenge and location this collection acknowledges the academic and socio discursive spaces that feminisms and rhetorics on or about feminisms inhabit feminism but also women and what it means to be a woman is a signifier under siege in public discourse the chapters included here speak to the challenges and diversities of feminist rhetoric and discourse in public and private life in the academy and in the media the authors represented in this collection present potential consequences for communities in the academy and beyond spanning international geopolitical racial and religious contexts

Double Helix History 2022-08-29 double helix history examines the interface between genetics and history in order to investigate the plausibility of new knowledge derived from scientific methods and to reflect upon what it might mean for the practice of history since the mapping of the human genome in 2001 there has been an expansion in the use of genetic information for historical investigation geneticists are confident that this has changed the way we know the past this book considers the practicalities and implications of this seemingly new way of understanding the human past using genetics it provides the first sustained engagement with these so called genomic histories the book investigates the ways that genetic awareness and practice is seemingly changing historical practice and conceptualisation linking six concepts public practice ethics politics self and imagination double helix history outlines the ways that genetic information being postgenomic the public life of dna and the genetic historical imaginary work on the body on collective memory on the historical imagination on the ethics of historical investigation on the articulation of history and on the collection and interpretation of data regarding the past this book will appeal to researchers and students alike interested in

dna genetics and historiography

Protecting Traditional Knowledge 2020-03-28 protecting traditional knowledge examines the emerging international frameworks for the protection of indigenous traditional knowledge and presents an analysis situated at the intersection between intellectual property access and benefit sharing and indigenous peoples rights to self determination

Genealogies, Genomes, and Histories in the Pacific 2024-04-24 decolonial imaginaries in palestinian experimental film and video focuses on an underexamined group of female palestinian filmmakers highlighting their relevance for thinking through a diverse set of issues relating to decolonial aesthetics post nationalism and gender non western ecologies trauma and memory diasporic experiences of space biopolitics feminist historiography and decolonial temporalities positing that these filmmaker artists radically counter dominant media images of palestinians deessentializing palestinian identity while opening up history and the present to new potentialities and ways of imagining palestinian futures decolonial imaginaries in palestinian experimental film and video argues that palestinian experience is urgently relevant to all of us as the works address issues of food availability and land use environmental collapse and forced displacement hole explores how such films generate hope imagine impossible possibilities and offer inspiration and wisdom when it comes to losing and rebuilding addressing a fundamentally transnational and understudied area this book will resonate with readers working in the areas of film and media studies palestinian cultural studies historiography middle east studies and experimental film

Decolonial Imaginaries in Palestinian Experimental Film and Video 2015-12-18 taking an interdisciplinary approach unmatched by any other book on this topic this thoughtful handbook considers the international struggle to provide for proper and just protection of indigenous intellectual property ip in light of the united nations declaration on the rights of indigenous peoples 2007 expert contributors assess the legal and policy controversies over indigenous knowledge in the fields of international law copyright law trademark law patent law trade secrets law and cultural heritage the overarching discussion examines national developments in indigenous ip in the united states canada south africa the european union australia new zealand and indonesia the handbook provides a comprehensive overview of the historical

origins of conflict over indigenous knowledge and examines new challenges to indigenous ip from emerging developments in information technology biotechnology and climate change practitioners and scholars in the field of ip will learn a great deal from this handbook about the issues and challenges that surround just protection of a variety of forms of ip for indigenous communities

Indigenous Intellectual Property 2024 freedom is celebrated as the definitive ideal of modern western civilization yet in western thought and practice freedom has been defined through opposition to the unfreedom of most of the world s people allison weir draws on indigenous political theories and practices of decolonization in dialogue with western theories to reconstruct a tradition of relational freedom as a distinctive political conception of freedom a radically democratic mode of engagement and participation in social and political relations with an infinite range of strange and diverse beings perceived as free agents in interdependent relations in a shared world

Decolonizing Freedom 2022-03-24 remembering histories of trauma compares and links native american first nation and jewish histories of traumatic memory using source material from both sides of the atlantic it examines the differences between ancestral experiences of genocide and the representation of those histories in public sites in the united states canada and europe challenging the ways public bodies have used those histories to frame the cultural and political identity of regions states and nations it considers the effects of those representations on internal group memory external public memory and cultural assimilation offering new ways to understand the native jewish encounter by highlighting shared critiques of public historical representation mailer seeks to transcend historical tensions between native american studies and holocaust studies in linking and comparing european and american contexts of historical trauma and their representation in public memory this book brings native american studies jewish studies early american history holocaust studies and museum studies into conversation with each other in revealing similarities in the public representation of indigenous genocide and the holocaust it offers common ground for jewish and indigenous histories and provides a new framework to better understand the divergence between traumatic histories and the ways they are memorialized

Remembering Histories of Trauma 2021-03-09 from a star theoretical physicist a journey into the world of particle physics and the cosmos and a call for a more liberatory practice of science winner of the 2021 los angeles times book prize in science technology a finalist for the 2022 pen e o wilson literary science writing award a smithsonian magazine best science book of 2021 a symmetry magazine top 10 physics book of 2021 an entropy magazine best nonfiction book of 2020 2021 a publishers weekly best nonfiction book of the year a kirkus reviews best nonfiction book of 2021 a booklist top 10 sci tech book of the year in the disordered cosmos dr chanda prescod weinstein shares her love for physics from the standard model of particle physics and what lies beyond it to the physics of melanin in skin to the latest theories of dark matter along with a perspective informed by history politics and the wisdom of star trek one of the leading physicists of her generation dr chanda prescod weinstein is also one of fewer than one hundred black american women to earn a phd from a department of physics her vision of the cosmos is vibrant buoyantly nontraditional and grounded in black and queer feminist lineages dr prescod weinstein urges us to recognize how science like most fields is rife with racism misogyny and other forms of oppression she lays out a bold new approach to science and society beginning with the belief that we all have a fundamental right to know and love the night sky the disordered cosmos dreams into existence a world that allows everyone to experience and understand the wonders of the universe

The Disordered Cosmos 2007 a study of the increasing international opposition to and growing domestic disaffection from the death penalty in america

The Bitter Fruit of American Justice 2023-12-27 provides the most comprehensive collection of scholarship on the multiethnic literature of the united states a companion to the multiethnic literature of the united states is the first in depth reference work dedicated to the histories genres themes cultural contexts and new directions of american literature by authors of varied ethnic backgrounds engaging multiethnic literature as a distinct field of study this unprecedented volume brings together a wide range of critical and theoretical approaches to offer analyses of african american latinx native american asian american jewish american and arab american literatures among others chapters written by a diverse panel of leading contributors explore how multi ethnic texts represent racial ethnic and other identities center

the lives and work of the marginalized and oppressed facilitate empathy with the experiences of others challenge racism sexism homophobia and other hateful rhetoric and much more informed by recent and leading edge methodologies within the field the companion examines how theoretical approaches to multiethnic literature such as cultural studies queer studies ecocriticism diaspora studies and posthumanism inform literary scholarship pedagogy and curricula in the us and around the world explores the national international and transnational contexts of us ethnic literature addresses how technology and digital access to archival materials are impacting the study reception and writing of multiethnic literature discusses how recent developments in critical theory impact the reading and interpretation of multiethnic us literature highlights significant themes and major critical trends in genres including science fiction drama and performance literary nonfiction and poetry includes coverage of multiethnic film history and culture as well as newer art forms such as graphic narrative and hip hop considers various contexts in multiethnic literature such as politics and activism immigration and migration and gender and sexuality a companion to the multi ethnic literature of the united states is an invaluable resource for scholars researchers undergraduate and graduate students and general readers studying all aspects of the subject

A Companion to Multiethnic Literature of the United States 2019-08 argues that north american settler colonialism included episodes of genocide of indigenous peoples as defined by the united nations genocide convention

North American Genocides 2014 rooted in diverse cultures and in distinct regions of the world indigenous people have for generations created maintained and negotiated clear and explicit relationships with their environments despite numerous historical disruptions and steady iterations of imperialism that continue through today indigenous communities embody communities of struggle resistance and intense vitality creativity in this work a fellowship of indigenous research has emerged and our collective intent is to share critical narratives that link together indigenous worldviews culturally based notions of ecology and educational practices in places and times where human relationships with the world that are restorative transformative and just are being sought

University of British Columbia Law Review 2015-10-30 from the standing rock sioux tribe s

resistance against the dakota access pipeline to the nepalese newar community s protest of the fast track road project indigenous peoples around the world are standing up and speaking out against global capitalism to protect the land water and air by reminding us of the fundamental importance of placing indigenous politics histories and ontologies at the center of our social movements indigenous resurgence positions environmental justice within historical social political and economic contexts exploring the troubling relationship between colonial and environmental violence and reframing climate change and environmental degradation through an anticolonial lens

Indigenous Innovation 2022-03-31 sacred nature examines the crisis of environmental degradation through the prism of religious naturalism which seeks rich spiritual engagement in a world without a god jerome stone introduces students to the growing field of religious naturalism exploring a series of questions about how it addresses the environmental crises evaluating the merits of public prophetic discourse that uses the language of spirituality he presents and defends the concept of religious naturalism while drawing out the implications of religious naturalism for addressing some of the major environmental issues facing humans today this book is designed for undergraduate and graduate students as well as scholars specializing in contemporary religious thought or environmental studies

Indigenous Resurgence 2017-06-26 list of members in v 1

Sacred Nature 2010 reporter susan walker is eager to delve into her new assignment at the paper investigating bizarre happenings around town however what surfaces are mysterious connections to the occult all too familiar names and something more alarming than any front page headline
