stands out in this memoir is above all the work that he has
treated with exceptional seriousness from the very beginning
describing himself as the little screw that drives itself into the
grand technology as all round machinist and invincible form

grinder readers not familiar with modern technology will have to be impressed in this fascinating story by the thoroughness with which the author describes complicated production processes and high precision items produced by his skilled hands also astonishing is his ability to recollect the details of social interactions in the workplace as well as among the neighbors besides work the most important place is occupied by the family a separate but an equally important hobby is history and politics both the grand one and the smaller local one everywhere whether at work at home or social occasions he participated in discussions impressing everyone with his historical knowledge and his levelheaded outlook on current developments in the usa the world poland and iraq he also was is and always will be a great patriot an ambassador of the polish cause after all as he writes in the closing sentences of his memoirs neither education nor wealth is important what is important for us is to represent our country with dignity wherever we might find ourselves from the foreword by wladyslaw sobecki
