tolleys international taxation of upstream oil and gas

International taxation of upstream oil and gas
The oil and gas industry is a major source of revenue for many countries. The industry is characterized by high capital costs and long payback periods. The industry is also subject to significant risks, including price volatility and environmental concerns. The taxation of upstream oil and gas is a complex issue that involves a number of factors, including the location of the oil and gas reserves, the ownership of the reserves, and the method of extraction. The taxation of upstream oil and gas is a key issue for many countries, and it is an area that is attracting increasing attention from governments and investors alike.
