*Summary of Denise Kiernan & Joseph D'Agnese's Signing Their Rights Away*

2022-04-25T22:59:00Z please note this is a companion version not the original book sample book insights 1 john langdon was a merchant shipbuilder and politician he was one of the constitution s best regarded signers and he went from the sea to the battlefield and nearly to the vice presidency 2 john langdon was the first president pro tempore of the united states and he was extremely generous in financing the nation s war he remained active in new hampshire politics but declined all offers to move into the national spotlight 3 nicholas gilman was a delegate from new hampshire who was elected to the congress of the confederation in 1786 he was chosen to attend the constitutional convention in 1787 despite his unpopularity among his colleagues 4 gilman redeemed himself by promoting the constitution to his fellow citizens he wrote to a friend that the document would decide whether the united states would become a respectable nation or a people torn to pieces by commotions

**The Law Times Reports** 1875 america s founding fathers shared similar beliefs on the nature of civic life and the character of those supposed to be able to self govern although they studied the failed republics of the ancient world they believed that classical ideals were still applicable to politics this unique contribution to the literature on american founding gathers leading thinkers who set out not to relate its history but its intellectual underpinnings they explore the founding fathers assumptions about civic life human nature political institutions private morality aesthetics education and history chapters on natural law the judeo christian conception of human nature the influence of aristotle and cicero the symbolic role of architecture and the importance of education help understand the foundations that led to the declaration of independence and a constitutional charter that aimed to be universal in its human aspirations this authoritative work provides a conservative response to more liberal interpretations of america it will enrich the debate on civic life and be a key resource to anyone interested in america s experiment in ordered liberty

**Employers' Liability for Personal Injuries to Their Employees** 1883 the first real exposé of how universities have trademarked copyrighted branded and patented everything they do universities generate an enormous amount of intellectual property including copyrights trademarks patents internet domain names and even trade

secrets until recently universities often ceded ownership of this property to the faculty member or student who created or discovered it in the course of their research increasingly though universities have become protective of this property claiming it for their own use and licensing it as a revenue source instead of allowing it to remain in the public sphere many universities now behave like private corporations suing to protect trademarked sports logos patents and name brands yet how can private rights accumulation and enforcement further the public interest in higher education what is to be gained and lost as institutions become more guarded and contentious in their orientation toward intellectual property in this pioneering book law professor jacob h rooksby uses a mixture of qualitative quantitative and legal research methods to grapple with those central questions exposing and critiquing the industry's unquestioned and growing embrace of intellectual property from the perspective of research in law higher education and the social sciences while knowledge creation and dissemination have a long history in higher education using intellectual property as a vehicle for rights staking and enforcement is a relatively new and as rooksby argues dangerous phenomenon for the sector the branding of the american mind points to higher education's love affair with intellectual property itself in all its dimensions including newer forms that are less tied to scholarly output the result is an unwelcome assault on the public's interest in higher education presuming no background knowledge of intellectual property and ending with a call to action the branding of the american mind explores applicable laws legal regimes and precedent in plain english making the book appealing to anyone concerned for the future of higher education

*Convention Record* 1890 this book it is about the father who cry out to god who created him in his father blood and in his mother womb day after day week after week and months after months or even years after years now because i do not want my children to be adopted by any one my wife die in 2000 and i did not want my children to be adopted that is why i write this book for anyone who love is children to stop wrong adoption because i deem if any one love his or her children that person children should not be take away from them therefore god of life who created all human being help all human being who will read this book and let them believe me oh god you say ask and it will be given and what every will be allow on earth will be granted in heaven i ask you now i need my children to come back to me and let evil who take them stop or lose for every

*Cobbett's Parliamentary Debates* 1888 this book provides a thorough critical overview of the current debate on the ethics of war as well as a modern just war theory that can give practical action guidance by recognizing and explaining the moral force of widely accepted law traditionalist walzerian and revisionist approaches have dominated contemporary debates about the classical jus ad bellum and jus in bello requirements in just war theory in this book uwe steinhoff corrects widely spread misinterpretations of these competing views and spells out the implications for the ethics of war his approach is unique in that it complements the usual analysis in terms of self defense with an emphasis on the importance of other justifications that are often lumped together under the heading of lesser evil it also draws on criminal law and legal scholarship which has been largely ignored by just war theorists ultimately steinhoff

rejects arguments in favor of moral fundamentalism the view that the laws and customs of war must simply follow an immutable morality in contrast he argues that widely accepted laws and conventions of war are partly constitutive of the moral rules that apply in a conflict the ethics of war and the force of law will be of interest to scholars and advanced students working in just war theory applied ethics political philosophy political theory philosophy of law and criminal and military law

Calcutta Review 1877 w e b du bois was a public intellectual sociologist and activist on behalf of the african american community he profoundly shaped black political culture in the united states through his founding role in the naacp as well as internationally through the pan african movement du bois s sociological and historical research on african american communities and culture broke ground in many areas including the history of the post civil war reconstruction period du bois was also a prolific author of novels autobiographical accounts innumerable editorials and journalistic pieces and several works of history black reconstruction in america tells and interprets the story of the twenty years of reconstruction from the point of view of newly liberated african americans though lambasted by critics at the time of its publication in 1935 black reconstruction has only grown in historical and literary importance in the 1960s it joined the canon of the most influential revisionist historical works its greatest achievement is weaving a credible lyrical historical narrative of the hostile and politically fraught years of 1860 1880 with a powerful critical analysis of the harmful effects of democracy including jim crow laws and other injustices with a series introduction by editor henry louis gates jr and an introduction by david leveraging lewis this edition is essential for anyone interested in african american history
