Lifespan Development 1991-01-01

lifespan development in context corresponds to the organization of most lifespan development and developmental psychology textbooks beginning with issues involving birth and infancy continuing with childhood adolescence and adulthood and concluding with issues concerning dying and

death each chapter contains 4-6 personal narratives and each narrative covers a different concept, issue, or topic within a given age period.

Lifespan Development in Context 1999

This chronologically organized text presents development from a growth perspective, focusing on continuities and change throughout life by illustrating the connections and relationships among all stages of the lifespan. It allows students to discover that human development is a lifelong process. The second edition offers an even stronger emphasis on the lifespan approach to development, as exemplified by four themes: lifelong growth, continuity and change, changing meanings, and changing vantage points and developmental diversity.

Life Span Development 2019

The authors wrote this book to help students think like

developmental psychologists specifically they want students who read this book to critically examine claims about the nature and causes of development have a clear understanding of the major issues in developmental psychology to understand what developmental psychologists have learned about the development of memory intelligence attachment and other developmental issues pref
