David Farragut in the Civil War that prepared them for victory over the Spaniards. This history of the U.S. Navy's operations in the war provides some memorable portraits of the colorful officers who decided the outcome of these battles: Shang Dewey in the Philippines and fighting Bob Evans off Southern Cuba; Jack Philip Conning, the Texas and Constructor; Hobson scuttling the Merrimac; Clark of the Oregon pushing his battleship around South America; and Adm. William Sampson and Commodore Scott Schley ending their careers in controversy. These officers sailed into battle with a navy of middle-aged lieutenants and overworked bluejackets along with green naval militiamen. They were accompanied by numerous onboard correspondents who documented the war in addition to descriptions of the men who fought or witnessed the pivotal battles. On the American side, the book offers sympathetic portraits of several Spanish officers. The dons for whom American sailors held little personal enmity, Admirals Patricio Montojo and Pasqual Cervera, doomed to sacrifice their forces for the pride of a dying empire, receive particular attention. The first study of the Spanish American War to be published in many years, this book takes a journalistic approach to the subject, making the conflict and the people involved relevant to today's readers. This work details a war in which victory was determined as much by leadership as by the technology of the American steel navy. No descriptive material is available for this title for over three decades. Ellen Datlow has been at the center of horror, bringing you the most frightening and terrifying stories. Datlow always has her finger on the pulse of what horror readers crave now. With the eighth volume of the series, Datlow is back again to bring you the stories that will keep you up at night. Encompassed in the pages of the best horror of the year have been such illustrious writers as Neil Gaiman, Kim Stanley Robinson, Stephen King, Linda Nagata, Laird Barron, Margo Lanagan, and many others. With each passing year, science technology and the march of time shine light into the craggy corners of the universe, making the fears of an earlier generation seem quaint. But this light creates its own shadows. The best horror of the year chronicles these shifting shadows. It is a catalog of terror, fear, and unpleasantness as articulated by today's most challenging and exciting writers. Since the invasion and colonization of Puerto Rico in 1898, all Puerto Ricans are both American citizens and colonial subjects by birth. According to international law, over a third of this population currently lives in the continental U.S., forming one of the nation's most significant minority communities. Yet no complete study of mainland Puerto Rican or Boricua literature has been written until now. Boricua literature is the first literary history of the Puerto Rican colonial diaspora, the result of a decade of research in archives and special collections in the Caribbean and in the U.S. Lisa Sánchez González argues that the writing of the Puerto Rican diaspora should be considered an integral field of study covering 100 years of Boricua literary history. Each chapter looks at the single writer or group of writers who are most emblematic of their respective generation, from William Carlos Williams and Arturo Schomburg to Latina feminism and salsa music. The story of an American community of color, Boricua literature is also about contemporary critical race and gender studies. Unlike virtually all studies concerning mainland Puerto Rican writing, Lisa Sánchez González is less concerned with cultural identity and more concerned with substantive cultural intellectual history. The first explicitly literary historical analysis of Boricua literature, this definitive work is edited by Dipiro, Joseph Schwinghammer, and Terry published by McGraw Hill Professional 2011.

since the invasion and colonization of puerto rico in 1898 all puerto ricans are both american citizens and colonial subjects by birth according to international law over a third of this population currently lives in the continental u s forming one of the nation s most significant minority communities yet no complete study of mainland puerto rican or boricua literature has been written until now boricua literature is the first literary history of the puerto rican colonial diaspora the result of a decade of research in archives and special collections in the caribbean and in the u s lisa sánchez gonzález argues that the writing of the puerto rican diaspora should be considered an integral field of study covering 100 years of boricua literary history each chapter looks at the single writer or group of writers who are most emblematic of their respective generation from william carlos williams and arturo schomburg to latina feminism and salsa music the story of an american community

of color boricua literature is also about contemporary critical race and gender studies unlike virtually all studies concerning mainland puerto rican writing lisa sánchez gonzález is less concerned with cultural identity than with unearthing a substantive cultural intellectual history the first explicitly literary historical analysis of boricua literature this definitive study proposes a new and discreet area of literary historical research in american studies
