### **The Holy Quran in Spanish**

2023-01-16

spanish sentences vol 1 spanish to english this edition the dual language text has been arranged into sentences for quick and easy cross referencing the text can be used on its own however the content is ideal for reinforcing grammar and as a precursor to more advanced bilingual editions once a student has studied the basics a suitable book about basic grammar can be helpful the suggestion is that any grammar book be studied more with the intent of recognition and understanding rather than memorising and obsessive rote learning go through as much of the grammar book you feel you can digest maybe even the whole book skipping over what is not easily understood then read through a portion of text in this book looking for examples of what you have picked up or gleaned in your hopefully not so arduous study of grammar even repeatedly seeing a word that you remember seeing listed as a subject pronoun or a third person plural verb of some sort is a great help then depending on your inclination return to the grammar book or your basic spanish book or move on to lengthier bilingual text like in 2language books texts for example or find some suitable spanish text a simple novel a spanish news website etc a dual language book project 2language books
