of capitalism amid the far reaching changes of the contemporary era of global capitalism for the past twenty years economic sociologists have focused on mesa level phenomena of networks but they have done relatively little to analyze capitalism as an overall system or to show how such phenomena emerge from and shape the dynamics of capitalism the economic sociology of capitalism seeks to change this by presenting both big picture analyses of capitalism and more focused pieces on institutions crucial to capitalism the book which includes sixteen chapters by leading scholars in economic sociology is organized around three broad themes the first section addresses core issues and problems in the new study of capitalism the second considers a variety of topics concerning america the leading capitalist economy of the world and the third focuses attention on the question of convergence stemming from the global transformation of capitalism and the challenge of explaining institutional change the contributions which follow a foreword by economic historian avner greif and the editor s introduction are by mitchel abolafia james baron and michael hannan mary c brinton
