Cracking the AP Psychology Exam 2011 compact review your ap course work most likely covers lots of important concepts with a whole year s worth of material how can you tell what to study for the ap exam we eliminate the guesswork for you because in this book we provide a thorough yet concise review of all the topics tested on the ap psych exam you see when a teacher puts a course together the goal is to help you learn and understand as much psychology as possible therefore a good teacher will supplement the basics of the course with contemporary examples and other interesting illustrations to make the course more relevant although this is arguably the best way to teach a subject it is not the best way to prepare for a standardized exam this book unlike your course in school has been put together strictly for the purpose of ap psychology exam preparation we focus only on the topics you need to know to do well on the ap psych exam

**cracking the ap biology exam** 2004 the fiercer the competition to get into college the more schools require that students prove themselves in other ways than sat scores and grade point averages the more expensive college educations become the more students take advantage of the opportunity to test out offirst year college courses includes 2 sample tests with fall explanations for all answers the princeton review s proven score raising skills and techniques complete subject review of all the material likely to show up on the ap psychology exam
