Central America, Panama, and the Dominican Republic 2012-07-16 central america panama and the dominican republic coped well with the global financial crisis of 2008 09 the impact was generally less severe and shorter lived than in previous episodes the balance of payments adjustment was orderly and the stability of the financial system was not compromised this resilience can be attributed to a large extent to the strengthening of the fiscal frameworks monetary management and financial reforms conducted in the years preceding the global crisis nevertheless the region faces considerable challenges for the period ahead including the need to raise medium term growth above historical levels and protect macroeconomic and financial stability this book argues that meeting these challenges will have to come from within in light of the anticipated modest demand growth from trade partners raising growth in the region will depend on the adoption of structural reforms that generate substantial productivity gains rebuilding fiscal space and securing debt sustainability will hinge on efforts to increase tax revenue and reorienting spending to social and investment priorities in the non officially dollarized economies it will also be essential to strengthen the monetary policy frameworks to keep inflation low and increase exchange rate flexibility and improve financial regulation and supervision

The Political History of the United States of America, During the Period of Reconstruction (from

April 15, 1865, to July 15, 1870,) Including a Classified Summary of the Legislation of the Thirty-ninth, Fortieth, and Forty-first Congresses 1871

before Rachel Carson there was George Bird Grinnell, the man whose prophetic vision did nothing less than launch American conservation. George Bird Grinnell, the son of a New York merchant, saw a different future for a nation in the thrall of the industrial age with railroads scarring virgin lands and the formerly vast buffalo herds decimated. The country faced a crossroads: could it pursue Manifest Destiny without destroying its natural bounty and beauty? The alarm that Grinnell sounded would spark America's conservation movement. Yet today his name has been forgotten, an omission that John Taliaferro's commanding biography now sets right with historical care and narrative flair.

Grinnell was born in Brooklyn in 1849 and grew up on the estate of ornithologist John James Audubon. Upon graduation from Yale, he dug for dinosaurs on the Great Plains with eminent paleontologist Othniel C. Marsh. An expedition that fanned his romantic notion of wilderness and taught him a graphic lesson in evolution and extinction, soon he joined George A. Custer in the Black Hills, helped to map Yellowstone, and scaled the peaks and glaciers that through his labors would become Glacier National Park. Along the way, he became one of America's most respected ethnologists. Seasons spent among the Plains Indians produced numerous articles and books, including *Tour de Force: The Cheyenne Indians, Their History and Ways of Life*. More than a chronicler of natural history and indigenous culture, Grinnell became their tenacious advocate. He turned the sportsmen's journal *Forest and Stream* into a bully pulpit for wildlife protection, forest reserves, and national parks. In 1886, his distress over the loss of bird species prompted him to found the first Audubon Society. Next, he and Theodore Roosevelt founded the Boone and Crockett Club to promote fair chase of big game. His influence among the rich and the patrician provided leverage for the first federal legislation to protect migratory birds, a precedent that ultimately paved the way for

the endangered species act and in an era when too many white americans regarded native americans as backwards grinnell s cries for reform carried from the reservation through the halls of congress all the way to the white house drawing on forty thousand pages of grinnell s correspondence and dozens of his diaries taliaferro reveals a man whose deeds and high mindedness earned him a lustrous peerage from presidents to chiefs audubon to aldo leopold john muir to gifford pinchot edward s curtis to edward h harriman throughout his long life grinnell was bound by family and sustained by intimate friendships toggling between the east and the west as taliaferro s enthralling portrait demonstrates it was this tension that wound grinnell s nearly inexhaustible spring and honed his vision a vision that still guides the imperiled future of our national treasures
