2019-04-01

our top selling introductory accounting product accounting principles helps students succeed with its proven pedagogical framework technical currency and an unparalleled robust suite of study and practice resources it has been praised for its outstanding visual design excellent writing style and clarity of presentation the new eighth edition provides more opportunities to use technology and new features that empower students to apply what they have learned in the classroom to the world outside the classroom

In Defence of Principles

2010-09-09

since 9 11 and the onset of the war on terror the principal challenge confronting liberal democracies has been to balance freedom with security and individual with collective rights this book sheds new light on the evolution of human rights norms in liberal democracies by charting the activism of four canadian ngos on issues of refugee rights hate speech and the death penalty including their use of difficult often controversial legal cases as platforms to assert human rights principles and shape judicial policy making the struggles of these ngos reveal not only the fragility but also the resilience of ideas about rights in liberal democracies

Canadian Founding

2007

convinced that rights are inalienable and that legitimate government requires the consent of the governed the fathers of confederation whether liberal or conservative looked to the european enlightenment and john locke janet aizenstat analyzes the legislative debates in the colonial parliaments and the constitution act 1867 in a provocative reinterpretation of canadian political history from 1864 to 1873 aizenstat contends that the debt to locke is most evident in the debates on the making of canada s parliament though the anti confederates maintained that the existing provincial parliaments offered superior protection for individual rights the confederates insisted that the union s general legislature the parliament of canada would prove equal to the task and that the promise of life and liberty would bring the scattered populations of british north america together as a free nation

The Law of the Charter

1986

as climate change resource overexploitation and pollution leave ever more visible marks ocean ecosystems economies and people are all affected with coasts on the atlantic pacific and arctic canada faces a formidable challenge in building resilient

sustainable oceans and supporting the communities that rely on them sea change reports on the oceancanada partnership a multidisciplinary project to take stock of what we know about canada s oceans construct possible scenarios for coastal regions and create a national dialogue and vision three themes emerge from this impressive synthesis of social cultural economic and environmental research ocean change access to ocean resources and ocean governance indigenous and non indigenous scholars and practitioners focus on finding solutions to rapid environmental and social transformation outlining the implications for legislation and offering policy recommendations increasingly civil society will have to advocate for oceans and sea change will empower the voices of those who take up that task

Sea Change

this book corrects an imbalance in canadian political literature through offering a conservative account of canadian political thought across 15 chronologically organized chapters and with a mixture of established and rising scholars the book offers an investigation of the defining features and characteristics of canadian conservative political thought asking what have canadian conservative political thinkers and practitioners learned from other traditions and in turn what have they contributed to our understanding of conservative political thought today rather than its culmination canadian conservative political thought will be the beginning of conservative political thought s recovery and will spark debates and future research the book will be a great resource for courses on canadian politics history political philosophy and conservatism canadian studies and political theory

Considerations of Equity in the Settlement of Territorial and Boundary Disputes

2023-03-24

most accounts of canada and the first world war either ignore or merely mention in passing the churches experience such neglect does not do justice to the remarkable influence of the wartime churches nor to the religious identity of the young dominion the churches support for the war was often wholehearted but just as often nuanced and critical shaped by either the classic just war paradigm or pacifism s outright rejection of violence the war heightened issues of canadianization attitudes to violence and ministry to the bereaved and the disillusioned it also exacerbated ethnic tensions within and between denominations and challenged notions of national and imperial identity the authors of this volume provide a detailed summary of various christian traditions and the war both synthesizing and furthering previous research in addition to examining the experience of roman catholics english and french speaking anglicans presbyterians methodists baptists lutherans mennonites and quakers there are chapters on precedents formed during the south african war the work of military chaplains and the roles of church women on the home front

Canadian Conservative Political Thought

2014-01-13

after the collapse of the doha development round of the world trade organization talks agricultural subsidies and market liberalization went high on the political agenda this work features historical documents that address the thorny relationship between trade and politics the appropriate role of international regulation and domestic concerns

Canadian Churches and the First World War

2017-10-23

international organizations are increasingly operating across borders and engaging in legal transactions in virtually all jurisdictions this makes familiarity with the applicable law and practice imperative for both international organizations and those who engage in legal relations with them furthermore the issue of whether how and to what extent domestic courts take into account decisions of foreign and international courts and tribunals in their own decision making has become increasingly important in recent years this book provides a comprehensive empirical study of this transnational judicial dialogue focusing on the law and practice of domestic jurisdictions concerning the legal personality privileges and immunities of international organizations it presents a selection of detailed country by country studies examining the manner of judicial dialogue across domestic jurisdictions and between national and international courts the approach taken in this book intersects with three highly topical areas of international legal scholarship the rapidly evolving law of international institutions the burgeoning research into the role of domestic courts in the international legal system and the recent rise of empirically oriented legal scholarship utilizing our s international law in domestic courts database the book presents analysis of little known cases which have real international significance illustrating the impact and extent of transnational judicial dialogue in the international legal system the book provides important perspectives on the evolution and status of the law of immunity of international organizations and contributes to the understanding of relationships between national courts and between national and international courts

Battles Over Free Trade, Volume 3

2013-09-12

mackey argues that official policies and attitudes of multicultural tolerance for others reinforce the dominant anglo canadian culture by abducting the cultures of minority groups

The Privileges and Immunities of International Organizations in Domestic Courts

2002-01-01

this book provides a current synthesis of principles and applications in landscape ecology and conservation biology bringing

together insights from leaders in landscape ecology and conservation biology it explains how principles of landscape ecology can help us understand manage and maintain biodiversity gutzwiller also identifies gaps in current knowledge and provides research approaches to fill those voids

The House of Difference

1898

this book first published in 1993 focuses on the evolution of accounting institutions practices and standard setting in canada canada s federal system complicates the jurisdictional authority for accounting matters the canadian constitution empowers the ten provinces to regulate the training and certification of accountants and each can incorporate organizations a great deal of effort has been made by accounting bodies on jurisdictional coordination and disputes and this book analyses how these systems have come to function in their present form

Canada: an Encyclopædia of the Country: Rebellion of 1837 and constitutional development. Seigneurial tenure and clergy reserve questions. Provincial educational systems. Waterways, canals, shipping and steamship lines. Mines and minerals. History of the Congregational and Baptist churches

2011-06-27

it is well known that intercompany financing arrangements have become increasingly subject to scrutiny in contexts of applying transfer pricing and anti tax avoidance related rules with contributions by more than 50 leading global transfer pricing and international tax experts from law firms multinational enterprises academia and tax administrations this book provides unparalleled insights into the application of the arm s length principle to different types of financial transactions application of anti avoidance rules to various intra group financial arrangements as well as the business value creation process and the dispute management landscape that underlie intra group financial transactions with in depth analysis of the legislation and market developments that fuel the diverse range of financing options available to market participants and loaded with practical examples and case studies that cover the legal and economic considerations that arise when analysing intra group finance the contributors examine such topics and issues as the following national anti abuse rules applicable to financial transactions tax treaty issues role of credit ratings and impact of implicit support loans cash pooling financial guarantees transfer pricing aspects of performance guarantees mezzanine financing considerations for crypto financing impact of crises situations such as covid 19 how treasury operations can be structured in a group and the decision making process involved how hedges offset or mitigate risks how to apply the arm s length principle to factoring and captive insurance transactions comparability analysis for various transactions special considerations for transactions carried out by a permanent establishment eu state aid and its interaction with transfer pricing rules dispute prevention and resolution tools under the oecd un and eu frameworks and developing countries perspectives focusing on

brazil india and south africa given the challenges facing taxpayers and tax authorities alike this book will prove an immeasurably valuable reference guide to support tax practitioners tax administrations and tax scholars in developing standards and policies in dealing with intra group financing issues

A History of Canadian Accounting Thought and Practice

1981

corporate accountability in the context of transitional justice explores how corporations can be held accountable for their role in past human rights violations when a country is making a transition from conflict or repression to peace and democracy it breaks new ground in theorizing the linkages between the areas of transitional justice and corporate accountability and analyzing problems frequently arising where the two fields meet in practice for example where the role of corporations in past human rights violations is examined by truth and reconciliation commissions or in the course of litigation the book provides an overview of the current trends in law and in legal and political discussion relating to both areas as well as in depth analysis of how tools of corporate accountability and transitional justice can complement each other in order to achieve the best outcomes for bringing justice to victims and lasting peace to societies the authors bring extensive experience from diverse professional backgrounds and jurisdictions to provide the first sustained attempt to address this link the book will be of interest to scholars practitioners policymakers and activists working in the areas of transitional justice corporate accountability and business and human rights

Principles of Classroom Management

2013-03-04

constitutional law has been and remains an area of intense philosophical interest and yet the debate has taken place in a variety of different fields with very little to connect them in a collection of essays bringing together scholars from several constitutional systems and disciplines philosophical foundations of constitutional law unites the debate in a study of the philosophical issues at the very foundations of the idea of a constitution why one might be necessary what problems it must address what problems constitutions usually address and some of the issues raised by the administration of a constitutional regime although these issues of institutional design are of abiding importance many of them have taken on new significance in the last few years as law makers have been forced to return to first principles in order to justify novel practices and arrangements in their constitutional orders thus questions of constitutional revolutions challenges to the demands of the rule of law and the separation of powers have taken on new and pressing importance the essays in this volume address these questions filling the gap in the philosophical analysis of constitutional law the volume will provoke specialists in philosophy politics and law to develop new philosophically grounded analyses of constitutional law and will be a valuable resource for graduate students in law politics and philosophy

how should political power be divided within and among national peoples is the nineteenth century theory of the sovereign and unitary state still fit for purpose in the twenty first century if not can federalism provide a viable alternative model this collection looks at federalism from the perspective of constitutional law taking the united kingdom as a case study part one tracks the

historical evolution of the union and explores the various expressions of federalism that emerged between the eighteenth and twentieth centuries part two then assesses the experience of sovereignty sharing with other nations in the context of international cooperation drawing on the expertise of the foremost commentators in their field the united kingdom and the federal idea provides a timely and reflective evaluation of how constitutional authority is being re ordered within and beyond the united kingdom

The Environment, Risk and Liability in International Law

1944

winner of the harold adams innis prize politics and ideology in canada examines a period of crucial historical change in canada beginning in the mid 1970s when the crisis of the keynesian welfare state precipitated a transition to a new political order based on the progressive downsizing of state involvement in the economy and society using class and ideology as key concepts michael ornstein and michael stevenson examine this transition in terms of the nature of hegemony and hegemonic crisis and the conditions of political order and instability these concepts guide the interpretation of three large surveys of representative samples of the canadian public and two unique elite surveys conducted between 1975 and 1981 the surveys cover an exceptionally broad spectrum of political issues including social programs civil and economic rights economic policy foreign ownership labour relations and language issues and sovereignty a wide ranging analysis of public and elite attitudes reveals a hegemonic order through the early 1980s built around public support for the institutions of the canadian welfare state but there was also widespread public alienation from politics public opinion was quite strongly linked to class but not to party politics regional variation in political ideology on a broad range of issues was less pronounced than differences between quebec and english canada much deeper ideological divisions separated the elites with a dramatic polarization between corporate and labour respondents state elites fell between these two though generally more favourable to capital the responses of the business elites reveal the ideological roots of the mulroney years in support for cuts in social programs free trade privatization and deregulation
