1981

nuestra misa es una obra dedicada a conocer y amar profundamente el gran sacrificio de la santísima eucaristía el misterio de la pasión muerte y resurrección de cristo hecho presente una y otra vez sobre nuestros altares el rev padre carlos miguel buela señala que para entender lo que es la misa es indispensable tener ideas correctas acerca de dios de su existencia naturaleza operaciones y de modo especial reconocer que es espíritu puro libre personal providente y trascendente quien no tenga ideas correctas acerca de dios nunca sabrá lo que es la misa las distintas formas de ateísmo que han invadido el campo católico tienden de suyo a desconocer el puesto principal y primero que ocupa dios en la misa por eso hay tantos hombres y mujeres que no valoran la misa no la entienden y en consecuencia no participan o participan mal de ahí que el principal enemigo de la participación eucarística sea el ateísmo teórico pero más aún el ateísmo práctico o increencia el segundo gran enemigo de la participación eucarística es la falta de amor sea por desconocer su verdadera naturaleza sea por ser egoístas sea por no saber obrar por amor los tales están incapacitados para poder entender lo que es la misa ya que la misa es un inmenso acto de amor de dios a nosotros y como consecuencia debe ser un gran acto de amor de nosotros a dios participamos de la misa porque en ella nos sabemos amados por dios y porque en ella satisfacemos nuestra necesidad de manifestarle nuestro amor a Él nuestra misa proemio

el sepher yetziráh o libro de la creación nos reta a escudriñar el contenido y resolver el puzle de la creación el texto al parecer no está escrito en orden pues se nos advierte que debemos examinar e investigar y poner cada cosa en su lugar ha sido un trabajo no muy fácil pero muy interesante ya que me

había propuesto dos cosas primero entender el contenido del libro y segundo tratar de resolver el misterio de los nombres de dios de las letras hebreas saber que es la creación qué significado tiene cada verso considero que logré mi propósito y conseguí verso a verso descifrar este maravilloso puzle que a la final no es imposible de resolverlo pero hace faltan las herramientas de la intuición el conocimiento de ciencias antiguas como son las energías astrales los nombres de dios etc en un principio pensé ponerle el título el libro de la claridad debido a que el objetivo de este manuscrito era aclarar conceptos y entender el texto del sepher yetzirah que no ha sido descifrado todavía pues en todos los libros que he consultado se hace comentarios generales sobre cada verso pero en casi ninguno se hace un análisis directo verso por verso solo arieh kaplan da una explicación detallada de todo el texto su obra la he tomado como orientación mas no he tomado su texto ya que he preferido dejarme llevar de mi intuición al final me decanté por el título arquitectura divina estoy segura de que esta obra que vas a leer querido lector te llevará a conocer directamente los secretos de este libro no solo irás poco a poco conmigo descifrando cada verso sino que irás entendiendo su contenido y a su vez aprendiendo conceptos de la kabbalah los 4 elementos la astrología los nombres de dios etc Único libro sobre el sepher yetziráh que contiene toda la explicación verso a verso con imágenes es la primera vez que se ha logrado decodificar todo el texto de la creación ya que se han permutado todas las letras de los versos Único libro que contiene el texto completo del sepher yetziráh con imágenes explicativas verso a verso el libro está formado de seis capítulos que se componen así capítulo i los 32 senderos de la sabiduría los nombres de dios diez sephiroth y veintidós letras fundamento los elementos agua aire y fuego las 22 letras del alfabeto hebreo capítulo ii las 231 puertas y su permutación capítulo iii tres letras madres aleph mem shin capítulo iv siete letras dobles cómo las permutó los siete planetas en el universo capítulo v doce letras simples o elementales he h vav w zayin z doce constelaciones en el universo los opuestos capítulo vi tres madres siete dobles doce elementales la regla general es las doce constelaciones son aries tauro géminis cáncer leo virgo libra escorpión sagitario capricornio acuario piscis

spanish american civilization developed over several generations as iberian born settlers and their new world descendants adapted old world institutions beliefs and literary forms to diverse american social contexts like their european forebears criollos descendants of spanish immigrants who called the new world home preserved the memory of persons of extraordinary roman catholic piety in a centuries old literary form known as the saint s life these criollo religious biographies reflect not only traditional roman catholic values but also such new world concerns as immigration racial mixing and english piracy ronald morgan examines the collective function of the saint s life from 1600 to the end of the colonial period arguing that this literary form served not only to prove the protagonist s sanctity and move the faithful to veneration but also to reinforce sentiments of group pride and solidarity when criollos praised americano saints he explains they also called attention to their own virtues and achievements morgan analyzes the printed hagiographies of five new world holy persons blessed sebastián de aparicio mexico st rosa de lima peru st mariana de jesús ecuador catarina de san juan mexico and st felipe de jesús mexico through close readings of these texts he explores the significance of holy persons as cultural and political symbols by highlighting this convergence of religious and sociopolitical discourse morgan sheds important light on the growth of spanish american self consciousness and criollo identity formation by focusing on the biographical process itself morgan demonstrates the importance of reading each hagiographic text for its idiosyncrasies rather than its conventional features his work offers new insight into the latin american cult of saints inviting scholars to look beyond the isolated lives of individuals to the cultural and social milieus in which their sanctity originated and their public reputations took shape
