impossibility fiction is an intergenre that has recently been the resort of many writers searching for new ways of understanding and expressing the real world of the

imagination making use of fantasy alternative history and science fiction coping with ideas that are both impossible and realistically constructed is the ultimate contemporary challenge of our technology the chapters of this book move towards establishing appropriate readings that allow contemporary readers to negotiate unreality a skill that the end of the millennium is making inevitably necessary such strategies have long been the preserve of literary and cultural study and here a number of well regarded scholars and some new to the field make their contribution to an area that has become increasingly important in recent years from mary shelley to philip k dick iain m banks to j g ballard taking in african american science fiction jurassic park and kurt vonnegut and exploring issues of alternative history and ideology feminism the holocaust characterisation and impossible geography this collection is an important source book for all those interested in the literature culture and philosophy of realistic impossible worlds

Ethical Futures and Global Science Fiction

2020-01-27

from life along the tigris river in the 1970s to the ongoing arab spring uprisings phil karber has witnessed decades of change throughout the middle east fear and faith in paradise draws on his wealth of experience to sketch a timely and compelling portrait of the region throughout history going beyond the endless images of terrorism and war he challenges pervasive stereotypes of muslims and delves into the living history and cultures of arabs turks kurds persians jews tunisians moroccans armenians and others seamlessly moving between past and present karber skillfully develops two overarching themes how america s footprint can be shifted from a military to a humanitarian emphasis and how fear is used as a cudgel by today s monotheistic leaders to sacrifice the faithful whether christian muslim or jewish they all invoke their own vision of paradise often as incentive in hopeless conflicts that seem doomed to be repeated karber s down to earth writing vividly conveys the region s charm and beauty against a backdrop of power struggles among competing faiths nationalisms and outside forces

2007

bill dunn considers and contests accounts of globalization and post fordism that see structural economic change in the late twentieth century as having fundamentally worsened the conditions and weakened the potential of labour including a comparative survey of restructuring in four major industries automobiles construction microelectronics and finance the book suggests the timing of change and its complex and contradictory nature undermine structural explanations of labour s situation it redirects attention towards labour s political defeats and own institutional shortcomings

Growth Without Inequality

2017-03-27

this book is devoted to establishing a completely new concept within economics referred to as trading economics which is a reconstructed economic system in theory that seeks

perfect harmony between micro and macro elements in a structured way hence making the economic theory a rigorous system supported by internal logical continuity representing a revolution of the existing theoretical framework trading economics has changed the logic of mainstream economics specifically it deduces the macro whole from the micro individuals and it introduces a systematic and comprehensive analysis approach it stresses that within an interconnected world the interaction between trading agents is the fundamental driving force behind the operation development and evolution of the economic system
