practitioners throughout the world their advancement of our knowledge of the public sphere worldwide and support of enhanced practices combined with caiden s scholarship continue to define vital aspects of contemporary public administration and its future prospects both locally and globally the administrative state which peaked in the 1950s and 1960s gave way to neoliberalism and the new public management during the 1980s and 1990s already this is changing as new ideas and visions surface on the horizon likewise priorities shifted as this volume shows concerns with central planning with control command and direction gave way to greater emphasis on decentralization de bureaucratization and human resources development but also lately ethics and anti corruption strategies due process rule of law defense against arbitrariness and protection and promotion of human and citizens rights have also re emerged as fields of growing concern precisely on account of government s visible deficit in these regards we are constantly on the move but whether our direction will lead to the garrison state or to a democratic facilitative state as one contributor argues remains a central issue which calls for exploration and debate in paying gerald caiden the tribute he so richly deserves this festschrift put together by scholars from around the world traces and accounts for developments and bring us up to date it is a fifty year perspective on a field in rapid change a rich and varied compendium which represents a valuable addition to the literature on public administration a necessary tool for training and research as well as a useful companion for students and practitioners of public service globally efforts have been made toward the application of electronic government in the developing world yet questions of how to best implement governance systems and address concerns from officials and citizens alike remain to be answered emerging issues and subject economics case scenarios addis ababa university college of business and economics course department of public administration and development management language english abstract in recent years the concept of e governance has flourished rapidly with the advancement of information and communication technology the general objective of the study is to assess the prospects and challenges of e governance in public service delivery in the case of fitche town land administration north shoa zone oromia regional state the study employs a descriptive type of research design to describe the prospects and challenges of e governance in fitche town land administration this study combines both a quantitative approach and a qualitative approach the target population of the study is both the customer and employees of land administration in fitche town the researcher randomly selects 70 service receivers who are convenient and 42 or all number of employees in the sector generally 112 participants are applied to this study from both employees and customers of the sector the data collected from participants of the study were analyzed through descriptive statistical methods such as frequency and percentage the study revealed that e governance is a new concept and infant ages in the public service delivery especially in the fitche town land administration sector it reveals that there is a low status of e governance in the sector even if e governance is on the infant age in the sector it gives many contributions in service delivery in the sector like save time reduce bribery increase transparency and accountability in the sector the research found that infrastructure like internet access was the major significant challenging issue in the success of e governance system in the sector and lack of training was also one of the main obstacles to success in e governance in the selected sector therefore the study recommended that the sector should mainly focus on the clarity in terminology is important not just to academics it is also important for politicians and others engaged in the development of public policy on the utilization of ict in government and also pieces of training are important for the success of e governance in the land administration sector one of the most pivotal events in the electoral cycle is the transition of a newly elected political party from opposition to government the incoming prime minister or premier must assemble a team of ministers advisors and staff that is competent and ready to govern without disrupting the day to day functioning of their country or province off and running sets the stage for successful transitions by describing the best practices from canadian federal government transitions from 1984 to the present day

it draws on a number of sources the author's own career in public affairs including his significant role in the transitions of both chrétien governments in 1993 and 1997 extensive interviews with more than forty key individuals in the last eleven federal government transitions and the international literature on government transitions public administration and management zussman goes step by step through the transition process from the pre election stage to transition planning all the way to implementation and consolidation of the new government this book is ideally suited to those seeking an understanding of how government works during one of the most crucial points in its life cycle this forward thinking handbook provides a thorough and comprehensive guide on the positive prospects for public management and governance across the african continent exploring best practices learned by public management and governments in the region this book examines africa's ability to leapfrog developed nations in the adoption and adaptation of managerial models techniques and applications for government in indian context the european administrative space can be understood broadly as a space of european public administration and may be the subject of administrative science a multidisciplinary science in its concerns entered the classical concept of staatswissenschaften elements public law political science and public economics european structure can be analyzed from the perspective of these areas that are studied in different proportions also in the national university curricula in a narrow sense we can speak of administrative law governing this european space the notion of european administrative space can be thought modeled on european economic and social space being connected with the legal system wide cooperation traditionally a common administrative space is possible when a set of legal principles rules and regulations are respected uniformly in a territory covered by a national constitution thus we can speak of each sovereign state administrative law the issue a law on public administration which fits all sovereign states that joined the eu was debated intensely since the establishment of the european community this book is edited with the support of the romanian ministry of research and innovation the volume throws light on some of the emerging perspectives ranging from privatization debate new economic policy research and infrastructure development law and order problem administrative corruption role of ethics and leadership etc the economic and social development that bangladesh has achieved in the past two decades has made bangladesh a development paradox this book tries to explain this paradox through a political economy lens the book explains the linkages between the state changing society and emerging private sector and examines whether the social transformation taking place in bangladesh has the potential to live up to the expectations of a middle income country the early part of the book unravels the myriad relations between the state society and market to project the aspirations of a newly independent nation it analyzes how political turmoil militarization of politics politicization of institutions reforms initiatives industrial and social development policies and the power nexus influenced the nature of the political economy of bangladesh the book goes on to examine how domestic appetite for capital and raw materials the digital revolution and the capacity of the local market to absorb expanded economic activities have created an environment that catalyzes innovation and entrepreneurship the book also explains how the country has attempted to transform from an agrarian to a manufacturing based economy with rapid growth in the ready made garment industry pisciculture pharmaceuticals and the ict sector bangladesh's journey from an emerging economy towards a developed country would interest those researching on development economics and those in policy making this wide ranging text analyses the key developments and changes in the management of the major public services in britain during the 1990s designed as a successor to the editors highly successful managing the new public services the book places public management and in particular the third way as adopted by new labour in its economic political and historical context including the impact of globalization and european integration extended case studies illustrate and highlight key stages in the transformation of management and the book concludes with an evaluation and critique of two decades of managerial reform and a discussion of the way forward in the new millennium
