The Attack on Pearl Harbor 2011-05-06 uses modern methods of operational analysis to determine exactly how the japanese planned and executed the great raid a worthy useful analysis naval history the december 7 1941 attack on pearl harbor has been portrayed by historians as a dazzling success with most american historians concentrating on command errors and the story of participants experiences the japanese attack has never been subjected to a comprehensive critical analysis of the military side of the operation this book presents a detailed evaluation of the attack on the operational and tactical level it examines such questions as was the strategy underlying the attack sound were there flaws in planning or execution how did japanese military culture influence the planning how risky was the attack what did the japanese expect to achieve compared to what they did achieve were there japanese blunders what were their consequences what might have been the results if the attack had not benefited from the mistakes of the american commanders the book also addresses the body of folklore about the attack assessing contentious issues such as the skill level of the japanese aircrew whether mini submarines torpedoed oklahoma and arizona as has been recently claimed whether the japanese ever really considered launching a third wave attack and the consequences for the naval shipyard and the fuel storage tanks if it had been executed in addition the analysis has detected for the first time deceptions that a prominent japanese participant in the attack placed into the historical record most likely to conceal his blunders and enhance his reputation the centerpiece of the book is an analysis using modern operations research methods and computer simulations as well as combat models developed between 1922 and 1946 at the us naval war college the analysis sheds new light on the strategy

and tactics employed by Yamamoto to open the Pacific War and offers a dramatically different appraisal of the effectiveness of the attack on Pearl Harbor
