

Free download Socio economic status of rural women in kadapa district of ap (Read Only)

reprint of the original first published in 1875 the publishing house anatiposi publishes historical books as reprints due to their age these books may have missing pages or inferior quality our aim is to preserve these books and make them available to the public so that they do not get lost women are the backbone of the village economy of rural india women take up different works to eke out their livelihood and the majority of the rural women depend on agriculture which is the major unorganized sector in india many of these labour are landless belongs to lower social and economic status the role and status of women are altered in the process of agrarian social transformation due to the technology of cultivation the disaggregated pattern of development has varied impact on women members of every region group class and caste in this backdrop it is pertinent to examine the status of women across the levels of rural transformation consequent upon the technological and agricultural growth except a few studies conducted here and there no serious study is done to explain this social phenomenon an attempt is made in this book to study the women labour especially in agricultural field of kadapa district of andhra pradesh a few words about this book on the magnitude of co operative credit defaults by farmers in ysr district of andhra pradesh with references to primary agricultural co operative societies this book is focused on agriculture credit structure in india as well as ysr district and reasons of agricultural credit defaults in primary agricultural co operative societies in ysr district give the suggestions to reduce the agricultural credit defaults and enhance the agriculture credit supply in rural areas in my hopes book is used to co operative students at the training centres the students of commerce and co operation in the colleges and universities would be benefited in understanding through this humble endeavour of mine the techniques of co operative societies for providing where withal to the million of un organised poor peasants i shall feel more than rewarded for this venture on my part this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work is in the public domain in the united states of america and possibly other nations within the united states you

may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public to ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface we appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant based on solid research this book is the first of its kind on rayalaseema a drought prone region in andhra pradesh pointing out the topographical limitations it gives reasons for the region s economic backwardness the book presents new approaches and methods for solving real world problems it highlights in particular innovative research in the fields of cognitive informatics cognitive computing computational intelligence advanced computing and hybrid intelligent models and applications new algorithms and methods in a variety of fields are presented together with solution based approaches the topics addressed include various theoretical aspects and applications of computer science artificial intelligence cybernetics automation control theory and software engineering print edition is released by district governor lion c balaswamy in august this digital edition is to save paper and save trees it also enables portability started in 1958 sanathana sarathi is a monthly magazine devoted to sathya truth dharma righteousness shanti peace and prema love the four cardinal principles of bhagawan baba s philosophy it is published from prasanthi nilayam the abode of highest peace and acts as a mouthpiece of baba s ashram as it speaks of the important events that take place in his sacred abode besides carrying divine messages conveyed through divine discourses of bhagawan sri sathya sai baba the word meaning of sanathana sarathi is the eternal charioteer it signifies the presence of the lord in every being as the atma guiding their lives like a charioteer it implies that he who places his life the body being likened to a chariot in an attitude of surrender in the hands of the lord will be taken care of by the lord even as a charioteer would take the occupant of his chariot safely to its destination the magazine is an instrument to disseminate spiritual knowledge for the moral physical and mental uplift of humanity without any discrimination as the subject matter discussed therein is always of common interest and of universal appeal the fifteen vahinis streams of sacredness known as the vahini series comprising annotation and interpretation of the upanishads and other scriptures itihasas like the ramayana the bhagavatha and the mahabharata and authentic explanations on dhyana dharma prema etc have been serially published in this magazine as and

when they emanated from the divine pen of bhagawan baba this magazine is published in almost all indian languages english and telugu from prasanthi nilayam and others from respective regions every year sanathana sarathi comes out with a special issue in november commemorating the divine birthday the english and telugu magazines are posted on the 10th and 23rd respectively of every month from prasanthi nilayam this magazine has wide ever increasing circulation in india as well as abroad as the study of it brings the reader closer to the philosophy of the avatar in simple understandable language thus spake sai discoursing during the launch of sanathana sarathi from this day our sanathana sarathi will lead to victory the cohorts of truth the vedas the sastras and similar scriptures of all faiths against the forces of the ego such as injustice falsehood immorality and cruelty this is the reason why it has emerged this sarathi will fight in order to establish world prosperity it is bound to sound the paean of triumph when universal ananda is achieved engineering geology is a multidisciplinary subject that interacts with other disciplines such as mineralogy petrology structural geology hydrogeology seismic engineering rock engineering soil mechanics geophysics remote sensing rs gis gps and environmental geology this book is the only one of its kind in the indian market that caters to the students of all these subjects engineers require a deep understanding interpretation and analyses of earth sciences before suggesting engineering designs and remedial measures to combat natural disasters such as earthquakes volcanoes landslides debris flows tsunamis and floods this book covers all aspects of engineering geology and is intended to serve as a reference for practicing civil engineers geotechnical engineers marine engineers geologists and mining engineers engineering geology has also been designed as a textbook for students pursuing undergraduate and postgraduate courses in advanced applied geology and earth sciences a plethora of examples and case studies relevant to the indian context have been included for better understanding of the geological challenges faced by engineers new in this edition the concept of watershed and the depiction of watershed atlas of india latest findings by the indian bureau of mines recent developments in coastal engineering and innovative structures new types of protective structures to guard against tsunamis role of geology in building smart cities environmental legislation in india prof s siddiraju studied systematically hydrological potential of the pulang river basin which fetched for him his doctoral degree for sri venkateswara university tirupathi the thesis is being published in a book form the scope of the study includes collecting relevant literature of geological geomorphological and hydrological information then prof raju has studied climate

water balance and agriculture in the basin then he moved to ascertain water resources ground water exploration hydrochemistry and utilization of land and water resources he devoted the last chapter eighth for summarizing his research work and findings ethnobotany of india volume 1 eastern ghats and adjacent deccan the first of a five volume set provides an informative overview of human plant interrelationships in this southern area of india the volume looks at the ethnic diversity ethnobotany ethnomedicine ethnoveterinary medicine and ethnic food of the region with chapters written by experts in the field the book provides comprehensive information on the tribals the indigenous populations of the region and knowledge on plants that grow around them this new 5 volume set ethnobotany of india provides an informative overview of human plant interrelationships in india focusing on the regional plants and their medicinal properties and uses each volume focuses on a different significant region of india including volume 1 eastern ghats and deccan volume 2 western ghats and west coast of peninsular india volume 3 north east india and andaman and nicobar islands volume 4 western and central himalaya volume 5 the indo gangetic region and central india with chapters written by experts in the field the book provides comprehensive information on the tribals the indigenous populations of the region and knowledge on plants that grow around them each volume includes an introductory chapter with an overview of the region and then goes on to cover ethnic diversity and culture of the ethnic tribes plants used for healing and medical purposes for humans and animals ethnic food plants and ethnic food preparation specific information on the ethnomedicinal plants the parts used and the diseases cured other uses of plants by the ethnic tribes such as for fiber dyes flavor and recreation conservation documentation and management efforts of the ethnic communities and their plant knowledge the books include the details of the plants used their scientific names the parts used and how the plants are used providing the what how and why of plant usage the volumes are well illustrated with over 100 color and 130 b w illustrations together the five volumes in the ethnobotany of india series bring together the available ethnobotanical knowledge of india in one place india is one of the most important regions of the old world and its ancient and culturally rich and diverse knowledge of ethnobotany will be valuable to many in the fields of botany and plant sciences pharmacognosy and pharmacology nutraceuticals and others the books also consider the threat to plant biodiversity imposed by environmental degradation which impacts cultural diversity the efforts made by the indian development planners during the past decades are commendable in reducing poverty and other dimensions of human development however a number of tasks remain

unfinished abject poverty is still a stark reality for millions of indians also wide gaps in human development among states districts and social groups exist there is an urgent need for more concerted efforts to achieve greater social and gender equality women in india are victims of a multiple socio economic and cultural factors they are an integral part of every economy all round development and harmonious growth of a nation would be possible only when women are considered as equal partners in progress with men emancipation of women is a pre requisite for a nation s economic development and social upliftment poverty is the main obstacle for the improvement of the women the role of women and the need to empower them are central to human development programs including poverty alleviation applications of solar energy have been expanding in recent years across the world this monograph details such far reaching and important applications which have the potential for large impact on various segments of the society it focuses solar energy technologies for various applications such as generation of electric power heating energy storage etc this volume will be a useful guide for researchers academics and scientists volume i archaeology covers various aspects of archaeological sites research carried out worldwide it contains 53 articles contributed by reputed archaeologists and covers topics on prehistory rock art indus valley iron age early history early medieval history ethno archaeology palaeo botonical studies and museology in india and southeast asia this book serves as a valuable source book for students research scholars and teachers in archaeology ethno archaeology history and museology who want to know about the evolution of mankind in different perspectives this volume also highlights the love and affection of prof p chenna reddy enjoys in the intellectual world the felicitation volume is brought out in a series of 12 independent books covering a total of 460 articles every volume contains two sections the first section contains the biographical sketch of prof p chenna reddy his achievements and contribution to archaeology history and society the second section of each volume is subject specific e g volume i on archaeology volume ii on early and medieval indian history volume iii on modern indian history volume iv on epigraphy and numismatics volume v on art volume vi on architecture volume vii on religion and philosophy volume viii on economy trade and commerce volume ix on literature volume x tribalore and folklore volume xi contemporary india and diaspora volume xii tourism and contains as many as 460 articles new perspectives on geography and earth science covers a wide canvas of the story of geographical thoughts ideas and knowledge presenting changing philosophy history and methodology of geography the book compiles the intellectual changes in the discipline over the

years this book keeps students abreast with the recent trends in geography the discipline of geography has a history that stretches over many centuries over this time period the study of geography has evolved and developed into an important form of human scholarship examining the historical evolution of geography as a discipline provides some important insights concerning its character and methodology these insights are also helpful in gaining a better understanding of the nature of physical geography today the academic traditions described by pattison are still dominant fields of geographical investigation however the frequency and magnitude of human mediated environmental problems has been on a steady increase since the publication of this notion these increases are the result of a growing human population and the consequent increase in the consumption of natural resources as a result an increasing number of researchers in geography are studying how humans modify the environment a significant number of these projects also develop strategies to reduce the negative impact of human activities on nature some of the dominant themes in these studies include environmental degradation of the hydrosphere atmosphere lithosphere and biosphere resource use issues natural hazards environmental impact assessment and the effect of urbanization and land use change on natural environments currently ethnobotany has been a subject of wide interest for research in developing and developed countries the book has been dedicated to the doyen of indian ethnobiology dr s k jain fna popularly known as father of indian ethnobotany the book comprises very important articles written by notable ethnobiologists botanists on different aspects of ethnobotany the book would certainly be useful to the students researchers and teachers working on various aspects of ethnobotany and helpful to various pharmaceutical industries in exploring plants for preparation of new drugs disasters undermine societal well being causing loss of lives and damage to social and economic infrastructures disaster resilience is central to achieving the 2030 sustainable development goals especially in regions where extreme inequality combines with the increasing frequency and intensity of natural disasters disaster risk reduction and resilience requires participation of wide array of stakeholders ranging from academicians to policy makers to disaster managers disaster resilient cities adaptation for sustainable development offers evidence based problem solving techniques from social natural engineering and other disciplinary perspectives it connects data research conceptual work with practical cases on disaster risk management capturing the multi sectoral aspects of disaster resilience adaptation strategy and sustainability the book links disaster risk management with sustainable development under a common umbrella showing

that effective disaster resilience strategies and practices lead to achieving broader sustainable development goals provides foundational knowledge on integrated disaster risk reduction and management to show how resilience and its associated concept such as adaptive and transformative strategies can foster sustainable development brings together disaster risk reduction and resilience scientists policy makers and practitioners from different disciplines case studies on disaster risk management from natural science social science engineering and other relevant disciplinary perspectives society provides human physical and cultural resources for the growth and development of science and technology in turn developments in science and technology influence society as such technology and society are obviously in a reciprocal relationship and all social institutions are affected by technology understanding the influence of technology in bringing about social change has assumed greater significance in current sociological research given the development of technological advances such as information technology and biotechnology in this context this book provides an understanding of the influence of the adoption of tissue culture one of the techniques of biotechnology on the social organization of production and of social relations in the production process including attitudes knowledge and practices associated with the cultivation of fruit crops which have been commercially important in the context of increasing demand for fruit the book deals with one of the most commercially successful biotechnologies plant tissue culture technology ptc in horticulture the sociological study of the social economy of crops has recently gained significance in studies concerned with science technology and society sts studies this book is unique in its examination of the nature of the adoption of plant tissue culture technology by farmers and of issues concerning ptc technology at the micro level dr yeduguri sandinti rajasekhara reddy popularly known as ysr was an astute politician and a charismatic mass leader who had carved for himself a niche in andhra pradesh politics he had distinction of leading congress to victory in andhra pradesh for two consecutive terms his death has left a void no andhra congress politician can fill in the short run this book attempts to provide life rich insights into his life and personality taking a close look at his political achievements it describes in detail how he led congress to victory in 2004 as well as in 2009 elections it also makes a critical analysis of the circumstances that led to his helicopter crash the development policies and programmes run by his government have been evaluated as well pterocarpus santalinus l f popularly known as red sanders an endemic tree belonging to the family fabaceae is confined to the southern parts of eastern ghats iucn has

listed this tree as endangered the plant has superlative characteristics in its wood and has many medicinal properties this plant has attracted the attention of both foresters and lay man because of its high valued wood which is being illegally harvested creating law and order problem this book is a comprehensive monograph on red sanders and is divided into 15 chapters the book provides information on taxonomy morphology distribution wood anatomy wood properties and uses dye principle phytochemistry pharmacology silvicultural aspects propagation cultivation practices reproductive biology pests and diseases biotechnology molecular studies conservation trade commerce socioeconomic aspects of red sanders and grey areas of research the book is profusely illustrated with colour photographs and line drawings relevant references have been provided under each chapter this monograph on red sanders with systematic representation of information and illustrations will be a desk reference and field guide to foresters botanists researchers farmers traders and environmentalists this book examines the recent advances from theoretical and applied perspectives addressing the major issues associated with renewable energy systems with each chapter covering fundamental issues and latest developments this book covers important themes including solar energy equipment wind and solar energy systems energy storage and bioenergy applications hybrid renewable energy systems as well as the measurement techniques that are used for these systems further it focusses on original research outcomes on various technological developments and provides insights to taxonomy of challenges issues and research directions in renewable energy applications features covers research and technological developments in wind and solar energy applications proposes resolution of limitations and performance issues of existing system models and design incorporates the challenges of adoption of renewable energies system provides hypotheses mathematical analysis and real time practical applications to practical problems includes case studies of implementation of solar and wind systems in remote areas this book is aimed at researchers professionals and graduate students in electrical and mechanical engineering and renewable energy the present book has been designed to bind prime knowledge of climate change induced impacts on various aspects of our environment and its biological diversity the book also contains updated information methods and tools for the monitoring and conservation of impacted biological diversity appsc andhra pradesh current affairs yearbook 2021 it gives us immense pleasure in presenting the andhra pradesh current affairs yearbook 2021 useful for appsc state psc and all other competitive exams this book deals with the relevant features and topics of current affairs of state in a systematic and

comprehensive manner by the use of simple and concise language for easy and quick understanding we hope that the readers will find this book user friendly and helpful in preparation of their examinations i look forward to have the views comment suggestions and criticism from readers which would definitely help in further improvement of the book i would like to heartfelt thanks to all my team members for their efforts to prepare this book wish you happy reading and best wishes for the examinations current affairs general knowledge yearbook 2021 has become an integral part of a lot of entrance exams being conducted at the graduate and under graduate levels it is very important for students to remain updated on the current happenings in their surroundings especially those that are important from the perspective of state current affairs yearbook 2021 a thoroughly revised reorganised updated and enlarged edition presents a comprehensive study of all the sections that are covered under the subject of general knowledge the yearbook 2021 provides the latest information most authentic data reference material on current affairs and general knowledge it has specially been designed to cater to aspirants of various competitive exams like appsc and other andhra pradesh state psc civil services exams across the state the material has been written in a lucid language and prepared as per the requirements of the various competitive exams all the best andhra pradesh gk and current affairs for andhra pradesh psc appsc group 1 group 2 group 3 group 4 exams aptet exam andhra police exams ap postal circle exam appsc preliminary and main exams 2020 21 appsc andhrapradesh prelimsexam andhrapradeshgk civilservicesexam andhrapradeshpsc autobiography

District Gazetteer, Cuddapah 2020 reprint of the original first published in 1875 the publishing house anantiposi publishes historical books as reprints due to their age these books may have missing pages or inferior quality our aim is to preserve these books and make them available to the public so that they do not get lost

Rock Art in Kadapa District, Andhra Pradesh 2018 women are the backbone of the village economy of rural india women take up different works to eke out their livelihood and the majority of the rural women depend on agriculture which is the major unorganized sector in india many of these labour are landless belongs to lower social and economic status the role and status of women are altered in the process of agrarian social transformation due to the technology of cultivation the disaggregated pattern of development has varied impact on women members of every region group class and caste in this backdrop it is pertinent to examine the status of women across the levels of rural transformation consequent upon the technological and agricultural growth except a few studies conducted here and there no serious study is done to explain this social phenomenon an attempt is made in this book to study the women labour especially in agricultural field of kadapa district of andhra pradesh

A Manual of the District of Cuddapah in the Presidency of Madras 1875 a few words about this book on the magnitude of co operative credit defaults by farmers in ysr district of andhra pradesh with references to primary agricultural co operative societies this book is focused on agriculture credit structure in india as well as ysr district and reasons of agricultural credit defaults in primary agricultural co operative societies in ysr district give the suggestions to reduce the agricultural credit defaults and enhance the agriculture credit supply in rural areas in my hopes book is used to co operative students at the training centres the students of commerce and co operation in the colleges and universities would be benefited in understanding through this humble endeavour of mine the techniques of co operative societies for providing where withal to the million of unorganised poor peasants i shall feel more than rewarded for this venture on my part
