1990-07

this is the only book that completely lists accurate technical data for all cars imported into the u s market from 1946 2000 with many imports approaching the antique status this book will be a big seller across all generations of car enthusiasts from the grandiose european carriages of the late forties to the hot little asian imports of the nineties every car to grace american roadways from across the atlantic and pacific is carefully referenced in this book break break foreign car devotees will appreciate the attention given to capturing precise data on appearance and equipment vehicle i d numbers specification charts engine data chassis technical data options and historical information break break collectors restorers and car buffs will love this key book from noted automotive authors james flammang and mike covello

Implement & Tractor Red Book

1988

the viper stunned americans by showing that dodge whose cars were all front wheel drive and mostly powered by four cylinder engines could make a raw brutal v10 powered car that could run with the best team viper went a step further at le mans proving that an american car could handle turns too so well that it won its class repeatedly at a fraction of the cost of the cars it beat this book covers the transition from a concept to a rough and brutal rocket to a world class supercar and includes every generation the story also tells of the rough times when the entire viper business could have been sold to

the highest bidder and considers alternative paths the 2013 17 viper might have taken this is not just a gushing tribute to the dodge viper the author provides an objective view of the full story using business historical and enthusiast perspectives the book looks at the business case for each generation the development stories and their outcomes and describes some of the issues owners may have to watch out for particularly in the early models
