Black's Law Dictionary 1990 excerpt from law dictionary use of students and the legal profession the need of an abridged law
dictionary which should contain the substance of the unabridged dictionaries is conceded on all sides mr brown s english law
dictionary seemed to supply this want in great britain but some changes were required to adapt it to american law and some
additions were found desirable to render it complete the american editor has therefore made occasional changes in the text and
while in some instances considerable matter has been stricken out as being without usefulness or interest to the american law

student yet many new titles have been added and several definitions have been entirely rewritten the new titles are indicated by an asterisk other modifications it has been found impracticable to indicate it has not been the design to entirely americanize the work but only to conform it to the common law as existing in this country the statutory law of the different states and of the united states could not be embraced within the limits of this work even if that were appropriate in a law dictionary it is believed that the law student will find every thing of value in this little work which can be found in either bouvier s or burrill s large dictionaries and there are some features which are of unusual interest such as the accounts of the english courts and legal institutions which mr brown has furnished in a way unparalleled in any other dictionary the tables of law reports and their abbreviations and the list of legal maxims which are appended to the work by the american editor will be found of great service although the work remains substantially an english law dictionary the american editor is confident that it will be entirely satisfactory to the profession in this country besides possessing the superior merit of illustrating the principle of multum in parvo about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The Citation Workbook 1997 excerpt from a law dictionary and glossary primarily for the use of students but adapted also to the use of the profession at large the purpose of this book is to give with brevity but with precision and reasonable fullness the meaning of the words and phrases in the books of the law to give the meaning not only of the modern words but of the words in whatever tongue and whether now a part of living legal language or not which have had legal use and function and which thus mark the lines upon which the law has grown and the salient points in its history with which the student should become familiar this attention to the older and even the obsolete words has been thought necessary to make the book most largely useful to beginners in the study of the law for whose use it is more especially designed and this attention to the older words the more recent words not being in any way neglected ought not to render the book less useful to the members of the profession for they even more than beginners are students of the law and even more than beginners know that truly to understand the newer words and the newer meanings of the old words they must in many cases look far back in its history to norman or to saxon times and to usages of which these old words and these old meanings are the most considerable existing memorial in preserving this older and now half alien matter of the law an effort has been made however by paraphrasing the matter of titles and by grouping those matters which have been derived from older and foreign systems to bring forward into clear relief those matters which are a part of the law or are current in the language of the law as it now stands this has not been easy matter which has been treated as still alive others may regard as dead or at least too old for any present usefulness while matter which has been treated as obsolete or obsolescent others may regard as still in good use it is hoped however that the effort will be found materially to aid in discriminating these
