sparkling a battle between shipping companies the railroads and ferries for access to the waterfront in the second half of the nineteenth century the city of new york regained control of the waterfront but a whirlwind of forces beyond the control of either public or private interests technological change in the form of the shipping container and the jet airplane devastated the city s maritime world the city slowly and painfully recovered visionaries reimagined the waterfront and today the island is almost completely surrounded by parkland the world of piers and longshoremen gone replaced by luxury housing and tourist attractions waterfront manhattan is an impressive narrative which is sure to shed light on this underappreciated aspect of new york city history global maritime history an important book there is much to ponder on the future of new york city s harbor journal of american history

New York's New Edge 2014-07-15 americans honor the flag with a fervor seen in few other countries the stars and stripes decorate american homes and businesses wave over sports events and funerals and embellish everything from politicians lapels to the surface of the moon but what does the flag mean in capture the flag historian woden teachout reveals that it has held vastly different meanings over time it has been claimed by both the right and left by racists and revolutionaries by immigrants and nativists in tracing the political history of the flag from its origins in the american revolution through the present day teachout demonstrates that the shifting symbolism of the flag reveals a broader shift in the definition of american patriotism a story of a nation in search of itself capture the flag offers a probing account of the flag that has become america s icon

New York's Economic Growth 2015-10-30 a guide for facilitating discussions about socially divisive issues for students educators business managers and community leaders

Introducing Urban Anthropology 2004 people base thousands of choices across a lifetime on the views they hold of their skill and moral character yet a growing body of research in psychology shows that such self views are often misguided or misinformed anyone who has dealt with others in the classroom in the workplace in the medical office or on the therapist s couch has probably experienced people whose opinions of themselves depart from the objectively possible this book outlines some of the common errors that people make when they evaluate themselves it also describes the many psychological barriers some that people build by their own hand that prevent individuals from achieving self insight about their ability and character the first section of the book focuses on mistaken views of competence and explores why people often remain blissfully unaware of their incompetence and personality flaws the second section focuses on faulty views of character and explores why people tend to perceive they are more unique and special than they really are why people tend to possess inflated opinions of their moral fiber that are not matched by their deeds and why people fail to anticipate the impact that emotions have on their choices and actions the book will be of great interest to students and researchers in social personality and cognitive psychology but through the accessibility of its writing style it will also appeal to those outside of academic psychology with an interest in the psychological processes that lead to our self insight

The State of the World's Cities 2014-12-01 independent scholar falk analyzes the genesis of islamic terror from many standpoints including religious cultural historical political social economic and above all psychological drawing on his training as a clinical psychologist falk s writings specialize in psychohistory and political psychology here he examines topics including infantile experience and adult terrorism the meaning of terror terrorists and their mothers narcissistic rage and islamic terror and whether terrorists are normal people as some scholars claim he also describes the infantile development of terrorist pathology non psychoanalytic theories of terrorism globalization s effect on terrorism and the notion of the clash of civilizations other topics addressed in this reader friendly analysis include history s first islamic terrorists and three important cases two recent deadly terrorists and a primary figure in our current war on terror independent scholar falk analyzes the genesis of islamic terror from many standpoints including religious cultural historical political social economic and above all psychological drawing on his training as a clinical psychologist falk s writings specialize in psychohistory and political psychology here he examines topics including infantile experience and adult terrorism the meaning of terror terrorists and their mothers narcissistic rage and islamic terror and whether terrorists are normal people as some scholars claim he also describes the infantile development of terrorist pathology non psychoanalytic theories of terrorism globalization s effect on terrorism and the notion of the clash of civilizations examining the emotional structure of traditional muslim families falk shows us the muslim child s ambivalence toward his or her parents ways in which muslims abuse women and children and the roots of muslim rage and why all of that plays into the development of future terrorism other topics addressed in this reader friendly analysis include history s first islamic terrorists and three important cases two recent deadly terrorists and a primary figure in our current war on terror the central idea throughout the book is that a person s attitude toward terror and terrorism as well as whether he or she becomes a murderous terrorist or even who wages a global war on terror has much to do with that person s own terrifying experiences in infancy and childhood such terror usually experienced first in the earliest interactions with the mother is symbolically expressed as falk shows in fairy tales and myths about terrifying witches and female monsters further terror may be experienced in the relationship with the father and also in various other traumatic ways it is these early terrors when extreme and uncontrollable that most often produce terrorists and wars on terror falk argues thus his book focuses on the conscious but also on the irrational and unconscious causes of terrorism
