for top mounting installations scott mixers offers the rugged design model tm mixer ideal for use in washdown environments the tm model high shear mixer is used to rapidly incorporate and disperse the most difficult to handle ingredients applications powder wetting and dispersion gums and rheology modifiers such as xanthan gum cmc carbopol scott mixers offers high shear mixing technologies well suited for mixing powders into liquids creating stable emulsions and particle size reduction with 30 years plus of application experience mixing gums pigments polymers and resins our high performance mixers and mixing systems will provide years of trouble free operation scott turbon top mounted mixers are designed to rapidly disperse dissolve hydrate and de agglomerate processes for a broad range of industries and applications the high fluid velocities make it ideal for creating homogeneous suspensions and typical emulsions from 1 10 microns scott mixers designs and manufactures high performance high shear mixers and turnkey mixing systems for use in the food beverage pharmaceutical cosmetic and chemical process industries scott turbon inline mixers provide efficient and reliable high shear milling the hsp hsm inline series will rapidly disperse dissolve hydrate de agglomerate disintegrate homogenize and emulsify the most difficult ingredients scott turbon laboratory mixers are designed small scale production and pilot plant use these mixers are ideal for testing prior to large scale manufacturing advantages of using a laboratory mixer fully wired and programmed ul 508a approved variable speed controls perfect for scaling work batch sizes from 250 ml to 7 5 gallons mixing jobs ranging from 1 pint to 5 usg are easily handled using the appropriate size scott lab mixer these mixers are designed to mix blend emulsify homogenize dissolve disperse and de agglomerate in a single step this allows scott turbon to accurately scale up time after time scott turbon mixer has been an industry leader manufacturing stainless steel high shear mixers and complete turnkey mixing systems for over 35 years our basic mixing module features the scott mixer head designed to provide high shear with superior pumping action ensuring rapid dispersion and emulsification of ingredients in low to moderate viscosity processing scott turbon mixer offers a variety of mixers including high shear mixers homogenizers and multi shaft mixers these mixers are designed to handle a range of applications from mixing liquids and powders to emulsifying and dispersing materials scott turbon bottom mounted mixers are designed for difficult mixing applications they offer all of the high shear features of the top mounted mixers with the added benefit of saving overhead space while increasing operator working room turbo dixie mixers the scott turbon turbo dixie mixer is capable of mixing highly viscous products such as peanut butter as well as loose emulsions that can be finished with the hsm inline mixer the flow characteristics provide medium shear with maximum flow the scott dixie mixers mimic traditional technology and flow characteristics of our turbon mixer but with less shear ingredients enter the chambers through the side and flow out through a the larger diameter cage this flow characteristic induces a medium shear effect with maximum flow scott turbon mixer owners manuals user guides instructional help documents information our stf series heavy duty portable mixers are fully configurable for your small batch mixing needs our direct drive model is perfect for jobs requiring shear whereas our gear drive model is best for handling larger volumes and higher viscosity fluids these mixing modules are designed to blend disperse hydrate emulsify and homogenize powders and liquids into liquids scott manufactures mixing modules in standard sizes ranging from 65 to 300 gallons and makes custom sizes ranging from 1 to 2 000 gallons scott turbon mixer food mixers owners manuals user guides instructional help documents information scott turbon laboratory top mounted and hydraulic ram mixers can be fitted with additional mixing technology for more efficient processing of thick products the dual shaft mixer normally utilizes a high shear mixer in conjunction with a sweep scrape surface or turbine agitator hygienic stainless steel mixing elements with a white washdown frame and motor push button actuated lift for adjusting mixer height integrated mixer speed control available in two model sizes for volumes ranging from beaker scale 0 5 250ml to 5 gallons 27l typical applications dispersion de agglomeration send inquiry for used 20hp scott turbon batch mixer hi shear disperser emulsifying model 9193 in stock and ready to ship jm industrial sell unused and used complete liquid mixers from leading brands at best price

high shear mixers scott turbon mixer hayward gordon ulc May 21 2024

for top mounting installations scott mixers offers the rugged design model tm mixer ideal for use in washdown environments the tm model high shear mixer is used to rapidly incorporate and disperse the most difficult to handle ingredients applications powder wetting and dispersion gums and rheology modifiers such as xanthan gum cmc carbopol

scott mixing technology scott turbon mixer hayward gordon ulc Apr 20 2024

scott mixers offers high shear mixing technologies well suited for mixing powders into liquids creating stable emulsions and particle size reduction with 30 years plus of application experience mixing gums pigments polymers and resins our high performance mixers and mixing systems will provide years of trouble free operation

scott turbon sanitary top mounted mixers rodem Mar 19 2024

scott turbon top mounted mixers are designed to rapidly disperse dissolve hydrate and de agglomerate processes for a broad range of industries and applications the high fluid velocities make it ideal for creating homogeneous suspensions and typical emulsions from 1 10 microns

scott mixers hayward gordon Feb 18 2024

scott mixers designs and manufactures high performance high shear mixers and turnkey mixing systems for use in the food beverage pharmaceutical cosmetic and chemical process industries

scott turbon hsp hsm inline series rodem Jan 17 2024

scott turbon inline mixers provide efficient and reliable high shear milling the hsp hsm inline series will rapidly disperse dissolve hydrate de agglomerate disintegrate homogenize and emulsify the most difficult ingredients

scott turbon laboratory mixers rodem Dec 16 2023

scott turbon laboratory mixers are designed small scale production and pilot plant use these mixers are ideal for testing prior to large scale manufacturing advantages of using a laboratory mixer fully wired and programmed ul 508a approved variable speed controls perfect for scaling work batch sizes from 250 ml to 7 5 gallons

laboratory mixers omdean com Nov 15 2023

mixing jobs ranging from 1 pint to 5 usg are easily handled using the appropriate size scott lab mixer these mixers are designed to mix blend emulsify homogenize dissolve disperse and de agglomerate in a single step this allows scott turbon to accurately scale up time after time

scott turbon mixer products lighthouse process Oct 14 2023

scott turbon mixer has been an industry leader manufacturing stainless steel high shear mixers and complete turnkey mixing systems for over 35 years

mixing modules scott turbon mixer hayward gordon ulc Sep 13 2023

our basic mixing module features the scott mixer head designed to provide high shear with superior pumping action ensuring rapid dispersion and emulsification of ingredients in low to moderate viscosity processing

scott turbon mixer inc industrial mixer Aug 12 2023

scott turbon mixer offers a variety of mixers including high shear mixers homogenizers and multi shaft mixers these mixers are designed to handle a range of applications from mixing liquids and powders to emulsifying and dispersing materials

scott turbon bottom mounted mixers pharmaceutical online Jul 11 2023

scott turbon bottom mounted mixers are designed for difficult mixing applications they offer all of the high shear features of the top mounted mixers with the added benefit of saving overhead space while increasing operator working room

scott turbon turbo dixie mixers rodem com Jun 10 2023

turbo dixie mixers the scott turbon turbo dixie mixer is capable of mixing highly viscous products such as peanut butter as well as loose emulsions that can be finished with the hsm inline mixer the flow characteristics provide medium shear with maximum flow

dynamic mixer dixie scott turbon mixer batch side May 09 2023

the scott dixie mixers mimic traditional technology and flow characteristics of our turbon mixer but with less shear ingredients enter the chambers through the side and flow out through a the larger diameter cage this flow characteristic induces a medium shear effect with maximum flow

scott turbon mixer user manuals repair guides fixya Apr 08 2023

scott turbon mixer owners manuals user guides instructional help documents information

low shear mixers scott turbon mixer hayward gordon ulc Mar 07 2023

our stf series heavy duty portable mixers are fully configurable for your small batch mixing needs our direct drive model is perfect for jobs requiring shear whereas our gear drive model is best for handling larger volumes and higher viscosity fluids

powder mixing system scott turbon mixer liquid Feb 06 2023

these mixing modules are designed to blend disperse hydrate emulsify and homogenize powders and liquids into liquids scott manufactures mixing modules in standard sizes ranging from 65 to 300 gallons and makes custom sizes ranging from 1 to 2 000 gallons

scott turbon mixer food mixers manuals user guides fixya Jan 05 2023

scott turbon mixer food mixers owners manuals user guides instructional help documents information

scott turbon dual and triple motion mixing technology rodem Dec 04 2022

scott turbon laboratory top mounted and hydraulic ram mixers can be fitted with additional mixing technology for more efficient processing of thick products the dual shaft mixer normally utilizes a high shear mixer in conjunction with a sweep scrape surface or turbine agitator

lab mixers scott turbon mixer hayward gordon ulc Nov 03 2022

hygienic stainless steel mixing elements with a white washdown frame and motor push button actuated lift for adjusting mixer height integrated mixer speed control available in two model sizes for volumes ranging from beaker scale 0.5 250ml to 5 gallons 27l typical applications dispersion de agglomeration

used 20hp scott turbon batch mixer hi shear disperser Oct 02 2022

send inquiry for used 20hp scott turbon batch mixer hi shear disperser emulsifying model 9193 in stock and ready to ship jm industrial sell unused and used complete liquid mixers from leading brands at best price
