majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works one of the last prussian reforms during the napoleonic era was the constitution of local autonomy for the cities proof of its lasting importance is that it was the cities that carried out the deficit based employment policies of the early 1930s also had to carry the burden of a democratic reconstitution of germany in the postwar period after the crushing defeat at napoleon s hands likewise the reconstitution of prussia fell to the cities today the same constellation of problems can be found on different stages europe as it is growing together faces a democracy deficit which ultimately will have to be addressed by the cities the countries in transition and undergoing transformation likewise will have to find arenas for democratic decision making which likely will be at the municipal level finally the united states of america also faces a quagmire at the federal level which ultimately will have to be resolved at the state or local level contributions to this book examine all of these issues making it of interest to students in urban studies public administration history and political science as well as policy makers concerned with local government and autonomy die britische sinfonik ist erst in jüngster zeit ins allgemeine interesse gerückt ein überblick über die sinfonische entwicklung im vereinigten königreich seit den anfängen im 18 jahrhundert bis ins 20 jahrhundert blieb aber bis heute ein desideratum der hier vorgelegte überblick zeigt wie sich die identität einer britischen sinfonik über mehr als hundert jahre entwickelte geprägt durch einflüsse vom europäischen kontinent und von dem bedürfnis eigene wege zu finden gegen ende des 19 jahrhunderts nahm das sinfonische schaffen in großbritannien stark zu brachte jedoch erst mit edward elgar einen prominenten vertreter von internationalem rang hervor ein besonderer schwerpunkt dieser publikation liegt auf jenen werken die zu einem gewissen grade von anderen überschattet wurden unveröffentlicht oder unaufgeführt blieben das ergebnis ist das bild einer vielgestaltigen sinfonischen landschaft großbritanniens das die ästhetischen perspektiven der einzelnen komponisten wie auch ihre soziokulturellen kontexte erhellt ein umfangreiches verzeichnis aller bekannten werke und eine ausführliche bibliographie laden zu weiterer erkundung des sujets ein only in relatively recent times has any real attention been given to british symphonies so a comprehensive survey showing what exists and how the situation in the united kingdom developed from the beginnings in the 18th century until well into the 20th century is long overdue the preliminary survey presented here shows how a british symphonic identity gradually took shape over more than a century through influences from abroad and at home enterprising attempts to find new ways of expression by the end of the 19th century british symphonists had produced an impressive body of work yet only with the appearance of elgar s two symphonies in the following decade did this flourishing school find a champion of international renown in this publication light is shone on those works that have to some extent been overshadowed as well as on those that have remained unpublished or unperformed the result is a multi faceted panorama of british symphonism offering many insights into the composers thinking and their socio cultural contexts a comprehensive catalogue of all known works and an extensive bibliography invite readers to delve further into the subject the book fragments of two centuries glimpses of country life when george iii was king has been demography and sociology of italian fertility since napoleonic times using the statistical system instituted in 1861 with national unification massimo livi bacci provides a systematic and detailed analysis of fertility trends in italy in the nineteenth and twentieth centuries he brings to light the main features of the secular decline its rapid occurrence in the northern and central areas the widening urban rural gap the shaping of social and economic differences and the late slow downward trend in the south multivariate statistical analysis enables the author to measure the changing relationship between fertility and social or economic phenomena historical evidence illustrates the effect on fertility of mass emigration and fascist policy as well as of social changes such as those in agrarian structure mobility and communications an altered attitude

toward procreation is evident in some parts of italy in the early nineteenth century the decline becomes apparent in certain northern and central regions in the 1870s and 1880s and it appears at the australiano catholic university the katholieke universiteit leuven and the humboldt university berlin the aim is to discuss the relationships of jews and christians in the first two centuries ce against the background of recent debates which have called into question the image of parting ways for a description of the relationships of judaism and christianity in antiquity one objection raised against this metaphor is that it accentuates differences at the expense of commonalities another critique is that this image looks from a later perspective at historical developments which can hardly be grasped with such a metaphor it is more likely that distinctions between jews christians jewish christians christian jews etc are more blurred than the image of parting ways allows in light of these considerations the contributions in this volume discuss the cogency of the parting of the ways model with a look at prominent early christian writers and places and suggest more appropriate metaphors to describe the relationships of jews and christians in the early period excerpt from the life of hannah more a lady of two centuries in following the life and literary work of mrs hannah more we shall see how she passed from the narrow view of literature prevailing in the circle of fashionable society into sympathy with the deeper and more earnest spirit which more and more stirred the heart of the age and wakened a wider love and concern for the interest of others we shall also find that while she brought her literary ability into the service of god and of her fellow creatures she could not part with many of the old traditions as to the form and style of literary composition but when we think of her as the friend and favourite of dr johnson in her youth we can readily believe that while she held fast to the large hearted care for the poor and distressed something of which she may have learned from him she would find it difficult to drop those phrases and the latinized style which he had held to be necessary to the dignity of a writer about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at
