*Powell on Real Property* 1976 use of x ray crystallography in the design of antiviral agents describes materials  
 presented at an international workshop held in kona hawaii on february 6 8 1989 which discussed the use of x ray  
 crystallography in the design of antiviral agents this book focuses on the approach that determines the three  
 dimensional structures of viruses and virus proteins with biological activity such as computer molecular modeling the  
 three dimensional structures of a number of immune complexes that involve complexes of antigen with antibodies or  
 peptide antigens complexed with an mhc molecule are also deliberated this text emphasizes that the three  
 dimensional structures allow the rational design of virus replication inhibitors that control virus infections in man and

economically important domestic animals this publication is a good reference for pharmacists biochemists and clinicians researching on the design of antiviral agents
