Irish detective Mike Mulcahy returns in this deeply satisfying Kirkus Reviews follow-up to the highly acclaimed international bestseller *The Priest* and now he's hot on the trail of an international drugs gang. Irish detective Mike Mulcahy returns in this suspenseful follow-up to the highly acclaimed international bestseller *The Priest* and now he's hot on the trail of an international drugs gang. Mike Mulcahy is exactly where he wants to be: coordinating international intelligence for Ireland's national drugs unit. But with the economy in meltdown and his department facing tough cutbacks, his dream job is in jeopardy. Then Mulcahy spots a possible link between the murder of a Dublin gangster in Spain and a massive shipment of cocaine abandoned off the south coast of Ireland. Could this be the break he's been praying for? Meanwhile, reporter Siobhan Fallon is still recovering from her ordeal at the hands of a sadistic killer. Work is her only refuge, and while she's an emotional basket case, her nose for a story is as sharp as ever. When a suicide turns out to have a bizarre missing-persons angle, she's convinced there is something darker to it. But with a vital piece of evidence beyond her grasp, she has to turn to Mulcahy for help. Mulcahy and Fallon have no idea what deadly ground they're setting out on together or that their journey will lead them on a twisted trail of terror to the rocky shores and windswept hills of West Cork and a blood-drenched showdown with a remorseless killer.

1901

The Children of Eve is the first book to bring together general material about population and well-being in a single volume. It presents a world history of demographic and economic change that ranges broadly over time and space and which emphasizes the commonality of human experience. The first book to put together material about population and well-being in a single volume, it emphasizes the formative population history of Europe and North America over the years since the Middle Ages and includes discussions of Asia and the Southern Hemisphere. The authors successfully maintain the difficult balance of addressing complex issues in a style that doesn't oversimplify the subject while upholding an approach that is accessible to general readers and students designed to work as both a stand-alone text or a supplement to textbooks in any number of courses.

a daily mail book of the year and a the times and sunday times best book of 2021 monumental authoritative and highly readable Ben Macintyre the times a fascinating history of royal espionage sunday times excellent compelling guardian for the first time spying and the crown uncovers the remarkable relationship between the royal family and the intelligence community from the reign of Queen Victoria to the death of Princess Diana in an enthralling narrative Richard J Aldrich and Rory Cormac show how the British secret services grew out of persistent attempts to assassinate Victoria and then operated on a private and informal basis drawing on close personal relationships between senior spies the

aristocracy and the monarchy this reached its zenith after the murder of the romanovs and the russian revolution when fearing a similar revolt in britain king george v considered using private networks to provide intelligence on the loyalty of the armed forces and of the broader population in 1936 the dramatic abdication of edward viii formed a turning point in this relationship what originally started as family feuding over a romantic liaison with the american divorcee wallis simpson escalated into a national security crisis fearing the couple s nazi sympathies as well as domestic instability british spies turned their attention to the king during the second world war his successor king george vi gradually restored trust between the secret world and house of windsor thereafter queen elizabeth ii regularly enacted her constitutional right to advise and warn raising her eyebrow knowingly at prime ministers and spymasters alike based on original research and new evidence spying and the crown presents the british monarchy in an entirely new light and reveals how far their majesties still call the shots in a hidden world previously published as the secret royals
