this book presents a systematic literary comparison of the retranslations by adopting a mixed method and bottom up inductive approach by developing an empirical corpus approach this corpus is specifically tailored to identify and study linguistic and non linguistic modernist features throughout the texts such as stream of consciousness indirect interior monologue and free indirect speech all occurrences are analysed quantitatively in the computations of inferential and comparative statistics such as tests of time trends lexical variety and lexical frequency the target texts are digitised and the resulting text files are then analysed using a bespoke novel computer program capable of the functions not provided by commercially available software such as wordsmith tools and wmatrix this methodology enables in depth explorations of micro and macro textual features and allows a mixed method approach combining close reading qualitative analysis with systematic quantitative comparisons the empirical study of the digital corpus of eleven italian re translations of virginia woolf s to the lighthouse identifies a

Europe Siena blessed with neither the aristocratic nor the ecclesiastical patronage enjoyed by music in other northern Italian centers like Florence nevertheless attracted first rate composers and performers from all over Europe as Frank D'Accone shows in this scrupulously documented study. Policies developed by the town to favor the common good formed the basis of Siena's ambitious musical programs based on decades of research in the town's archives. D'Accone's *The Civic Muse* brilliantly illuminates both the sacred and the secular aspects of more than three centuries of music and music making in Siena. After detailing the history of music and liturgy at Siena's famous cathedral and of civic music at the Palazzo Pubblico, D'Accone describes the crucial role that music played in the daily life of the town from public festivities for foreign dignitaries to private musical instruction, putting Siena squarely on the Renaissance musical map. D'Accone's monumental study will interest both musicologists and historians of the Italian Renaissance. This issue focuses on Nicola Nick Gentile, Mafia leader in U.S. and Sicily. Author of 1963 *Tell All* autobiography, informer provides Gentile's entire life story, building on original research by Mafia history experts, balancing Gentile's self-serving and self-aggrandizing autobiographical work with verifiable history, correcting misinformation and filling in wide gaps left in his personal account. In addition to studying Gentile's life and career, informer provides biographical information for dozens of individuals who contributed in interesting ways to his life story. Also in this issue
