The Australian & New Zealand Wine Industry Journal

2019-10-22 numerous jurisdictions worldwide have augmented their ratification of the new york convention of 1958 with the uncitral model law 1985 uml which takes a giant step forward toward global uniformity in legal application and understanding of the

arbitration process this book develops a standard or benchmark for the uml objective of uniformity using the relevant legislation and case law of hong kong singapore and australia to consider whether a uniform approach to implementation of the uml and its interpretation is being achieved across those jurisdictions the author s methodological tools are eminently adaptable to other jurisdictions given the importance of the ability to set aside an arbitral award the body of case law on setting aside and the directly related area of enforcement the emphasis throughout is on article 34 in addition the study considers the meaning of uniformity in law and in the context of the uml the correct approach to interpretation of the uml pre and post article 2a the interpretational relationship between the uml and the convention on contracts for the international sale of goods cisg the relationship between the uml and the new york convention the degree of textual uniformity of article 34 with the three jurisdictions focused on and the degree of applied uniformity of article 34 both in terms of juristic methodology and similarity of results the author with more than thirty years of practice in the field of commercial arbitration in hong kong has had access to voluminous cases spanning decades and brings his specialist expertise to the subject this book considers whether the uml has succeeded in its aim of achieving uniformity it serves as a guide both academic and practical to exploring and adopting the correct approach to

the interpretation of the uml as well as to the method of classification of court decisions under the uml this study is of immeasurable academic and practical value *Signal* 1987 this publication examines the international drivers the enabling technologies that are fast tracking industrial biotechnology industry trends some of the products that are appearing on the market industry structure and finance and finally policy measures and trends

Corrosion Atlas Case Studies 2011 we live in an age in which expressive informational and technological subject matter are becoming increasingly important intellectual property is the primary means by which the law seeks to regulate such subject matter it aims to promote innovation and creativity and in doing so to support solutions to global environmental and health problems as well as freedom of expression and democracy it also seeks to stimulate economic growth and competition accounting for its centrality to eu internal market and international trade and development policies additionally it is of enormous and increasing importance to business as a result there is a substantial and ever growing interest in intellectual property law across all spheres of industry and social policy including an interest in its legal principles its social and normative foundations and its place and operation in the political economy this handbook written by leading academics and practitioners from the field of intellectual property law and suitable for both a specialist legal

readership and an intelligent but non specialist legal and non legal readership provides a comprehensive account of the following areas the foundations of ip law including its emergence and development in different jurisdictions and regions the substantive rules and principles of ip and important issues arising from the existence and operation of ip in the political economy
