constructivism despite being one of the three main streams of ir theory along with realism and liberalism is rarely if ever tested in large n quantitative work constructivists almost unanimously eschew quantitative approaches assuming that variables of interest to constructivists defy quantification quantitative scholars mostly ignore constructivist variables as too fuzzy and vague and the rare instances in which quantitative scholars have operationalized identity as a variable they have unfortunately realized all the constructivists worst fears about reducing

national identity to a single measure such as language religion or ethnicity thereby violating one of the foundational assumptions of constructivism intersubjectivity making identity count presents a new method for the recovery of national identity applies the method in 9 country cases and draws conclusions from the empirical evidence for hegemonic transitions and a variety of quantitative theories of identity ted hopf and bentley b allan make the constructivist variable of national identity a valid measure that can be used by large n international relations scholars in a variety of ways they lay out what is wrong with how identity has been conceptualized operationalized and measured in quantitative ir so far and specify a methodological approach that allows scholars to recover the predominant national identities of states in a more valid and systematic fashion the book includes national identity reports on china the us uk germany france brazil japan and india to both test the authors method and demonstrate the promise of the approach hopf and allan use these data to test a constructivist hypothesis about the future of western neoliberal democratic hegemony finally the book concludes with an assessment of the method including areas of possible improvement as well as a description of what an intersubjective national identity data base of great powers from 1810 2010 could mean for ir scholarship

## **Making Identity Count 2011**

not paved for us chronicles a fifty year period in philadelphia education and offers a critical look at how school reform efforts do and do not transform outcomes for black students and educators this illuminating book offers an extensive expert analysis of a school system that bears the legacy hallmarks and consequences that lie at the intersection of race and education urban education scholar camika royal deftly analyzes decades of efforts aimed at improving school performance within the school district of philadelphia sdp in a brisk survey spanning every sdp superintendency from the 1960s through 2017 royal interrogates the history of education and educational reforms recounting city state and federal interventions she covers sdp s connections with the common school movement and the advent of the philadelphia freedom schools and she addresses federal policy shifts from school desegregation to the no child left behind and every student succeeds acts her survey provides sociopolitical context and rich groundwork for a nuanced examination of why many large urban districts struggle to implement reforms with fidelity and in ways that advance black students academically and holistically in a bracing critique royal bears witness to the ways in which positive

public school reform has been obstructed through racism and racial capitalism but also via liberal ideals neoliberal practices and austerity tactics royal shows how despite the well intended actions of larger entities the weight of school reform here as in other large urban districts has been borne by educators striving to meet the extensive needs of their students families and communities with only the slightest material financial and human resources she draws on the experiences of black educators and community members and documents their contributions not paved for us highlights the experiences of black educators as they navigate the racial and cultural politics of urban school reform ultimately royal names dissects and challenges the presence of racism in school reform policies and practices while calling for an antiracist future

são paulo brazil holds the largest number of japanese descendants outside japan and they have been there for six generations japanese immigration to brazil started in 1908 to replace european immigrants to work in são paulo s expanding coffee industry it peaked in the late 1920s and early 1930s as anti japanese sentiment grew in brazil approximately 189 000 japanese entered brazil by 1942 in mandatory family units after the war prewar immigrants and their descendants became quickly concentrated in são paulo city immigration from japan resumed in 1952 and by 1993 some 54 000 immigrants arrived in brazil by 1980 the majority of japanese brazilians had joined the urban middle class and many had been mixed racially in the mid 1980s japanese brazilians return labor migrations to japan began on a large scale more than 310 000 brazilian citizens were residing in japan in june 2008 when the centenary of japanese immigration was widely celebrated in brazil the story does not end there the global recession that started in 2008 soon forced unemployed

brazilians in japan and their japanese born children to return to brazil based on her research in brazil and japan mieko nishida challenges the essentialized categories of the japanese in brazil and brazilians in japan with special emphasis on gender nishida deftly argues that japanese brazilian identity has never been a static fixed set of traits that can be counted and inventoried rather it is about being and becoming a process of identity in motion responding to the push and pull between being positioned and positioning in a historically changing world she examines japanese immigrants and their descendants historically shifting sense of identity which comes from their experiences of historical changes in socioeconomic and political structure in both brazil and japan each chapter illustrates how their identity is perpetually in formation across generation across gender across class across race and in the movement of people between nations diaspora and identity makes an important contribution to the understanding of the historical development of ethnic racial and national identities as well as construction of the japanese diaspora in brazil and its response to time place and circumstances
